Platform and Resolusions of the Silver Party of Nevada.

PREAMBLE AND DECLARATION.

The Silver Party of Nevada in convention assembled at Carson City, on the 4th day of Sept. 1894, declare that platforms should assert cardinal principles of political faith concerning questions of political interest and present moment without equivocation or evasion. We hold this history has demonstrated that these principles are right and equitable and their observance necessary to secure the welfare and individual happiness for which this Government was established.

SILVER.

We deny the right or authority of the Government of the United States to pass any law restricting or abridging the privilege of any citizen to the free coinage of silver into standard money at the legal ratio of 16 to 1, independent of any other nation, and we demand the repeal of all laws denying or abridging that right.

We assert that any law denying or abridging the right of free coinage of gold and silver into standard money at the legal ratio of 16 to 1, independent of all other nations, is a denial of the sovereignty of the people of the United States as a nation and independent state, and law in restraint and abridgement of production and commerce.

We assert that from 1861 to 1894 inclusive, a period of 34 years last passed, the Democratic party and the Republican party have made and administered the law of this nation; that that period has been characterized as of uninterrupted bountiful harvests and bountiful productions in all our great natural resources and that our people have made unparalleled advances in wealth, in every branch of manufacture and artisanship; that the period has been one of general health and notwithstanding the civil war, a period of unparalleled prosperity from 1861 to 1873. In 1873 the Republican party passed laws in restraint of the coinage of money denying mintage to silver, the money weed in the pocket of every citizen and till of every store. The decadence of silver has been steady gradual and unrelenting as the grip of the gold standard of money has closed around our industries and labor and the price of every production of labor, by forest, field, mine and manufacture, have fallen parallel with the decadence of silver, which today is worth less than 50 per cent of its standard coinage value at the legal ratio of 16 to 1.

Three millions of our people are without the comforts and decencies of life, every industry in our nation is restrained, pinched and dwarfed by the demonetization of silver to the great injury of every laborer, producer and tradesman in the nation.

The volume of money in circulation should be speedily increased and always be fully adequate for the requirements of business. That all money should be a legal tender for debts both public and private. That no money should exist except such as issued directly by the National Government and nothing should be money but gold, silver and Government paper.

We favor the redemption of Government bonds and the prohibition of any further issue thereon in time of peace.

We demand the abolition of National banks.

We demand the collection of the indebtedness of the Pacific railway companies to the United States at maturities without any extension of time or change of terms and conditions.

A public office is a public trust. No person of partisan record should be used who has once violated that trust. Every citizen should contribute to the support of the Government in proportion to his means and in accordance with the necessity of good government, but no Government should support its pensioners or enlarge its roll of place by unnecessary needless laws creating debts, making as less expenditures, or by failing to promptly collect what is justly due, whether it be a loan, a tax or a tariff.

No grant should be made of public property for any other than a public purpose, and it is the duty of the Government to secure to the public the enjoyment of the benefit which was the consideration of the grant, or declare it forfeited.

We demand Government ownership of telegraph lines and Government subsidized railroads.

LABOR.

We demand that no law shall be enacted restraining or abridging the developements of our natural resources and we guarantee to the people freedom of pursuit and the inalienable right to enjoy the full value of all property that their labor produced. We hold income of the trust is of human existence and modern progress and enterprise, that capital and labor should go hand in hand in the general advancement, happiness and good of this great commonwealth. Therefore we claim that capital and labor should stand on an equal footing before the law, and that the laborer should always receive a fair compensation for a fair day's work, that both capital and labor have the legal and unquestionable right to organize for mutual protection and self preservation.

We believe that a National and State Board of Labor Commissioners should be created by law and made elective by the people, to whom all questions in dispute between capital and labor should be referred and that both parties concerned be compelled to arbitrate and that the decision of such Board of Labor Commissioners be final and binding alike on the employer and employee.

OBEDIENCE TO THE LAWS REQUIRED BY ALL.

We denounce the criminal suspension of the laws of Congress by the President, such as the purchasing clause of the Sherman Bullion Purchasing Act; the Geary Act, providing for the deportation of unregistered Chinese, when its constitutionality has been affirmed by the Supreme court, and his neglect and refusal to enforce the Anti Trust and Interstate commerce Acts against wealthy offenders.

ELECTIVE FRANCHISE.

We denounce the purchase and sale of Elective Franchise as destructive of our liberties and treason to our Government. We demand the disfranchisement of both parties to the crime, and the punishment of the prisoner by fine and imprisonment. The franchise once sold shall be gone forever.

LOTTERIES.

The establishment of a lottery in this State would be a blot upon the people and would result in financial and moral degradation. Therefore, in the language of our constitution, "No lottery ticket shall be authorized by this State nor shall the sale of lottery tickets be allowed." We condemn in equal terms all Legislatures of this State which have attempted to legislate or authorize lotteries or the sale of lottery tickets.

