THE LAST DAY AT LINDEN.

STARTER CALDWELL'S PLACE TAKEN BY W. LAKELAND.

PETER DE LACY'S FINAL BLOW—FOUR FAVORITES BEATEN.

The supplementary racing season ended yesterday with the closing of Linden Park for the winter. The programme for the last day of the meeting was far from brilliant, but so attractive has this pretty course become that an attendance of 6,000 or 7,000 persons turned out to bid it farewell. As usual, the management did everything it possibly could to send its patrons away pleased and satisfied. The meeting has been successful in the highest degree. The handicapping has been satisfactory to owners and to the public, and the Man in the Moon may retire with three eagle feathers in his cap, one for Captain Coster, one for Lucien Appleby and one for David Johnson. They have done good work. To James E. Kelly racegoers are indebted for the care with which he has watched over their comfort. Nothing has he left undone that would tend in the slightest degree to increase their pleasure. Few racing associations can boast of so excellent a record. The men who control Linden Park have an eye to the future. They believe in giving the public a chance as against the ragamuffins of the turf, and they may rest assured that the public thoroughly appreciates the kind treatment it has received. Before the gates are again opened it is hoped that the betting troubles will be regulated by law so as to permit the sport to go on without the risk of interference and annoyance such as has come recently from the vindictive Peter De Lacy.

Peter's last blow was struck yesterday, when he succeeded in having Orlando Jones arrested in Jersey City for making a book on the track. Mr. Jones gave bail in the sum of $1,500, and was permitted to resume business at the old stand.

A new starter was introduced to the public in the person of William Lakeland, a well-known and eminently successful trainer. Mr. Caldwell was under contract to do the starting at Linden Park for $100 a day, but he felt so aggrieved at the payment of the jockeys' fines by John Campbell on Tuesday, and so annoyed and upset by the consequent lack of discipline on the track, that he concluded to remain away from the grounds and let the starting take care of itself. In paying those fines John Campbell was acting as agent for L. O. Appleby, a large stockholder in the association, who did not want to disappoint a numerous attendance by having fields reduced owing to a scarcity of jockeys. Mr. Appleby acted hastily, but thought he was acting for the best. The writer expressed himself freely on the subject in this column yesterday. Mr. Appleby should not have paid the fines. It was a mistake to do so. Every jockey that mutinied should have been ruled off the turf. But Mr. Appleby's action does not excuse Mr. Caldwell for sulking at the post yesterday and refusing to go near the starting flag. Mr. Caldwell has injured himself seriously. He will never start at Linden Park again, and there are influences at work that may prevent him from handling the flag at other tracks in the metropolitan circuit next season. His place was well filled by Lakeland, whose work was generously applauded, and it may be possible that the day is past when Mr. Caldwell will have the right to consider himself the only starter in America. The writer does not mean to say that Lakeland is a good starter. His experience may be that of James McLaughlin, who began by surprising the world with his excellent work at Clifton and ended by disgusting it with his failures. Time only will tell of what stuff Lakeland is made.

So far as The Tribune is concerned, the racing season of 1890 is practically at an end. The sport will go on, however, at Clifton and Guttenberg, which will race on alternate days during the winter. Guttenberg begins to-day.

PROTESTING AGAINST AN ELECTRIC ROAD.

A meeting of indignant property-owners was held last night at No. 400 South Fourth-st., Brooklyn, to protest against the electric wire system to be introduced on the South Fourth Street and Bushwick branch of the Brooklyn City Railroad. Permission has been given to the railroad company to work their road by electricity or cable. Speeches were made by James Munsey, an electrician; Theodore Ahorty, an electrical expert, and others. Resolutions were adopted protesting against the system.

A THIEF CLEVERLY TRAPPED.

Alfred Kalisch, a jeweller in Broad-st., Newark, was talking to his brother Samuel in his store yesterday, when a telegraph messenger stepped in with a telegram for him signed "Dr. Smith, New-York," saying that Mr. Kalisch's brother had been seriously injured in New-York, and requesting him to come to New-York at once. Samuel Kalisch, who is a lawyer, at once took the telegram to Police Headquarters. Chief Hopper sent Detective Cosgrove to secrete himself in the rear of Kalisch's store and directed Detective Walker to station himself in a store on the opposite side of the street. After waiting about two hours Detective Walker saw a man step quickly into Kalisch's store. The detective started across the street and entered the store just as Mr. Kalisch was setting out a tray of diamonds. Cosgrove also came from his hiding place, and seeing the man place his hand in his overcoat side pocket they pounced upon him, and while one pinioned his arms the other took a large navy revolver, fully loaded, from his pocket. The man was then taken to Police Headquarters, where he said his wife and children were starving, that he had become desperate, and that he had fully made up his mind to get money, even at the cost of human life. He said he was George F. Smith, of New-York.

