our Prescription

A prescription is a written order for certain drugs or combination of drugs. When it passes out of the physician's hands into yours it becomes your property. It is yours to take it where you like for compounding. The physician has no right to require you to take it to any particular druggist. He may advise, but the responsibility rests upon you to use your own judgment in the matter. We can fill any prescription written on anybody's blank.

For Superintendent of Public Instruction.

On May 4, I announced my candidacy for the nomination for the office of State Superintendent of Public Instruction, subject to the wishes of the Republican electors of the State at the Primaries, September 5.

In announcing my candidacy, I take the position of heartily endorsing resolutions recently adopted by the State Board of Education, favoring a constitutional amendment for the abolishment of the office, thus eliminating duplication in the State Department of Education.

If elected, I shall do what is in my power toward perfecting the organization of the unified plan of administration for the school system of the state, as well as to perform the duties of the office to the best of my ability. ETHEL E. REDFIELD.
