SURROUNDED BY MYSTERY!

A Great Mistake.

A recent discovery is that headache, dizziness, dullness, confusion of the mind, etc., are due to derangement of the nerve centers which supply the brain with nerve force; that indigestion, dyspepsia, nervousness, wind in stomach, etc., arise from the derangement of the nerve centers supplying these organs with nerve force. This is literally true in many diseases. [illegible]

[illegible] Franklin Miles, M. D., LL. B., has made a study of nervous diseases and [illegible] success. [illegible] Dr. Miles' Nervine [illegible] Dr. Miles' Nervine contains no opiates or dangerous drugs.

PLATFORM AND RESOLUTIONS

Of the Silver Party of Ormsby County, adopted in convention held at Carson City, Nev September 25, 1894.

Resolved, That the Silver Party of Ormsby County endorse each and every plank of the platform accepted by the Silver Party of Nevada in the State Convention held at Carson Sep. 4, 1894.

That it congratulates the voters and taxpayers of Ormsby county upon the faithful and efficient manner in which the nominees of 1892 have performed the duties of their respective offices, thereby enabling the Silver Party of Ormsby to keep every pledge made to the people of the county in its party platform prior to election.

Since the accession of the party to the management of county affairs there have been no official scandals and no investigations by Grand Juries, while the letting of fraudulent contracts in the interest of county officials has been wholly done away with.

Each department of the County Government has been honestly and economically managed, with an actual saving to the taxpayers of nearly $10,000 per annum for the past two years.

Under these circumstances the Silver Party of Ormsby feel justified in again demanding the support of the voters and taxpayers of the county at the forthcoming election.

Resolved, That this Party unqualifedly indorses the action of Hon. John P. Jones in withdrawing from a party who, while professing to be the friend of silver in its State platforms, has persistently caused its Representatives in Congress to bow to the mandates of Wall Street.

This Convention denounces as ill-timed, unfeeling and incessant, the demand for the resignation by the Republican State Central Committee of Nevada, who by their illegical and impertinent demands for the withdrawal from the Senate of the United States of a man recognized in both continents as one of the leading silver expoents of the World, have torn aside the miserable mask of monometallism that has so long covered the face of the Republican party of Nevada.

Resolved, That should a vacancy occur in the office of the U. S. Senator from this State which would be necessary to fill at the next meeting of the Legislature, that the vote of the Legislative nominees of this convention is hereby pledged to the Hon. John P. Jones, to fill the unexpired term.

That we endorse the able and conscientous efforts of Senator Stewart and Congressman Newlands in behalf of the white metal in congress.

PLATFORM AND RESOLUTIONS.

The Silver Party of Nevada in convention assembled at Carson City, on the 4th day of September, 1894, declare that platforms should assert cardinal principles of political faith concerning questions of political interest and present moment without equivocation or evasion. We hold that history has demonstrated that these principles are right and equitable and their observance necessary to secure the welfare and individual happiness for which this Government was established.

SILVER.

We deny the right or authority of the Government of the United States to pass any law restricting or abridging the privilege of any citizen to the free coinage of silver into standard money at the legal ratio of 16 to 1, independent of any other nation, and we demand the repeal of all laws denying or abridging that right.

We assert that any law denying or abridging the right of free coinage of gold and silver into standard money at the legal ratio of 16 to 1, independent of all other nations, is a denial of the sovereignty of the people of the United States as a nation and independent state, and law in restraint and abridgement of production and commerce.

We assert that from 1861 to 1884 inclusive, a period of 24 years last passed, the Democratic party and the Republican party have made and administered the law of this nation; that that period has been characterized as of uninterrupted bountiful harvests and bountiful productions from all our great natural resources and that our people have made unparalleled advances in wealth, in every branch of manufacture and artisanship; that the period has been one of general health and notwithstanding the civil war, a period of unparalleled prosperity from 1861 to 1873. In 1873 the Republican party passed laws in restraint of the coinage of money denying mintage to silver, the money we need in the pocket of every citizen and till of every store. The decadence of silver has been steady, gradual and unrelenting as the grip of the gold standard of money has closed around our industries and labor and the price of every production of labor, by forest, field, mine and manufacture, have fallen parallel with the decadence of silver, which today is worth less than 50 per cent of its standard coinage value at the legal ratio of 16 to 1.

Three millions of our people are without the comforts and decencies of life, every industry in our nation is restrained, pinched and dwarfed by the demonetization of silver to the great injury of every laborer, producer and tradesman in the nation.

The volume of money in circulation should be speedily increased and always be fully adequate for the requirements of business. That all money should be a legal tender for debts both public and private. That no money should exist except such as issued directly by the National Government and nothing should be money but gold, silver and Government paper.

We favor the redemption of Government bonds and the prohibition of any further issue thereof in time of peace.

We demand the abolition of National banks.