One of the noteworthy features of the Flower Show in Madison Square Garden next week will be the Orchids. Their curious markings and infinite variety of forms render even an ordinary collection of these flowers of great interest. The plants for this show are selected by Messrs. Pitcher & Manda from their stock at Short Hills, N. J., the largest and finest collection of Orchids in the country

GENERAL MARKET REPORTS.

COFFEE—Trading in Rio on the spot was very quiet today, but the general feeling was one of steadiness. No 7 quoted 17¾c; sales, 500 bags No 7, 17¾c. Mild grades quiet and unchanged; sales, 1,500 bags Maracaibo and 135 hhds Jamaica, private terms. In the speculative line there was little life to the dealings, and the changes were confined within narrow limits. At the opening the market had a weak look, and prices suffered a slight decline, owing to the depression in stocks and lower exchange, but the subsequent recovery in financial circles prompted local covering, and the close showed a rise of 5@10 points over yesterday. Late Havre cables came stronger, and this, too, had a strengthening influence. Hamburg declined ⅛@¼ pfg. Options—Were again feverish and quite active, attended at times with some little excitement. During the early hours the temper was decidedly bearish on a decline at Liverpool and depression in financial affairs. Opening sales indicated a break of 10 points, and this was followed by renewed "long" selling, and there was a further loss of 2@3 points. But the more cheerful look of affairs in the Stock Exchange late in the day and light port receipts caused a change of sentiment and final figures were firm, showing only a decline of 2@3 points on near months. November unchanged, while late deliveries finished slightly higher than yesterday. Sales, 145,900 bales.

FLOUR AND MEAL—FLOUR—There was an unsettled and weak market to-day, with free sellers, because of the irregularity in wheat and variable stock situation. In some cases slight concessions were reported. There was a good trade demand, chiefly for high grade spring wheat, but the export inquiry was not especially brisk. Within the last few days (not before reported) there were upward of 6,000 pkgs spring wheat patents sold for the trade to arrive. Sales, 25,000 bbls (2,900 bbls for export), including 1,400 barrels low Extra, $3 50@$3 90; 2,700 bbls City Mill, $5 10@$5 40 for the West Indies; 11,300 bbls Minnesota Extra, $3 50@$5 00; 6,500 bbls Winter Wheat Extra, $3 50@$5 40; 3,000 bbls Superfine, $3 15@$3 75; 1,800 bbls Fine, $2 65@$3 50. GRAIN—WHEAT—Early in the week less excitement prevailed to-day in the option market, and at one time the situation looked a little panicky, prices showing net losses of 2c; but the feeling gradually became stronger, and the decline was recovered. Late months, in fact, closed a trifle higher than yesterday. Wall Street activities again furnished the chief feature, and the early break in stocks completely upset the "bull" side. During the first half hour of trading the liquidation was very heavy, and various prices ruled almost simultaneously in different parts of the pit. December started at 97⅞c, and immediately afterward touched 97¼c, from which point it rally from 97⅛c. But the great pressure of "long" stuff subsequently carried the market back to 97c. Later in the day, however, the reaction in stocks and easier money forced the "shorts" into covering, and 99c was finally reached, closing at 98⅞c. May opened at $1 03, and within a minute it settled to $1 01⅞, from which there was an advance to $1 04⅛, leaving off at $1 03⅝. Aside from the financial affairs the "bears" had the aid of weak and lower cable advices, and Bradstreet's figures (showing an increase of 2,200,000 bush for the week in available stocks east of the Rockies) exerted additional weakness. Reports of business troubles abroad also contributed to the decline. The interior movement was more moderate, but this had no material effect. The export buying (which aggregated 64,000 bush) had something to do with the late firmness. Trading for the day was quite brisk, nearly 8,000,000 bush being dealt. Arrivals at interior points were 561,000 bush spring and 40,333 bush winter, against 792,740 bush spring and 76,494 bush winter. Seaboard receipts, 91,743 bush; clearances, 29,872 bush wheat and 22,000 pkgs flour. The spot market also ruled irregular, but closed steadier, sympathizing with options. Included in the export business were 48,000 bush hard Kansas red, 96c f.o.b. and 99c@94½c delivered; also 16,000 bush No. 1 Northern spring at 1c over December, 97½c afloat, and 100,000 bush No. 1 Northern, to arrive, p. t., and 16,000 bush ungraded winter red. Receivers bought 80,000 bush No. 1 Northern spring, 97½c afloat delivered; do to arrive, private terms; Ungraded Winter Red, 92⅞@99⅛c; No 2 Red quoted 98⅛@98¾c store, 99⅛c and 99⅝c afloat; No 1 Hard, spring,
