A LETTER-HEAD THE ONLY PROOF.

NEW-YORK BUSINESS PEOPLE INDICTED IN TEXAS ON SLIM EVIDENCE.

Two cases of indictment at long range are those of Nathan Ruggen and Mrs. Toba Eisenstein, who were arraigned before Commissioner Shields yesterday, on the charge of sending a lottery ticket through the mails. They do a large business at No. 43 East Broadway, manufacturing shirts and clothing under the firm name of Ruggen & Eisenstein. On June 25, it is declared, L. Wilensky, of Brenham, Washington County, Texas, received a communication written on a letter-head of the firm, the envelope containing a ticket in the one hundred and nineteenth Kingly Saxon Land Lottery. The United States Grand Jury in Austin promptly indicted the members of the firm on the charge of violating the lottery law, and Hannibal D. Norton, a Postoffice inspector, was sent to this city to arrest the two persons.

Ruggen and Mrs. Eisenstein deny all knowledge of the lottery ticket, and say they have no idea how any one could have obtained one of their letter-heads. The case against them is slim indeed, because not even the envelope in which the ticket was mailed has been preserved. It would seem a great hardship to take two business people to Texas for trial because some one used one of their letter-heads in violating the law. Another hearing will be held in the case.

MANY WERE FRIGHTENED BUT NONE HURT.

The immigrant transfer steamer William Fletcher, while taking passengers from the Friesland to the Barge Office at 4 p. m. yesterday, ran into the Statue of Liberty float off the Battery. The Fletcher was crowded with immigrants and there were a large number of people on the float waiting for the Statue of Liberty boat. The incoming tide was so strong that the steamer, which had slowed down to reach her pier, was forced against the float and seriously damaged her port paddle-box. There was a good deal of excitement, both on the boat and on the float, but nobody was injured.

MRS. DARLING MADE DIRECTOR-GENERAL.

Mrs. Flora Adams Darling has been elected director-general of the Daughters of the Revolution for life by the State Regents of the original confederation. The executive rooms will remain in New-York City, where the Director-General will make her home in future. The first work of the organization will be to secure a club-house, which shall also be used for a repository for Revolutionary relics and archives. Until the attainment of this object all applications for membership or information should be addressed to No. 2,076 Fifth-Ave., New-York.

It was an active day in the option line, and the market was rather nervous, with frequent fluctuations. For a brief period at the outset, the tamper was strong, and prices advanced 1@2 points on local covering. But the selling became quite general later in the day, mainly for "long" account, and the market settled back 10@13 points. Then there was a rally on local buying, and the close showed a decline of 6@8 points, as compared with yesterday. Liverpool was weaker, and this, coupled with more or less selling by foreigners, contributed to the heaviness. Sales, 114,500 bales.

FLOUR AND MEAL—FLOUR—While showing no radical change, the market ruled firm despite the reaction in wheat, and there was no pressure to sell. Especial strength was noted on high grades, because of the full buying latterly by the home trade. To-day there was further inquiry for the better qualities, and shippers bought more freely, principally of the city mill products for the West Indies. Recently—not before reported—there were 10,000 bbls high grade spring wheats bought by local jobbers. Sales, 33,600 bbls (12,000 for export), including 1,300 bbls Low Extra, $3 75@$4 35; 10,200 bbls City Mill, $5@$5 15 for West Indies (mainly $5 for standard brands); 12,200 bbls Minnesota Extra, $3 75@$5 50; 8,100 bbls Winter Wheat Extra, $3 75@$5 35; 850 bbls Superfine, $3 50@$4 15; 1,500 bbls Fine, $3@$3 85. Sales, 475 bbls Superfine, at $4 50@$4 75; Fancy held at $4 85.....CORNMEAL—Firm and moderately active. Yellow Western quoted at $3 30@$3 85, and Brandywine at $3 85. Sales, 700 bbls, including 200 bbls Brandywine.

