Platform and Resolutions of the Silver Party of Nevada.

PLATFORM AND RESOLUTIONS.

The Silver Party of Nevada in convention assembled at Carson City, on the 4th day of September, 1894, declare that platforms should assert cardinal principles of political faith concerning questions of political interest and present moment without equivocation or evasion. We hold that history has demonstrated that these principles are right and equitable and their observance necessary to secure the welfare and individual happiness for which this Government was established.

SILVER.

We deny the right or authority of the Government of the United States to pass any law restricting or abridging the privilege of any citizen of the free coinage of silver into standard money at the legal ratio of 16 to 1, independent of any other nation, and we demand the repeal of all laws denying or abridging that right.

We assert that any law denying or abridging the right of free coinage of gold and silver into standard money at the legal ratio of 16 to 1, independent of all other nations, is a denial of the sovereignty of the people of the United States as a nation and independent state, and law in restraint and abridgement of production and commerce.

We assert that from 1861 to 1894 inclusive, a period of 34 years last passed, the Democratic party and the Republican party have made and administered the laws of this nation; that that period has been characterized as of uninterrupted bountiful harvests and bountiful productions in all our great natural resources, and that our people have made unparalleled advances in skill, in every branch of manufacture and artisanship; that the period has been one of general health and notwithstanding the civil war, a period of unparalleled prosperity from 1861 to 1873. In 1873 the Republican party passed laws in restraint of the coinage of money denying mintage to silver, the money metal in the pocket of every citizen, and till of every store. The decadence of silver has been steady, gradual and unrelenting as the grip of the gold standard of money has closed around our industries, and labor and the price of every production of labor, by forest, field, mine and manufacture, have fallen parallel with the decadence of silver, which today is worth less than 50 per cent of its standard coinage value at the legal ratio of 16 to 1.

Three millions of our people are without the comforts and decencies of life, every industry in our nation is restrained, pinched and dwarfed by the demonetization of silver to the great injury of every laborer, producer and tradesman in the nation.

The volume of money in circulation should be speedily increased and always be fully adequate for the requirements of business. That all money should be a legal tender for debts both public and private. That no money should exist except such as issued directly by the National Government and nothing should be money but gold, silver and Government paper.

We favor the redemption of Government bonds and the prohibition of any further issue thereof in time of peace.

We demand the abolition of National banks.

We demand the collection of the indebtedness of the Pacific railway companies to the United States at maturities without extension, time or change of terms and conditions.

A public office is a public trust. No person or party should be honored who has once violated this trust. Every citizen should contribute to the support of the Government in proportion to his means and in accordance with the necessity of good government, but no Government should augment the burden or enlarge its expenses thereby unnecessarily needless interest bearing debts making useless expenditures, or by failing to promptly collect what is justly due it, whether it be a loan, a tax or a tariff.

No grant should be made of public property for any other than a public purpose, and it is the duty of the Government to secure to the public the enjoyment of the benefit which was the consideration of the grant, or declare it forfeited.

We demand Government ownership of telegraph lines and Government subsidized railroads.

LABOR.

We demand that no law shall be enacted restraining or abridging the development of our natural resources and we guarantee to the people the right of pursuit and the inalienable right to enjoy the full value of all property that their labor produced. We hold it as one of the truisms of human existence and modern progress of enterprise, that capital and labor should go hand in hand in the general advancement, happiness and good of this great commonwealth. Therefore we claim that capital and labor should stand on an equal footing before the law, and that the laborer should always receive a fair compensation for a fair day's work. That both capital and labor have the legal and unquestionable right to organize for mutual protection and self preservation.

We believe that a National and State Board of Labor Commissioners should be created by law and made elective by the people, to whom all questions in dispute between capital and labor should be referred and that both parties concerned be compelled to arbitrate and that the decision of such Board of Labor Commissioners be final and binding alike on the employer and employee.

OBEDIENCE TO THE LAWS REQUIRED BY ALL.

We denounce the criminal suspension of the laws of Congress by the President, such as the purchasing clause of the Sherman Bullion Purchasing Act; the Geary Act, providing for the deportation of unregistered Chinese, when its constitutionality has been affirmed by the Supreme court, and his neglect and refusal to enforce the Anti Trust and Interstate commerce Acts against wealthy offenders.

ELECTIVE FRANCHISE.

We denounce the purchase and sale of Elective Franchise as destructive of our liberties and treason to our Government. We demand the disfranchisement of both parties to the crime and the punishment of the prisoner by fine and imprisonment. The franchise once sold shall be gone forever.

LOTTERIES.

The establishment of a lottery in this State would be a blot upon the people and would result in financial and moral degradation. Therefore, in the language of our constitution, "No lottery ticket shall be authorized by this State nor shall the sale of lottery tickets be allowed." We condemn all equal terms all lottery men in this State which have attempted to legislate out of the office bill for the sale of lottery tickets.

We are unalterably opposed to the ratification of the proposed amendment to Section 1, Article II of the constitution of this State, whereby it is proposed to amnesty to persons who may have given aid or comfort to the enemies of the United States Government during the late war, that the same be submitted and voted upon by the electors already enfranchised by persons for every [illegible] we therefore [illegible] voters of the State [illegible] on this proposition.

SCHOOLS.

We are justly proud of the public schools and State University of Nevada; we believe they should be fostered and protected before all other institutions, as upon them rests the perpetuity of the government and the sacred rights of liberties. We are in favor of such legislation as will increase the efficiency and raise the standard of public schools and State University until a thorough education, without expense, is placed within the reach of every child in the State.

We denounce [illegible] as the consummation of [illegible] vestment of school moneys in securities than U. S. Government or Nevada State bonds and [illegible] amend to the Constitution [illegible] that no school moneys shall be invested in any security other than National or State [illegible] against [illegible] our public [illegible] saved from [illegible] vestment.

Resolved, That [illegible] penditures are made by the General Government in improving harbors and rivers of the coast states and the agricultural states of the Ohio and Mississippi valleys equality and justice demands similar appropriations for public uses in the arid region, and that we call on the General Government for liberal appropriations for storing and conserving at their source the waters of the streams and rivers of the arid region. This being done the reclamation of arid lands can be consummated by the States or by private enterprises.

Resolved, That the Silver Party of Nevada [illegible] every plank [illegible] in the State Convention held at Carson City, Sept. 4, 1894.

SUPPOSED TO BE BY MYSTERY!

A Great Mistake.

A recent discovery is that headache, dizziness, dullness, confusion of the mind, etc., are due to derangement of the nerve centers which supply the brain with nerve force; that indigestion, constipation, nervousness, wind in stomach, etc., arise from the derangement of the nerve centers supplying the stomach with nerve fluid or force. This is likewise true of many diseases of the heart and lungs. The nerve system is like a telegraph system, as will be seen by the accompanying cut. The little white lines are the nerves which convey the nerve force to every part of the body, just as the telegraph wires convey the electric force to every station, large or small. Ordinary physicians cannot cure diseases of the nerves, because they do not understand the nature of the disease. Dr. Miles, a specialist, has made nervous diseases a study for 18 years, and has found a remedy for headache, [illegible] St. Vitus's dance, convulsions, etc. Sold by all druggists on a guarantee, or sent direct by the Dr. Miles Medical Co., Valparaiso, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid.
