Throw Physic to the Dogs—Pulvermacher's HYDRO ELECTRIC VOLTAIC CHAINS.

Producing instant relief from the most acute pain and permanently curing all Neuralgic diseases, Rheumatism, painful and Swelled Joints, Neuralgia of the Face, Deafness, blindness, St. Vitus' Dance, Palpitations of the Heart, Periodical Headaches, Pains in the Stomach, Indigestion, dyspepsia Uterine Pains, Paralysis, etc.

These chains were first introduced in the city of New York less than one year since, and after being subjected to thorough trials in every hospital in the city, and applied by Drs. Valentine Mott, Post, Carnochan, Van Buren and others, it was discovered that they possess strange and wonderful power in the relief and cure of the above class of diseases, and their sale, and the success that has attended their use is unparalleled.

Previous to their introduction into this country, they were used in every hospital in Europe, and are secured by patents in France, Germany, Austria, Prussia and England, and also in the United States.

"THINK CLOSE AND PONDER WELL"

The principles upon which it is claimed that the chains produce their marvellous cures are, first—that all *nervous diseases* are attended and produced by a deficient supply of nervous fluid, and an agent that resembles closely electricity of electro magnetism; and second—that the electro magnetic chains, by being worn over and upon the part and organ diseased, furnish to the exhausted nervous system, by its powerful stimulating effects, the nervous fluid which is required to produce a healthy action through the entire system. No disgusting nostrum is allowed to be taken while using the chains, but a rigid observance of the general laws of health are required. Brisk friction upon the part diseased adds much to the effect of the chains, by increasing their magnetic power.

ONE THOUSAND DOLLARS

will be given to any person who will produce so many well authenticated certificates of cure, both from intelligent patients and scientific physicians, as have been effected by the use of Pulvermacher's Electric Chains.—They have all to perform what they are advertised to do and no person has ever been dissatisfied who has given them a trial.

IN FEMALE DISEASES.

More than one hundred permanent cures of Prolapsus Uteri have been effected within the last year by the use of these chains. By applying one end of the chain over the region of the abdomen, and the other upon the spine, just above the hip, the usual severe symptoms incident to that disease are at once removed.

MODE OF USE.

The chain should be moistened before use with common vinegar, and then one end of the chain over the part of the pain or disease, and the other end opposite to it.

BE NOT DECEIVED! The Electric Chains are not to cure all diseases; but for Nervous Diseases it is claimed that NO Medicinal Agent in the world has produced so many cures in the last year as the Electric Chain.

INSTANT RELIEF from the most acute pain, is produced at the moment of application much more effectually than can be produced by opium, in any of its forms.

ONE WORD MORE.

These chains are the same which have lately been sent over to the Emperor of the French, to be tried by his own physicians in cases of cholera, etc. and which have proved so eminently successful. J. STEINERT, sole Agent

MEDICAL.

Prof. Woods'

Hair Restorative is now for the first time introduced to the citizens of Wheeling, at No 120 Market street, which is the only sure remedy ever invented that will effectually restore the grey hairs and whiskers to the original color of youth, without dyeing, cover the bald head in a short time with the natural covering, remove dandruff, and prevents the hair from falling off, and is free from the filthy sediment so objectionable in divers preparations of different names now before the public. The HAIR RESTORATIVE is a beautiful article for the toilet, for the old or young, and can only be appreciated by its use; and all are respectfully invited to call at the Depot and examine the testimonials of ladies and gentlemen of high reputation in the South and West, where it was invented, but will refer to the certificate below of the distinguished statesman and Senator, Judge Breese, of Illinois:

CARLYLE, Ill., June 27, 1853.

I have used Prof. O. S. Woods' Hair Restorative, and have admired the wonderful effect. My hair was becoming, as I thought, prematurely grey, but by the use of his 'Restorative' it has resumed its original color, and I have no doubt permanently so.

SIDNEY BREESE,
Ex-Senator of the United States.

Professor Woods' Oriental Sanative Liniment.

