

# SAUNTERINGS

**NOTING** the long list of events chronicled by the daily papers as having transpired in the social world a stranger would think that those in the social herd were running themselves ragged day and night. But that's got nothing to do with most of the names prominently featured in society in the papers. There is more policy than authenticity in the lists and more sense should be displayed than to include everybody irrespective of who they are or what their occupations are. Of course, if society columns were run on a basis of just who by birth or breeding, intelligence or accomplishments should form real society there wouldn't be much to write about. But there ought to be a little discrimination shown.

**THE** Country club may open this year if the weather will give it a chance. Next winter is only about three months off and there aren't many shopping days until Christmas, but the club members are living in hope and praying that it will not be necessary to postpone the opening later than another week. Some of the more enthusiastic ones have had the temerity to brave the elements and defy the weather man with a golf club or a tennis racket, but their number is not great and unquestionably the season in the open is going to be very short.

"Little boy, do you understand what is meant by energy and enterprise?"

"No, sir; I don't think I do."

"Well, I will tell you. One of the richest men came here without a shirt to his back, and now he has got millions."

"Millions! How many does he put on at a time?"—Philadelphia Inquirer.
