THE BANK STATEMENT.

Saturday, Jan. 30—p. m.

By the operations of the New-York Sub-Treasury in the week ended last night, the associated banks last $60,748. The weekly bank statement published to-day showed a gain in cash of $6,028,400. The movement of money from the country has been continued on about the same scale as in recent weeks, and the excessive accumulation of idle funds has become burdensome to the city banks. Although there was an increase of $6,280,100 in loans, the expansion was little more than one-half of the increase in deposits. The aggregate loans, in fact, fell below the deposits by very nearly $56,000,000. The increase in deposits was a few hundred thousand dollars less than the other changes demanded, but the statement was unusually consistent in its details. The result of the changes was an increase of $3,018,000 in the surplus reserve, and the banks held in excess of legal requirements $36,620,900, against $23,943,125 in the corresponding week a year ago and $14,268,450 in the preceding year. This surplus has been exceeded only three times since the resumption of specie payments.

The following are the comparative statements of January 23 and 30:

	Jan. 23.	Jan. 30.	Differences.
Loans	$447,202,600	$453,482,700	Inc. $6,280,100

Circulation	5,566,700	5,488,000	Dec. 78,400

The following shows the relation between the total reserve and the total deposits at the respective dates:

WHAT WAS DONE IN STOCKS.

The stock market was moderately active and, although irregular, generally heavy. Selling for European account was continued, and Louisville and Nashville and Atchison were depressed by the cause. Other stocks, which are not dealt in abroad, suffered similar losses, however, although the largest declines occurred in specialties or in industrial stocks. Distilling and Cattle Feeding maintained its evil prominence, and at the opening it was sold in different parts of an excited group at various prices within a range of 1 per cent. Although it closed 1 per cent above its lowest point its final loss was still 1 1-2 per cent. The character of the trading partially indicated buying for the Western directors who apparently had not completed their speculative operations. Their efforts to working a decline has been matchless.

The general market suffered by the manipulation in this stock and the extreme heaviness of Louisville and Nashville and Atchison, but it was not specially weak. Consolidated Gas was conspicuous by a sharp rise of about 7 per cent on the announcement that the dividend rate had been raised to 6 per cent, and that, beginning in March, the company would pay quarterly, instead of half-yearly, dividends. The dealings in Lake Shore were insignificant in amount, but the stock recorded a slight gain, and the Wheeling and Lake Erie stocks were also exceptionally strong, although extremely quiet.
