## GRAIN AND PRODUCE MARKETS.

FEATURES OF NEW-YORK DEALINGS.

The cash wheat market was decidedly stronger yesterday on an export demand that ran up to 320,000 bushels, mainly of spring grades for the United Kingdom. It was this large business, which was not known till late, that gave a strong and excited closing to the option speculation. Earlier bullish influences had been a decrease in the amount on passage to Europe equivalent to nearly 1,000,000 bushels, heavy clearances and stronger cables. Wet weather was also reported from abroad. The business in options only reached 3,760,000 bushels and the covering of shorts was an important feature of the dealings, although the deliveries on contract were light. July opened at 93 1-4 and rose to 94 3-4 cents. August opened at 92 1-4@92 1-8 and then rose to 94 1-4, closing on the curb at 93 9-16 cents. September ranged from 92@91 15-16 to 93 5-8 cents, but lost 1-2 cent on the curb. December sold at 93 1-16@93 7-16 to 95 3-8, but ended after business hours at 94 15-16 cents. The net gains of the day were 1 1-4@1 3-4 cents as follows: July, 94 1-4; August, 93 3-4; September, 93 7-8; December, 95 cents.

The cash option market started at a shade lower but strengthened later, partly in sympathy with wheat. It was reported that Hutchinson was a large buyer at the West. The amount on passage decreased 384,000 bushels. Flour deliveries on contract aggregated 320,000 bushels. The options closed up 1-8@1 4 cent at 41 1-4 for July, 41 7-8 for August, 42 5-8 for September and 43 1-4 cents for October. Cash corn closed strong after an easier opening and 144,000 bushels were taken for shipment.

Heavy deliveries (625,000 bushels) in oats depressed the market for options at the start, but the close was better in response to the buoyancy in the other cereals. The speculation was dull with net gains recorded of 1-4 for July at 34 and August at 33 1-4, and 3-8 cent for September at 31 3-4 cents. Exporters neglected the cash market.

Lard was stronger with 1,220 tierces sold on the spot, principally to refiners. The net gains for the options were 7-5 points as follows: July, $5 99; August, $6 11; September, $6 22; October, $6 31; November, $6 32; December, $6 31.

The receipts of grain and flour reported yesterday at New-York, Philadelphia and Baltimore were as follows: Wheat, 88,925 bushels; corn, 156,649 bushels; oats, 149,707 bushels; total grain, 394,284 bushels; flour, 32,574 packages. At Chicago, Milwaukee and St. Louis the arrivals were: Wheat, 24,757 bushels; corn, 439,675 bushels; oats, 307,861 bushels; total grain, 772,291 bushels; flour, 13,267 barrels.

THE TRADE IN CHICAGO.

Chicago, July 1 (Special).—There have been indications for a week that the foreigners were experiencing the weather they so much dread, rains at harvest time. A newspaper dispatch this morning pictured the situation as much more serious than either the phrase, "incessant rains" or the word "showery" would suggest. This cable described the fields as fairly afloat, said that hay was rotting, and that wheat was "rusting." This was sufficiently corroborated by other circumstances considerably to excite both bulls and shorts. Some of the Liverpool bids for wheat showed an advance over the bids received Monday of nearly 2 cents per bushel. A large amount of flour was bought for export at Minneapolis, at an advance price. The result was a sharp advance in prices here, extending at one time to nearly 4 cents for the nearby options and nearly 3 cents for the more distant options over Monday. July wheat opened at 85 5-8, sold up to 88 and closed at 87 1-4 cents. August opened at 85 5-8, sold as high as 89 and closed at 88 3-8 cents. September opened at 87 5-8, sold at 89 3-4 and closed at 89 1-4 cents. December opened at 90, sold between 88 3-4 and 90 3-4 and closed at 90 1-4 cents. There were free deliveries in the morning, possibly 1,000,000 bushels being delivered out and possibly these were made because there was some uncertainty as to what the elevator rate would be in the future. Before the day was over, however, the impression was current on the floor that the elevator "combine" had been broken and that there certainly would be no advance on storage rates. Corn was helped a little by the great strength of wheat and by the fact that the July liquidation was over. Oats followed the lead of the other grains. Provisions were more affected by the big July deliveries than anything else on the floor. It was estimated that 50,000 barrels of pork were delivered to the clique houses by the people who carried it last month. July pork was bought freely by "Hutch," and closed at $12 35 with August at $12 and September at $11 80. The clique operations were, as they always have been, mystifying. It looked rather as if the trend of their trading was to concentrate their holding in July. No other explanation was possible of their purchase of July at 20 and even 30 cents over the following month. Ribs and lard were steady at fro to 7 1-2 cents over Monday. On the curb September wheat was 89.

## THE PETROLEUM MARKET.

NEWS FROM THE FIELD AND RANGE OF PRICES.

Dulness again visited both Exchanges yesterday in the crude petroleum markets. At the Consolidated Exchange, however, the volume of business, while small in comparison with some previous days, showed an increase from Monday. At the Stock Exchange there was a falling off in the volume of trading. Prices were relatively stronger as the oil boards, ending at a final net advance of 1 cent. The movement of values at the Stock Exchange was insignificant, with a final gain of a trivial fraction. There was no important news from the field, but there was something of a sentiment that the increase in new production shown by the monthly report, had been "discounted" by the recent decline from the nineties. This led to the covering of shorts. The markets ended dull but firm.

The range of prices and the total dealings were as follows:

| | Stock Exchange. | Consolidated. |
|---|---|---|
| Opening | 86 | 87 |
| Highest | 86 | 87 1-8 |
| Lowest | 85 7-8 | 86 5-8 |