This Liniment is a valuable auxiliary in the treatment of some of the most formidable diseases with which it is our lot to contend; for instance, *inflammation of the lungs and bowels.* By a thorough and continued application of this Liniment over the region of the affected organ, these otherwise formidable diseases are at once disarmed of more than half their terrors, particularly among children, and thousands of mothers, were they allowed to speak, would with all the eloquence of feeling and affection, bear their united testimony to the fact that it had snatched their children from the very jaws of death, and restored them to their former health and beauty. Again, it will be found a powerful auxiliary in removing what is generally known as an Ague Cake, or an enlargement of the spleen, in all cases where an external application is of service, this liniment will be found useful.

ANTIDOTE AND GONORRHŒA LOTION,

THE GREAT ORIGINAL FRENCH PREPARATIONS

For the safe, speedy and effectual cure of Gonorrhoea, Gleets, Strictures, Whites, Pains in the back and Loins, Seminal weakness, and all other DISORDERS OF THE URINARY ORGANS.

These invaluable preparations have now been before the public for the past five years, and have become so well and favorably known that they do not require any very elaborate praise. They were invented by one of the first and most celebrated venereal physicians in Paris, and since their introduction into the United States, have effected more cures, both of recent cases and those of long standing, than any other medicines of the kind, ever offered to the public. In the treatment of *Gonorrhœa* and *Gleet*, also *Leucorrhœa* or *Whites* (in females) they have never been equalled, having cured many cases of from 6 to eight years' standing, and the Proprietor *will warrant them* to cure nine cases out of ten, taking them on an average.—They contain no mercury or any other mineral substance, as a large majority of the preparations now in use do, but on the contrary, are entirely Vegetable in their nature, and will do no injury to the most delicate female. Those who are afflicted cannot do better than to try them, and they will recommend themselves.

They are put up in bottles, with full directions accompanying them, the Antidote at $1, and the Lotion at 50 cts per bottle. One bottle lasts ten days. Many have been entirely cured in two or three days.

AFFLICTED READ!!

Philadelphia Medical House—Established 20 years ago by *Dr Kinkelin*, corner Third and Union sts. between Spruce and Pine, Philadelphia, Pa.

INVALIDS

Are apprised that Dr. KINKELIN confines his practice to a particular branch of medicine, which engages his undivided attention. He cautions the unfortunate against the abuse of mercury; thousands are annually mercurialized out of life. Recent affections are promptly extinguished.

TWENTY YEARS OF EXPERIENCE

In the treatment of a class of diseases hitherto neglected and imperfectly understood, has enabled DR. KINKELIN, (*Author of a work on Self Preservation,*) to prove that nine tenths of the cases of nervous debility, local and constitutional weakness, mental and physical sufferings, are traceable to certain habits, forming the most secret yet deadly and fatal springs of domestic misery and premature mortality.

TAKE PARTICULAR NOTICE.

There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them to manhood, and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious, and devastating affections. Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous systems shattered, feel strange and unaccountable feelings, and vague fears in the mind.

The unfortunate thus afflicted becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak, he is dull, irresolute, and engages in his sport with less energy than usual.

If he emancipates himself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his sense tells him that this is caused by his early follies. *These are considerations which should awaken the attention of those similarly situated.*

MARRIAGE.

Requires the fulfilment of several conditions, in order that it may be really the cause of mutual happiness.—Could the veil which now covers the origin of domestic wretchedness be raised, and its true source in every instance disclosed—how many could it be traced to physical disqualifications and their attendant disappointment! Apply then, while yet in time, in order to have your unstrung and relaxed organization invigorated, revivified and strengthened.

REMEMBER.

He who places himself under Dr. Kinkelin's treatment may religiously confide in his honor as a gentleman, and rely upon the assurance, that the secrets of Dr. K.'s patients will never be disclosed.

Young man—let no false modesty deter you from making your case known to one who, from education and respectability, can certainly befriend you.

Too many think they will conceal the secret in their own hearts, and cure themselves! alas! how often is this a fatal delusion, and how many a promising young man, who might have been an ornament to society, has faded from the earth.