We demand the collection of the indebtedness of the Pacific railway companies to the United States as it matures without any extension of time or change of terms and conditions.

A public office is a public trust. No person or party should be trusted who has once violated that trust. Every citizen should contribute to the support of the Government in proportion to his means and in accordance with the necessity of good government, but no Government should augment this burden or enhance its necessities by unnecessary needless interest bearing debts making its less expenditures, or by failing to promptly collect what is justly due it, whether it be a bounty, a tax or a tariff.

No grant should be made of public property to any other than a public purpose, and it is the duty of the Government to secure to the public the enjoyment of the benefit which was the consideration of the grant or goodwill forfeited.

We demand Government control of all telegraph lines and Government suitable headquarters.

[illegible]

We demand that the Law shall be [illegible] under which [illegible] the Resolutions and [illegible] to the people freedom of thought and the fruits thereof, the right to enjoy the full value of all property that their labor produces. We hold it as one of the grounds of human existence and no less [illegible] and enterprise, that capital and labor should go hand in hand in the general advancement, happiness and good of the great commonwealth. Therefore we claim that capital and labor should stand on an equal footing before the law, and that the laborer should always receive a fair compensation for a fair day's work. That both capital and labor have the legal and unquestionable right to organize for mutual protection and self preservation.

We believe there a national and State Board of Labor Commissioners should be created by law and made elective by the people, to whom all questions in dispute between capital and labor should be referred and that both parties concerned be compelled to arbitrate and that the decision of such Board of Labor Commissioners be final and binding alike on the employer and employee.

OBEDIENCE TO THE LAWS REQUIRED BY ALL.

We denounce the criminal suspension of the laws of Congress by the President, such as the purchasing clause of the Sherman Bullion Purchasing Act; the Geary Act, providing for the deportation of unregistered Chinese, when its constitutionality has been affirmed by the Supreme court, and his neglect and refusal to enforce the Anti Trust and Inter state commerce Acts against wealthy offenders.

ELECTIVE FRANCHISE.

We denounce the purchase and sale of Elective Franchise as destructive of our liberties and treason to our Government. We demand the disfranchisement of both parties to the crime, and the punishment of the prisoner by fine and imprisonment. The franchise once sold shall be gone forever.

LOTTERIES.

The establishment of a lottery in this State would be a blot upon the people and would result in financial and moral degradation. Therefore, in the language of our constitution, "No lottery ticket shall be authorized by this State, nor shall the sale of lottery tickets be allowed." We condemn in equal terms all Legislatures of this State which have attempted to legislate or authorize lotteries or the sale of lottery tickets.

We are unalterably opposed to the ratification of the proposed amendment to Section 4, Article II of the constitution of our State wherein it ignores all questions of amnesty to persons who after arriving at the age of eighteen years bear arms against the United States Government, for the reason that the same is unAmerican in spirit and contrary to the clemency already extended to such persons for over thirty years, and we therefore recommend to the voters of the State to vote "No" on this proposition.

SCHOOLS.

We are justly proud of the public schools and State University of Nevada; we believe they should be fostered and protected above all other institutions, as upon them rests the perpetuity of the Government and the securities of our liberties. We are in favor of such legislation as will increase the school money and relieve the tax burdened property holders, and that the State University with a thorough education, with other agencies, is placed within the reach [illegible] Nevada.

We announce in the strongest terms the constitutional amendment to be submitted to the people at the coming election for the investment of school money in other securities than U. S. Government or Nevada state bonds, and recommend to the electors of this State that the amendment referred to which provides among other things that our school moneys may be invested in any other bonds than National and Nevada State, be vote against and defeated, and millions of school money saved from loss by an unsafe investment.

We look to the People's party of America as the only national party in existence today honestly in favor of any of the above principles and reforms, and we pledge our best support and co-operation to the peopled Nevada in its efforts to maintain and carry out the same and the nominee of this convention for Congressman, in the event that he shall have a vote for the President of the United States as a member of the House of Representatives, is hereby pledged to vote for the nominee of the People's party unless otherwise instructed by the Silver Party of this State.

We demand the enforcement of the Interstate Commerce Act everywhere.

We are in favor of an amendment to the Constitution of the United States providing for the election of United States Senators by a direct vote of the people of their respective States.

We are in favor of the further restriction of foreign immigration, and demand the exclusion of paupers and contract labor.

The able and efficient services of senators Stewart and Jones and Congressman Newlands in the Congress of the United states in behalf of all interests that promote the welfare of our people, are worthy of the endorsement of every patriotic citizen of our State.

Resolved, That as large penditures are made by the General Government in improving the harbors and rivers of the coast states and the agricultural states of the Ohio and Mississippi valleys equality and justice demands similar appropriations for public uses in the arid region, and that we call on the General Government for liberal appropriations for storing and conserving at their sources the waters of the streams and rivers of the arid region. This being done the reclamation of arid lands can be conducted by the State or by private enterprises.
