GENERAL MARKET REPORT.

COFFEE—There was a weak market for Rio on the spot, and prices suffered a slight decline. Trading was very moderate. No. 7 flat bean quoted at 18c. and unassorted do, 17⅞c. Sales, 1,500 bags No. 7, 18c; 1,000 bags No. 7, 16⅝c, cost and freight; 1,000 bags No. 4, 18½c, cost and freight; 250 bags No. 10, 16⅝c. Mild grades dull. Sales, 100 bundles Mocha, private terms. Options were variable and unsettled, with a moderate air to the speculation. Have came stronger at the outset, and opening sales here showed gains of 5 points on some months, while others were a trifle lower, but this was followed by freer selling, and late cables were generally weaker, which brought about a decline of 20@30 points, closing barely steady at the bottom. Hayr closed 1 fr. down from the opening. Hamburg opened ½ pfg better, but closed quiet and easier. Exchange declined to 20⅞c, and this added to the heaviness. Options developed further strength to-day, and there was rather more life to the speculation, attended with free buying by "shorts." Liverpool was strong and higher, and silver made a further gain, both of which served as stimulating factors. Final figures were about the top, showing a rise of 4@6 points on this crop, and 7@11 points on next crop months. Sales, 90,500 bales.

GRAIN—WHEAT—Some falling off in the speculation occurred to-day, and trading for the chief part was of a local character, yet the market ruled comparatively firm and closed ½@⅝c higher. At one period, however, there was a rise of ¾@⅞c. Wall Street houses were principal sellers during the early hours, but late in the day one concern turned buyer, and this helped the "bull" side. In the way of crop news, dispatches from the West quoted a prominent commercial journal there as saying that "even with the most favorable weather the next Government report could not show an improvement in winter wheat," and this was used as a strengthening factor. On the other hand, advices from Michigan were more favorable. Cables were steady at the outset, but late public accounts showed a slight decline on some months. Interior arrivals were full, while the seaboard clearances showed a slight increase. Early in the week a prominent operator was reported as being a free seller of June, and this caused momentary weakness here. May opened at 95¾c, and subsequently declined to 94⅞c, but recovered and closed at 95c. June started at 93⅞c, after which it rallied to 94⅛c, but broke thereafter to 93⅛c on selling for Western account, closing, however, at 93⅞c. July sold early at 92⅞c, then up to 92⅞c, down to 91⅞c, leaving off at 92⅛c. Interior arrivals were 205,010 bush spring and 53,143 bush winter. Seaboard receipts, 57,547 bush; clearances, 87,722 bush wheat and 22,000 flour. On the curb May used wheat at 95c, June 93⅛c, July 92⅛c, and December 92⅛c. Cash lots were also made at a slight advance, but trading was quite moderate. Shippers took seven loads, and millers about 16,000 bush. Sales, 4,520,000 bush future, 83,000 bush spot, including ungraded spring at 98⅞c; ungraded winter red at 97@99c; No. 2 red at 97⅝@97¾c; do in store, quoted 96c; No. 1 hard spring, nominal, $1 05; No. 2 April, closing at 95⅞c; do May, 94⅝@95⅝c, closing at 95c; do June, 93⅝@94 3-16c, closing at 93⅞c; do July, 91⅞@92⅝c, closing at 92⅝c; do August, 89⅞@90⅝c, closing at 90⅝c; do September, 89⅞@90⅛c, closing at 90⅛c; do October, closing at 90⅝c; do November, closing at 91⅛c; do December, 91⅞@92⅝c, closing at 92c.....RYE—Held stronger, though trading continues light. Sales (large), 300,000 bush, including Western, 60@70c; Canada, 75@87½c.....CORN—Freer arrivals at the West, and anticipations of larger receipts in the near future, served to weaken the spot market to-day, and prices suffered a decided break. Most grades closed 1@2½c lower, with increased offerings. Exporters were active buyers at the reduction, taking 288,000 bush here (mainly special delivery), and 56,000 bush at outports. Options opened weak and subsequently broke ¼@⅝c, on heavy selling at the West, but closed steadier, and only a trifle below the current figures of yesterday. Sales, 1,184,000 bush future, 412,000 bush spot and special, including Ungraded Mixed and White at 39@45c; Steamer Mixed, 41⅝@43⅝c elevator, 43@44½c delivered; No 2 Mixed, 43@44½c elevator, 43⅝@46c delivered, 40⅝@42⅝c special delivery up to September; No 2 April, closing nominal; do May, 40 3-16@40⅝c, closing at 40⅝c; do June, 40 3-16@40⅝c, closing at 40⅝c; do July, 40⅝@40⅞c, closing at 40⅞c; do August, 41 5-16@41⅝c, closing at 41⅝c; do September, 42c, closing at 42c.
