At the Colonial.

Tomorrow's program is one that will delight every lover of moving pictures, consisting as it does of a powerful Biograph drama and a Vitagraph comedy. "An Arcadian Maid" is the story of a young woman who was induced to rob her employer and is a splendid picture in every way. "Two Highland Laddies" is a screaming farce comedy, the principal characters being two highland farmer boys who enlist in the army to get out of having to work. One of them is "seven feet four, the other five feet fat" and their trials and tribulations in their new places are uproariously funny. There will be new and classy illustrated songs, making a complete change of program.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. Cheney & Co., Toledo, O.
