Early in the day the market ruled weak, and prices declined 1@2 points, in keeping with easier Liverpool advices, but the feeling gradually became stronger, and the close showed a full recovery, with some months 1 point higher than yesterday. GRAIN—WHEAT—Is was a comparatively slow day in the option line, and the total volume of trading fell below the 2,700,000 bush, with little interest manifested beyond the customary professional transactions. The drift, however, favored the "bull" element, and closing figures were pretty well up to the top, showing net gains of ¼@¾c over the regular final of yesterday. June opened at 97¼c (a rise of ¼c), after which there was a decline to 96⅞c, but this was followed by an advance to 97½c, closing firm. July started at 96½c, against 95¾c, the official close of yesterday, from which prices declined to 95⅝c on hammering by "bears," but rallied thereafter to 96 7-16c, closing at 96⅜c. August sold early at 94½c, and then broke to 93⅝c, but closed at 94⅜c. December opened at 95½c, advanced to 95¾, after which it dropped to 94½c, but ultimately closed at 95⅝c. Unfavorable crop news served as the chief element of strength, but free buying by a prominent operator at the West added to the buoyancy. "The Cincinnati Price-Current" was quoted as saying that 2,000,000 acres of winter wheat had been abandoned, and that the total yield (of winter wheat) would be 275,000 bush, against 332,243,000 bush last year. Another Western dispatch reported "The Farmers' Review" as saying that the condition of spring wheat was 10 per cent below that of a year ago. In addition to the above, cable advices were somewhat stronger, and clearances continued liberal, nearly 240,000 bush wheat and flour together being sent out, which exerted additional strength. Receipts at all points were quite moderate, but the export demand showed a falling off. Interior arrivals to-day were 150,273 bush spring and 40,271 bush winter. Seaboard receipts, 85,926 bush; clearances, 139,616 bush wheat and 26,000 pkgs flour. On the curb July sold up to 96½c, closing at 96⅜c; August closed 94¼c bid; September, 95⅝c; December touched 95¾c, closing 95½c. CORN—There was a marked falling off in the option dealings to-day, and no prominent features were developed. The fluctuations were mainly in sympathy with wheat. Net gains of ¼@¾c were scored on all months, and the close was firm, though at one period the market ruled barely steady. Cash grades, however, were depressed on liberal arrivals, and continued free offerings. Closing figures were ½@1c lower. Shippers took 192,000 bush here and 88,000 bush at out-ports. Sales, 1,216,000 bush future, 286,000 bush spot and nearby, including ungraded mixed and white at 37¾@42½c; steamer mixed, 39½@40c elevator, 40@40½c delivered; No. 2 mixed 40@40¼c elevator; 40¼@41c afloat, spot and nearby; No. 2 May, 40⅝@40⅞c, closing at 40¾c; do June, 41@41¼c, closing at 41¼c; do July, 41½@41¾c, closing at 41⅜c; do August, 42⅛@42⅜c, closing at 42⅛c; do September, 42¼@43c, closing at 43c. .....
