NEWS FROM NEW-JERSEY.

JERSEY CITY.

SHE WITNESSED A MURDER AND DIED.

Mrs. Emily de Mora died at her home, No. 221 Griffith-st., on Friday. She was a music teacher, and on the day before her death visited the house of Gustave Henschkel, in Zabriskie-st. This place is nearly in front of the house where Arthur Stocker, who murdered his wife and dangerously wounded his sister-in-law, lived. A moment after Mrs. De Mora departed from the house of Mr. Henschkel she heard a woman scream and glancing down the street saw Stocker shoot and kill his wife. The music teacher became much alarmed and in her terror, when she saw Stocker walking toward her, she ran around the corner of Summit-ave. into the fancy-goods store of E. Ahrens. She besought Mr. Ahrens to save her life, and said a man was pursuing her. Then she fainted. When she was revived she was taken to her home. Friday Mrs. De Mora called on Dr. Stout to consult him concerning her son, and the physician said he would call at the house within two hours. When he reached there it was a few minutes after the woman died. She was suddenly stricken by the bursting of a blood-vessel. Her death had been caused by the sudden shock she received when she witnessed the murder, Dr. Stout said, when he examined her.

The Republican City Committee has decided to hold the primaries to elect delegates to the Mayoralty Convention on February 18. The convention will be held on March 2.

NEWARK.

DANGEROUS LEAKS IN THE NEW RESERVOIRS.

Serious leaks have occurred in the two reservoirs, one at Clinton and the other at Oak Ridge, in the Passaic watershed, which were constructed to impound the new water supply for Newark. The leaks were discovered on Thursday and on Friday such a large amount of water was escaping that the aqueduct officials were informed. The matter was kept quiete and on that day the Mayor, Engineer Fteley, Engineer Jacobson and others visited the region and inspected the reservoirs. They found that there were two leaks or breaks in the Clinton reservoir, one of them serious, while there were three breaks in the reservoir at Oak Ridge. From the Clinton reservoir the water was escaping at the rate of about 24,000,000 gallons daily, more than the average daily supply for Newark.

It was found also that the pipe-line conveying the water from "intake" reservoir to Belleville has many leakages in addition to those previously reported. The engineers examined the two reservoirs and decided to take tests to find why the leaks are increasing. They will go to the watershed to-day for further examination. The expectation has been that the aqueduct system would be ready for acceptance by the city by February 1, but the defects that have been developed will cause an indefinite delay. The cost for repairs will fall wholly on the East Jersey Water Company, which constructed the plant for sale to the city, the whole price being $6,000,000.

There are two Roman Catholic parishes in Newark that have been made vacant recently by the death of the priests—St. John's and St. Aloysius. The former is an irremovable parish, and the pastor must be selected after examination. He must also have worked for ten years in the diocese and three years as a rector or its equivalent. The examination in the present case will take place on February 17 at Seton Hall. Bishop Wigger will simply appoint a priest to take charge of St. Aloysius parish.

RUTHERFORD.

PETITIONS AGAINST AN ASSEMBLY BILL.

Petitions against the passage in the State Legislature of Assembly bill No. 4 are receiving numerous signatures in Rutherford. The bill was introduced by Assemblyman Strahan and relates to water franchises in boroughs. Those who have been fighting the introduction of water here by the Hackensack Water Company allege that the bill was introduced to legalize the franchise granted by the Borough Council of Rutherford to that company. They say that Rutherford is the only borough in New-Jersey which at present has any litigation over a water supply; and they are working actively against the bill. They disclaim any antipathy to the present water supply; but say their present fight is to get the water company to carry out its original proposition to the town—to put in fire hydrants for $15 a year each. This offer was afterward withdrawn and the franchise granted by the Council allows the company to charge $35 a year for each hydrant.

HACKENSACK.

FUNERAL OF JUDGE KNAPP.

