PROTESTS USE OF ARMY IN MEXICO

Lafollette Wants Congress to Send Armed Force and Not President.

WASHINGTON, July 7.—A resolution protesting against the possible use of American armed forces in the Mexican oil fields and requesting the president, if compatible with the public interest to thansmit immediately to the senate all documents and other information relating to the present situation in Mexico, especially as involving any orders to naval officers, was introduced Wednesday by Sen. Lafollette, republican, Wis. The resolution also would declare it the sense of the Senate that no troops should be landed on Mexican soil or any other military action taken without express authority of congress.

Senator Lafollette requested immediate consideration of the resolution but it went over on objection of Sen Lorge, Mass., the republican leader. Referring to reports that commanders of naval vessels at Tampico had full authority to act in an emergency involving American citizens of properties in that section, the resolution said that "Landing of troops and other hostilities would be equivelent to making war without the authority of congress as prescribed by the constitution.