We are unalterably opposed to the ratification of the proposed amendment to Section 1, Article II of the constitution of our State wherein it ignores all questions of allegiance to persons who after a residence of sojourn of eighteen years bear arms against the United States Government, for the reason that the same is unAmerican in spirit and contrary to the charity already extended to such persons for over twenty years, and we therefore recommend to the voters of the State to vote "No" on this proposition.

SCHOOLS.

We are justly proud of the public schools and State University of Nevada; we believe they should be fostered and protected above all other institutions, as upon them rests the perpetuity of the Government and the securities of our liberties. We are in favor of such legislation as will increase the efficiency and raise the standard of the public schools and make the University within a thorough education, without expense, is placed within the reach of every child in Nevada.

We have once in the strongest terms the constitutional amendment authorizing the people the advantage accruing for the investment of school monies in other securities than U. S. Government or Nevada state bonds, and recommend to the electors of this state that the amendment relative to which provides among other things that our school monies may be invested in any other bonds than National and Nevada State be voted against and defeated, and our millions of school money saved from loss by an unwise investment.

We look to the People's party of America as the only National party in existence today honestly believing in any of the above reforms and reforms, and we pledge to the party, support and cooperation of the people of Nevada to the effect to organize and carry out the same and the nominees of this convention for Congressman, in the event that he shall have a vote for the President of the United States as a member of the House of Representatives, is hereby pledged to vote with nominees of the People's party on less otherwise instructed by the Silver Party of this State.

We demand the enforcement of the Interstate Commerce Act everywhere.

We are in favor of an amendment to the Constitution of the United States providing for the election of United States Senators by a direct vote of the people of their respective States.

We are strictly of foreign immigration, and demand the exclusion of paupers and contract labor.

The able and efficient services of Senators Stewart and Jones and Congressman Newlands in the Congress of the United States in behalf of all interests that promote the welfare of our people, are worthy of the endorsement of every patriotic citizen of our State.

Resolved, That as large expenditures are made by the General Government in improving the harbors and rivers of the coast states and the agricultural states of the Ohio and Mississippi valleys equality and justice demands similar appropriations for public uses in the arid region, and that we call on the General Government for liberal appropriations for storing and conserving at their source the waters of the streams and rivers of the arid region. This being done the reclamation of arid lands can be completed by the state or by private enterprises.

Resolved, That the Silver Party of Ormsby County endorses and every plank of the platform accepted by the Silver Party of Nevada in the State Convention held at Carson Sep. 4, 1894.

That it congratulates the voters and taxpayers of Ormsby county upon the faithful and efficient manner in which the nominees of 1894 have performed the duties of their respective offices, thereby enabling the Silver Party of Ormsby to keep every pledge made to the people of this county on the party platform prior to election.

That the accession of the people to the management of county affairs has not caused a single dollar by illegal orders and unnecessary expenditures while the letting of candidate contracts in the interest of county officials has been entirely done away with.

Each department of the County Government has been honestly and economically managed, with a special saving to the taxpayers of nearly $10,000 per annum for the past two years.

Under these circumstances the Silver Party of Ormsby feel justified in again demanding the support of the voters and taxpayers of the county at the forthcoming election.

Resolved, That this Party unqualifiedly indorses the action of Senator John P. Jones in withdrawing from a party which while professing to be the friend of silver in its State platform, has persistently caused its Representatives in Congress to bow to the mandates of Wall Street.

This Convention denounces as partisan trickery and incorrect the contract for his resignation by the Republican State Central Committee of Nevada, which by its illegal and unwarranted demands for the withdrawal from the Senate of the United States of one of the leading silver advocates of the World, have torn aside the mask of non partisanship and lost forever the face of the Republican party of Nevada.

Resolved, That should a vacancy occur in the office of the U. S. Senator from this State which would be necessary to fill at the next meeting of the Legislature, (if the vote of the Legislative members of this convention is here pledged to the Hon. John P. Jones to fill the unexpired term.

That we endorse the able and efficient efforts of Senator Stewart and Congressman Newlands in behalf of the white metal in Congress.

SURROUNDED BY MYSTERY!

A Great Mistake.

A recent discovery is that headache, dizziness, dullness, confusion of the mind, etc., are due to derangements of the nerve centers which supply the brain with nerve force; that indigestion, dyspepsia, neuralgia, wind in stomach, etc., arise from the derangement of the nerve centers supplying these organs with nerve fluid or force. This is likewise true of many diseases of the heart and lungs. The nervous system is like a telegraph system, as will be seen by the accompanying cut. The little white lines are the nerves which carry the nerve force from the nerve centers to every part of the body, just as the telegraph conveys the telegraphic dispatches to every station. Once fully realized, this fact will be regard this [illegible] instead of [illegible] nervous [illegible] for the cure of the disorders and diseases [illegible] they want the proper remedy.