Judge Manning M. Knapp was buried at 1:30 o'clock yesterday afternoon. There was a brief service at the house of the dead man, in Main-st. The Rev. Arthur Johnson, pastor of the Second Reformed Church, assisted by the Rev. Mr. Demarest, of Yonkers, conducted the funeral service. The body was then removed to the Second Reformed Church, where public services were held. The church was filled. A special train came from Jersey City with members of the Hudson County Bar Association. Among them were many prominent lawyers. The burial took place at Kinderhook Cemetery, in Hackensack. The pall-bearers were Governor Leon Abbett, ex-Governor Bedle, Chancellor McGill, Vice-Chancellor Pitney, Judge Dixon, of Jersey City; ex-Judge William S. Bania, of Hackensack; Chief Justice Beasley, of Trenton; President F. C. Young, of the First National Bank of Jersey City; E. W. Scudder, A. Reed, John P. Stockton, J. F. Bird, B. Van Syckle, all of Trenton; Charles C. Garrison, of Merchantville; A. V. Van Fleet, B. A. Depue, Theodore Runyon, of Newark, and Robert S. Green and W. J. McGee, of Elizabeth.

NEW-BRUNSWICK.

INDICTED FOR PENSION FRAUDS.

Special Pension Agent McMorris has unearthed a fraud on the Government at New-Brunswick that promises to entrap several men. Frederick Wright was indicted by the United States Grand Jury at Trenton on Friday for usurping the prerogatives of a pension agent and profiting to the extent of several hundred dollars from those who had received pensions through his instrumentality. Wright holds the office of Poor Overseer in New-Brunswick, and in this way became acquainted with those who were seeking pensions. He took charge of their cases and wrote to the Washington Bureau. As each claimant in turn received the back pension, he would accept part in payment for his services.

Agent McMorris went to New-Brunswick two months ago and made an investigation. He found that Wright had collected $400 from Isaiah Demunn, colored, who gave him $25. William Ferguson got a pension of $27 a month and $400 back pay. Wright took $100 from him after Ferguson cashed his check at the bank. Robert Jackson got $800 in back pay, or $30 per month, and Wright deducted $50 as his pay. Mrs. Morris McGrath got $1,669, or $12 a month, and gave Wright $50. Agent Morris unearthed a number of other frauds and then called upon Wright and demanded restitution to the pensioners. Wright pleaded poverty, but acknowledged receiving the unlawful bonus. McMorris failed to get back the money, but waited two months for Wright to make it good. He then lodged his evidences at the Washington Bureau, and it was laid before the United States Grand Jury. Five indictments resulted, and Wright will be arraigned for sentence two weeks hence.

Mr. Morris is said to have found others engaged in the same unlawful practice at New-Brunswick, and will take the evidence before the next session of the jury. Mr. Wright said last night that he would probably get out of the trouble all right. "I accepted the money as gifts for my services," he said, "and did not know that it was a fraud on the Government." Since the facts became known several Grand Army men have prepared a protest against Wright's retention in the office of overseer, and they will ask the Board of Aldermen to depose him at its next meeting.

EAST ORANGE.

TO INCORPORATE THE RIDING CLUB.

The Gentlemen's Riding Club of East Orange, which was organized last fall by some thirty members of the prominent people of East Orange, has decided to take an important step in advance. At a meeting held on Thursday night it was decided to incorporate it under the name of "The Gentlemen's Riding Club of Orange" and to increase the membership to 100. The initiation was fixed at $100 and the yearly dues at $50 a year. A committee was appointed with power to select a club site, and this committee has secured the old Harrison Street Rink, near the Brick Church Station, which it is proposed to fit up at once in the most perfect manner as a private club for the use of members. An addition is to be built on the rear of the building to accommodate all the horses of the club. The front of the building is to be completely renovated, richly furnished parlors provided on the ground floor for both gentlemen and ladies, and above these dressing-rooms and bath-rooms with all modern conveniences. The property is to be on a long lease, and the members of the club expect to spend about $5,000 in improvements. Among those interested in the project are some of the wealthiest men in the Oranges.

MR. CHAPIN CALLS ON THE MAYOR.