GRAIN—WHEAT—Increased interest was displayed in the speculative line to-day, and the market acted rather nervous throughout the entire session, attended with frequent fluctuations. Upward of 6,700,000 bush changed hands, but trading was mainly local, and confined chiefly to August, September and December deliveries. Renewed covering of "shorts" was an important feature during the early hours, and initial sales showed further general gains all around, with more or less excitement. The cables were higher, opening Liverpool cabls being 1½@2½d better on spot, while London was 6d per qtr up in some cases. There was a decrease of 1,000,000 bush in the amount on passage, which served to intensify the firmness. Moreover, a prominent operator on the West was said to be buying heavily for "short" account, and the seaboard clearances were liberal, while there were rumors of extensive export purchases. The result of all this was a rise of ½@¾c, followed by a further advance of ⅛@¼c. Then came a free selling movement, principally by "longs," and the market gradually settled. From the highest there was a break of fully ¾@1¼c, though the close was rather more steady. Late cables from Liverpool were 2@2¼d higher on futures, and Paris advices reported a rise of 20 centimes on flour and 40@50 centimes on wheat. Foreigners, however, were supposed to be sellers in a quiet way, despite the bullish cables, and the receipts at interior points were again large, which prompted realizing, culminating in a reaction. Respecting the recent break in the canal, advices were received to-day to the effect that the work was progressing very favorably, and that navigation would be regaining within ten days. This, too, was used by the sunnies with telling effect. "Shorts" started at 98⅝@98⅞c and almost simultaneously, and after advancing to 99c it broke to 97¾c, closing at 98c. September started at 98⅝@98¾c, and then sold up to 99c, from which it settled to 97¾c, leaving off at 97⅞c. December sold at $1 01¼@$1 01½ within the first minute, and presently touched $1 01¾, from which there was a break to $1 00¼, closing at $1 00¾. Arrivals at leading interior points were 618,918 bush spring and 727,742 bush winter, against 172,099 and 274,574 bush, respectively, a year ago. Seaboard receipts, 421,630 bush; clearances, 182,806 bush wheat and 72,000 pkgs flour. Imports into the United Kingdom for the week aggregated 344,000 quarters wheat and 173 pkgs flour. The English visible supply was reported to show a decrease of 38,000 bush for the week. On the spot there was an unsettled tone for the week. On the spot there was an unsettled market, closing weak, sympathizing with options. Shipping sales, 216,000 bush prompt and near by, chiefly No 2 red afloat. Also two loads No 1 Northern spring afloat. Millers bought 24,000 bush. At outports there were 250,000 bush taken by shippers, part special November delivery. Sales, 6,784,000 bush future, 290,000 bush spot and special, including No 1 Northern spring at $1 10 afloat; and ungraded winter red at 98⅝@$1 00⅝; No 2 red afloat, $1 01@$1 03, as to delivery; do f. o. b., $1 00¼@$1 02⅝, according to delivery; do in store quoted $1; No 2 Chicago spring nominal, $1 06; No 3 do, $1 02; No 2 July, 99⅝@$1 01⅜, closing at 99⅞c; do August, 97¾@99c, closing at 98c; do September, 97⅞@99c, closing at 97¾c; do October, 98⅝@99c, closing at 98⅝c; do November, closing at 99⅛c; do December, $1 00¼@$1 01⅛, closing at $1 00¾; do January, closing at $1 02¼; do May, $1 01⅞@$1 06¼, closing $1 05⅞.....RYE—In fair request and firm. Sales, 24,000 bush Western, c. i. f. and l. to an interior point for export at 72½@72½c. Western for September sold October quoted at 77@80c for delivery here.....BARLEY MALT—Dull and nominal.....CORN—Was fairly active in the option line, and rather nervous at times, though the close showed general losses of ½@1c on all months. Over 1,600,000 bush were dealt in, and during the early session there was renewed covering of "shorts." July gained 1c, and later deliveries advanced ¼@¾c. Firm cables helped the rise, besides which the amount on passage showed a decrease of 352,000 bush. But the arrivals at the West were larger than had been expected, and this, coupled with realizing by "longs," brought about a reaction. July was especially weak, declining fully 2¾c from the top, closing, however, with a recovery of 1c. Later months sold down ¾@1¼c. Imports into the United Kingdom for the week were 211,000 qtrs. Late cables came 1@2d higher on futures. The spot market ruled firm early, but closed about ½c lower. Late yesterday there were three loads taken by shippers, but to-day nothing was accomplished. Clearances, 21,712 bush. Sales, 1,624,000 bush future, 24,000 bush spot, including ungraded mixed and white at 71@80c; No. 2 mixed at 71@71½c elevator, 72@72½c afloat; No. 2 white, 80c elevator; No. 3 July, 70@72½c, closing at 72½c; No. 3 August, 68¾@70¼c, closing at 69c; do September, 68⅝@68c, closing at 67c; do October, 65¼@66¾c, closing at 65⅝c; do December, 55⅞@56½c, closing at 56c.....OATS—Offered little or nothing in the way of features on speculative account, and the fluctuations were small and local. July at the close showed no marked change. Later months, however, were a shade lower, sympathizing with corn. The spot market declined ½@1c, leading to a moderate business. Clearances, 14 bush. Sales, 240,000 bush future, 112,000 bush spot, including No 3 mixed at 39½c elevator; No 3 white, 40c elevator; No 2 mixed, 40⅝@41c elevator, 41½@42c afloat; No 2 white, 47@47½c elevator; No 1 white, 53c elevator; No 2 Chicago, 41½c; track mixed, 37@42½c; track white, 47@60c; No 2 July closing at 41c; No 2 August, 35¼@35½c, closing at 35¼c; No 2 September, 33½@33¾c, closing at 33½c; No 2 white July closing at 48c.....FEED—Quoted 40 lb, 85@90c; spring and winter, 90 lb, 85@90c; 80 lb, 90c@$1; 100 lb, $1@$1 05; 120 lb, $1 15@$1 25; sharps, $1 25@$1 30; rye feed nominal at $1@$1 10; hominy chop, $1 10@$1 12½.

HAY AND STRAW—There is no material change in the general situation. On hay the feeling is one of steadiness, with a comparatively slow trade, while receipts are quite moderate. Supplies of straw are not excessive, and prices rule about steady. HAY—Fancy, 90c; choice, 80@85c; prime, 65@75c; fair to good, 60@70c; shipping, 65c; clover mixed, 65c..... STRAW—Long rye, 65@70c; short rye, 40@50c; oat, 35@40c; wheat, 35@40c.

HOPS—The market has a very quiet look, with only a small business passing between dealers and brewers. Crop reports, both domestic and foreign are generally favorable, and prices rule barely steady. State 1890, choice, 20c; medium, 18@19c; common, 16@18c. 1889, 10@17c; 1888, 8@12c; old do, 4@8c; Pacific Coast, 1890, choice, 20c; common to prime, 16@19c; do 1889, 10@13c.