Strictures of the urethra are rapidly removed by the application of a therapeutical agent, used only by Dr. K. *Weakness and constitutional debility promptly cured, and full vigor restored.*

COUNTRY INVALIDS,

Can have (by stating their case explicitly, together with all their symptoms, per letter enclosing a remittance,) Dr K's medicine, appropriated accordingly.

Forwarded to any part of the United States, and packed secure from *damage or curiosity.*

MEDICINAL.

The Nonpareil Nerve and Bone *LINIMENT,*

PREPARED BY H. H. CARR & CO., FROM A PRESCRIPTION FURNISHED BY DR. WATSON CARR, OF WHEELING, LATE OF MORGANTOWN.

It is based upon the broad principle that any remedy which will relieve an external pain, will, if properly compounded, be equally successful in removing internal affections; a power which is beautifully developed in that peculiar to the NONPAREIL LINIMENT.

ARE YOU SUFFERING

FROM Rheumatism, Sore Throat, Croup, Difficult Breathing, Tooth-Ache, Tic Doloreux, Pain in the Breast or Side, Strain or Spasm, Head-Ache, Inflammation, Stiff Joints, Cuts, Bruises, Poison Sores, Fever Sores, Pain or cramps in the Stomach, Cholera Morbus, Cholera Infantum, Cholic, Lame Back, Chilblains, bites of Poisonous insects or Rabid Dogs, Ague cake, Ague in the Breast or Face, burns, bruises, chafing, chapped hands, corns, Contractions of the Muscles or cords, cuts of any kind, Muscular weakness, Paralysis, Piles, Ear Ache, Ulcers, Salt Rheum, Scurvy, Sore Nipples, Sore Lips, Venereal Sores, Scarlet Fever, or any similar disease, you may rest assured that in this article you have

A SOVEREIGN REMEDY,

which not only removes pain almost instantaneously, but penetrates to the seat of and entirely

ERADICATES THE DISEASE.

Some will laugh at the idea of any composition curing such a number of diseases; but if you but reflect that these diseases, though numerous in name, all arise from similar causes, the proposition will seem less extravagant; but were it ten times more so THE FACTS which stare us in the face would *force* the candid to acknowledge its merits; for all who have used it themselves, or witnessed its magic effects on others, unite in declaring it just what its name (Nonpareil) indicates, *the best Liniment known.*

TO THOSE WHO THINK.

Have you never noticed the striking affinity between many external and internal diseases having entirely different names? And has it never occurred to you that a remedy might be prepared which should be equally applicable to both? This remedy is now offered you in the NONPAREIL LINIMENT, which does not insult your understanding by claiming to have been found in some *burning mountains of Mexico* or *mighty caves of the earth*; but is simply the OFFSPRING OF SCIENCE! being mild and simple in its action and yet revealing in its effects a power almost incredible,—and yet being innocuous to the weakest infant. It is also by far the *cheapest* Liniment in the market, being put up in bottles *twice as large* as the majority, and one fourth larger than the largest, besides being more than **four times as strong;** we therefore offer it to you with pride and confidence, as an article exactly suited to the wants of rich or poor, high or low.

The unprecedented size in which the Nonpareil Liniment is put up, and the vast expense of the materials used in it, makes it impossible for us to pay for the printing of the hundreds of certificates we might publish, nor do we deem it necessary, as the article wherever it is used will certify for itself.

We would however refer those afflicted ones who have so often been gulled by forged certificates and bigas sertions to the following names, being but a few of the many persons whose character for candor and veracity needs no panegyric from us, and who having fully tested its virtues in the different diseases for which it is recommended, are prepared to speak of its merits as it deserves.

Sold in Wheeling by James Baker, Kells & Caldwell, T H Logan & Co, W R McKee, Patterson & Co, and by the principal Druggists of Virginia, and Pennsylvania.