Congressman Chapin, ex-Mayor of Brooklyn, was one of Mayor Grant's callers yesterday. The Mayor said that Mr. Chapin's visit had no connection with the Brooklyn Bridge bill intended to reduce the number of Bridge trustees and return the control of the Bridge to Ross McLaughlin's Kings County henchmen. Mr. Grant repeated his statement of a few days ago, that it was not his purpose to oppose the bill.

Take the World's Fair Special, via New-York Central, for Chicago. Speed and elegance. No extra fare.

OTHER SUBURBAN TOWNS.

LONG ISLAND.

SMALLPOX AT CANARSIE.

Smallpox has taken a firm hold on Canarsie, L. I. One death has occurred and two persons are now sick with the disease. The first case was discovered on January 16, when a boy ten years old, son of James Sellers, one of the best known men in the town, was found to have the disease. The house was quarantined and efforts made to prevent the spread of the disease. On Tuesday last the boy died and his father was taken sick with what now proves to be smallpox. Now a boy living next door to the Sellers house has taken sick also with the disease. The disease is supposed to have been spread in the village by Italians from New-York, who are working on an extension of the railroad. Every effort was made to stop the spread of the disease, and 300 persons have been vaccinated by Dr. Tromer, the health officer. Sellers was yesterday taken to the hospital, at Flatbush.

LONG ISLAND CITY.—The Police Commissioners have issued an order which permanently suspends over 100 men from the police force. For years it has been the custom to appoint any one applying, to the office of special policeman. These appointments held good for an indefinite period, with the result that there are now on the roll over 100 of these "specials." They did no duty whatever. These men were informed last night that after February 2 they would cease to hold office, and that they must turn in their badges by the same day. It is the intention of the Commissioners to appoint three, four or five men in each of the five wards as specials, and these men are to be only such as are prepared to do duty when called upon. . . . The franchises, rolling stock and other property of the Steinway and Hunter's Point Horse Railroad were sold at auction yesterday under foreclosure, and were purchased by William Steinway for $75,000, he assuming all indebtedness. Mr. Steinway holds over $400,000 of the company's bonds.

FAR ROCKAWAY.—Herbert Plaier, thirty-two years old, committed suicide on Friday night at Inwood, by cutting his throat. He had complained of severe pains in his head, and his friends say he was temporarily insane. He was unmarried.

WESTCHESTER COUNTY.

SING SING.—A number of boys and men ventured on the ice on the Hudson yesterday to skate. Among those who enjoyed the fun, was the Rev. H. E. Duers, pastor of the Colored Centennial Baptist Church. While Mr. Duers was performing some fancy figures on the ice, it suddenly began cracking and every one ran for a place of safety. Mr. Duers was not quick enough, however, and before he could move from his position the ice broke into cakes, and he floated down the river with the tide. This caused much consternation among those who witnessed the scene. He shouted for help, and Peter Clausen, janitor of the Sing Sing Yacht Club, who happened to be in the clubhouse, heard the man's cries for help, and quickly launched a boat and went to the rescue. He was taken in safety to the shore. . . . John Knapp and Hiram Osborne, keepers at the State Prison, were discharged last evening. Both are Republicans and they say that their dismissal was for political reasons.

ROCKLAND COUNTY.

NYACK.—Alexander Dutcher, proprietor of a large paper and wooden box manufactory for several years, made an assignment yesterday to Augustus M. Voorhis. The amount of the liabilities has not yet been stated. The closing of the factory throws many persons out of employment.

GOSSIP ABOUT TURF AFFAIRS.

OCNTINUING THE RAIDS AT GUTTENBURG.

The raids continue at Guttenburg, and when the fight is over the "big four" will realize that the Board of Control or the Monmouth Park management had nothing to do with the contest. Eleven arrests were made yesterday, and the offenders were held under bail to appear before the Grand Jury.

The death of the imported Touques is a serious loss to August Belmont, as she produced high-class racehorses. Turco, a stake-winner and the sire of winners, now the property of L. O. Appleby, and La Tosca are the best of her produce.

