THE MARKETS.

WHOLESALE PRICES OF COUNTRY PRODUCE.

For the week ending August 11, 1891.

BEANS AND PEAS.

Receipts for the week—Beans, 464 pkgs; peas, 4,400 bush. Exports—Beans, 221 pkgs; peas, 509 bbls. Imports, 488 pags beans. Prices for domestic Marrow beans have settled a little lower under some effort to widen the outlet for them; at the decline—say in range of $2 30@$2 35—exporters have taken a fair quantity, which they will ship next week so as to enter the West-Indian ports free of duty, and the market closes about steady on choice stock. Medium are dull and weaker, but Pea hold up pretty well, because of the scarcity of good stock. Red Kidney without demand at the moment, and out-side quotations could not be made except for fancy export grades. California Lima a shade easier, under freer offerings. All grades of foreign beans quiet and unchanged. Green peas dull and weak.

BUTTER.

Receipts for the week, 40,957 pkgs. Exports for week, 4,755 pkgs. There has been a material improvement in all table grades during the week, and the market closes very strong. Receipts have run fairly liberal for the season of year, but trade has been pretty good, and the strong reports from Western distributing points have made a much firmer holding here. Buyers have followed the advance quite as well as was anticipated, and none of the fresh goods have accumulated in store. The advance to 23c at Elgin yesterday had a marked effect here to-day, and prices were raised on nearly all classes of stock. Extra Western Creamery opened this morning firm at 21c, soon worked up to 21½c, and this afternoon enough sales were making at 22c to almost establish the quotation; gilt edge Elgin is not obtainable below 22c, and that price is also made on some of the fanciest marks of State milk and tubs, although many of the large wholesale buyers are refusing to go that high. Western tubs range from 18@19½c, and seconds sell at 16@17½c, the outside figures only for very high grade. Exporters get but little encouragement on creamery butter, and late shipments are made up largely of factory goods at a cost of 12@13½c. It is thought that prices are now high enough to attract some of the State dairy butter this way; up to the present writing supplies have been very small. Imitation creamery is showing some improvement on top grades, and fresh factory has sold up so closely as to cause some hardening of values. June stock held more firmly, but without sales as yet.

CHEESE.

Receipts for the week, 66,683 boxes. Exports, 45,733 boxes. Prices improved gradually up to the close of last week, and stock cleaned up so well that operators went into the country markets on Saturday and paid a material advance on all grades. At Watertown 7,000 boxes were sold at 9c, and at Canton 3,200 boxes at 8⅝@8¾c. Yesterday at Utica 16,770 boxes sold in range of 8⅝@9¼c. The ruling price was made 8¾c, but the bulk of the cheese brought more money. At Little Falls 9,750 boxes changed hands at 8⅝@8¾c, at Fulton 1,700 boxes sold at 8¾c, and 1,800 boxes of the Cloverfield combination sold at Buffalo at 9¼c. These reports made a good deal strong holding here, and most of the business yesterday and to-day was at 9¼c for fancy white and 9¼@9¾c for perfect colored, latter mainly for combination factories. Buying on foreign account has been checked somewhat by the sharp advance, and the movement to-day was only fair. Under grades of full cream have sold pretty well and bring relatively full rates, and the best grades of part skims are also higher and in fair demand. Liverpool cable, 45@47s.

EGGS.

Receipts for week, 1,979 bbls, and 29,770 cases. The market ruled slightly in buyers' favor following our last report and the ruling price for best Western eggs settled to 16½@16¾c, although a few especially favored brands were again placed up to 17c toward the close of the week. This week opened with liberal receipts, but the surplus was mostly put into cold storage, and 17c again became the current price for fancy goods. That is still reached for pet marks, but the price has become more extreme toward the close, buyers getting a good deal of very good to prime stock at 16½@17¼c, with the tone of the market barely steady.

FRUITS AND BERRIES—FRESH.

The demoralized condition of the market for most kinds of fresh fruits recently noted has resulted in some decrease in supplies, and at the close the market is doing a trifle better. Choice hand-picked apples are now fairly salable and prices show an improvement of about 25c per bbl. Bartlett pears are in fair demand and steady, but all other and less desirable varieties continue to drag at low prices. Plums are less plenty and prime green lots of best varieties for preserving are higher and firm. Southern grapes plenty; fancy lots would sell well, but the offerings are mostly of very common quality, and such are much neglected. Up-river and Jersey Champion are now plenty, dull and lower. Small lots of Delaware from girdled vines selling mainly at 12c, with a few fancy lots, ripened naturally, reaching a higher figure. Peaches in liberal supply, but under a fairly active demand the market is firm and shows some advance. Late sales of Maryland and Delaware fruit have been mainly at 50@65c for good medium grades of red fruit, with fancy large reaching 70@80c. Extra large and fine yellow sell up to $1@$1 25, but the receipts of yellow are largely of medium size and not salable above 60@75c. Jersey peaches still largely inferior, but some lots show improved quality and prices average rather better. Watermelons in lighter receipt and choice stock firmer. Fancy muskmelons scarce and firm, but inferior qualities had to move at any price.

FRUITS AND BERRIES—DRIED.

Receipts for week, 1,226 pkgs; exports, 528 pkgs. A few small jobbing sales of choice new Southern evaporated apples are reported at 9c; no State or Western stock here as yet. Old fruit in light stock, but scarcely any wanted. Chops and cores and skins extremely dull. Cherries held at 9@10c, as to quality, but no sales to speak of. Sun-dried raspberries quoted at 15@16c, and a lot of fancy evaporated Greggs held at 18@18½c. Quite a number of California Apricots arriving, but buyers are slow to take them in any quantity, and 9¼@10c is a nominal quotation.

HOPS.

Receipts for week, 596 bales. Exports, 262 bales. Imports, 94 bales. Business has continued on a very small scale and the market has shown further slight weakness on all grades, but few holders have been afraid of closing out their stock before the new stock comes on the market, and those have fully supplied the small requirements of the trade. Crop reports are about the same as given of late.

POULTRY—ALIVE AND DRESSED.

There was a very sharp advance in live poultry toward the close of last week. Fowls went up to 14c, and Western chickens to 13@13½c. Five carloads arrived yesterday from the West and the market declined fully 1c per lb. fowls and chickens selling at 12½@13c; but the feeling stiffened a little to-day, good fowls going back to 13@13½c, and no desirable chickens had to sell for less than 13c. Turkeys and old roosters steady. Ducks and geese in pretty good demand when well-grown and fat. Receipts of Western dressed poultry were cleaned up very closely by the close of last week, and so far this week, under moderate arrivals and a very good demand, prices have recovered and close firm. At the close, prime Western scalded chickens are firm at 14@15c, with a possibility of getting a little more for extra large, and dry-picked are firm at 13@16c.

Philadelphia spring chickens are inquired for and firm, especially for the largest sizes. Fowls rule firmer also, but show less advance than chickens. Spring ducks quiet. Turkeys scarce and firm. Squabs quiet.