AN INVALUABLE MEDICINE.—It is but seldom we find among the many remedies offered to the public for the cure of disease, one we can consent to commend, or whose virtues we are able to discover, and have always seriously avoided giving utterance to anything that might lead any one to suppose that we placed any faith in their pretension. But with reference to a remedy manufactured in this place, and which has become as familiar to the public as household words, we speak from knowledge of its intrinsic excellencies, its adaptation to many of the ills of life, and the security with which it may be used. We speak of the Nonpareil Nerve and Bone Liniment, prepared by H. H. Carr & Co., from a prescription furnished by Dr Watson Carr, late of Morgantown, and now of Wheeling, one of the most eminent Physicians in Virginia. This Liniment is based upon the broad principle that any remedy which will relieve external pain, will if properly compounded, be equally efficacious in removing internal affections, a principle that has been successfully developed.—It is simply the offspring of Science, being mild and simple in its action, and yet revealing in its effects a power more incredible, reaching the seat of hidden ailments of man and beast—and yet being innocuous to the weakest infant.—It is also by far the *cheapest* Liniment in the market, being put up in bottles twice as large as the majority, and one fourth larger than the largest, besides being more than four times as strong. We commend it to those in want of a safe and certain remedy.

DR. HUNTER'S MEDICAL MANUAL AND HAND BOOK FOR THE AFFLICTED—Containing an outline of the origin, progress, treatment and cure of every form of disease, contracted by promiscuous sexual intercourse, by self abuse, or by sexual excess, with advice for their prevention, written in a familiar style avoiding all medical technicalities, and every thing that would offend the ear or decency, from the result of some twenty years successful practice, exclusively devoted to the cure of diseases of a delicate or private nature.

To which is added, receipts for the cure of the above diseases, and a treatise on the causes, symptoms and cure of the Fever and Ague.

Testimony of the Professor of Chemistry in Penn. College, Philadelphia—"Dr. HUNTER'S MEDICAL MANUAL," The author of this work, unlike the majority of those who advertise to cure the diseases of which it treats is a graduate of one of the best colleges in the United States. It affords me pleasure to recommend him to the unfortunate, or to the victim of malpractice, as a successful and experienced practitioner, in whose honor and integrity they may place the greatest confidence

JOS. S. LONGSHORE, M. D.

From A. Woodward, M. D, of Penn. University, Philadelphia.—It gives me pleasure to add my testimony to the professional ability of the author of the "Medical Manual." Numerous cases of Disease of the Genital Organs, some of them of long standing, have come under my notice, in which his skill has been manifest in restoring to perfect health, in some cases where the patient has been considered beyond medical aid. In the treatment of Seminal weaknesses, or disarrangement of the functions produced by self abuse, or excess of venery, I do not know his *superior* in the profession. I have been acquainted with the author some thirty years, and deem it no more than justice to him, as well as kindness to the unfortunate victim of early indiscretion, to recommend him as one in whose professional skill and integrity they may safely confide themselves.

ALFRED WOODWARD, M. D.

This is, without exception, the most comprehensive and intelligible work published, on the class of diseases of which it treats. Avoiding all technical terms, it addresses itself to the reason of its readers. It is free from all objectionable matter, and no parent, however fastidious, can object to placing it in the hands of his sons. The author has devoted many years to the treatment of the various complaints treated of, and "with too little breath to puff," and "too little presumption to impose," he has offered to the world at the merely nominal price of 25 cents, the fruits of some twenty years most successful practice.—*Herald.*

No teacher or parent should be without the knowledge imparted in this invaluable work. It would save years of pain, mortification and sorrow to the youth under their charge.—*People's Advocate.*

A Presbyterian clergyman in Ohio, in writing of "Hunter's Medical Manual," says: "Thousands upon thousands of our youth, by evil example and the influence of the passions, have been led into the habit of self-pollution with out realizing the sin and fearful consequences upon themselves and their posterity. The constitutions of thousands who are raising families have been enfeebled, if not broken down, and they do not know the cause or the cure. Any thing that can be done so to enlighten and influence the public mind as to check, and ultimately to remove this wide-spread source of human wretchedness, would confer the greatest blessing next to the religion of Jesus Christ, on the present and coming generations. Intemperance, (or the use of intoxicating drinks,) though it has slain thousands upon thousands, is not a greater scourge to the human race. Accept my thanks on behalf of the afflicted, and, believe me, your co-worker in the good work you are so actively engaged in."