La Tosca is now the property of Pierre Lorillard, and is one of the fastest horses ever seen on the American turf. Touques was by Monarque, dam La Touques by the Baron, the sire of Stockwell, one of the richest pedigrees in the studbook.

August Belmont's imported mares will go to Kentucky. John Miller will have charge of them. They are a royally bred lot and their produce will be watched by breeders with interest.

There is but little horse news at present as everybody is waiting for the handicaps. The Board of Control meets on Tuesday and important unfinished business will be settled.

The trouble about young "Major" Covington may be settled, as neither Green Morris nor Matt Byrnes will give way to each other.

The Tremont—Laura filly shows so much quality that it looks as if some Eastern turfman will have her before the season is well under way. The Ashland Park Stable is loath to part with her, but the average Kentuckian cannot resist a liberal offer, and does not care to take the chances of training and racing high-priced ones.

Laurente, General Sanford's latest importation, pleases that progressive breeder, General Sanford will breed him to such mares as Viola, Lady Primrose, Brown Princess and other high-class mares.

The owners of Postmaster by Postguard—Marvel lost a chance to get a long price for him by starting him in the race for two-year-olds on January 1 at Guttenburg, as it deprives him of the chance to run on the big tracks. The colt could run a half mile in fifty seconds with his weight up at any time in his work.

S. S. Brown will call out likely performers in his Western stable and ship them East to try conclusions with the cracks in this part of the country.

TO SETTLE IMPORTANT AFFAIRS.

An important meeting of the Metropolitan Association of the Amateur Athletic Union will be held at the Astor House on Tuesday evening. An effort will be made to settle the disputed Harding-Murphy cases, and the committee which succeeded in making the recent athletic tournament at Madison Square Garden a fizzle will also be dragged over the coals.

But the most important thing to be settled will be the matter of the presidency, at present held by C. P. Mathewson. He was elected president of the association last November, and he was at that time also president of the Berkeley Athletic Club. He is now one of the council of the University Athletic Club, and he resigned from the Berkeley last Monday. As Mathewson is no longer a member of a club belonging to the Amateur Athletic Union, he is not eligible to the presidency of the local association of the A. A. U.

The section of Article 8 of the constitution of the Amateur Athletic Union which has a bearing on the case is as follows:

The Board of Governors shall . . . have power and it shall be their duty . . . to declare vacant the position of any member of the Board of Governors . . . who shall have ceased to be a member of any club belonging to the member which elected him a delegate. . . .

ARRANGING COLLEGE BASEBALL DATES.

Worcester, Mass., Jan. 30 (Special).—Representatives of the Princeton and Harvard baseball associations met at the Bay State House, this city, this afternoon, and arranged a schedule of games between the two colleges. Princeton was represented by L. A. Young, captain and pitcher, and J. P. Parker, president of the college baseball association. The Harvard men present were L. A. Frothingham, captain, and John W. Cummin, president. Colonel S. E. Winslow, the famous Harvard captain of ten years ago, was present in an advisory capacity. The details were quickly arranged. It was decided to play two games, the first at Princeton on May 7, and the second at Cambridge on May 30. In case of a tie, further arrangements will be made hereafter for a third game. Colonel Winslow entertained the delegates at his home in Leicester after the meeting.

AN ICE LOCOMOTIVE.

Poughkeepsie, N. Y., Jan. 30.—An ice locomotive has just been completed at the Fishkill Landing Machine Works, and will be tested on Monday. The inventor is Thomas Mulrey, of New-York.

We do not know why Scott's Emulsion of cod-liver oil is so useful in those simple but varied conditions which you know as "having a cough." We cannot explain it: we only know the fact from experience.

It may be due to the combination of tonic effects of cod-liver oil and the hypophosphites; it may be partly due to the glycerine. There are many effects in medical practice the causes of which appear to be plain, but how those causes produce those effects we do not know at all.

SCOTT & BOWNE, Chemists, 132 South 5th Avenue, New-York.

Your druggist keeps Scott's Emulsion of cod-liver oil—all druggists everywhere do. $1.

HANGED HIMSELF IN A HOTEL.

A few minutes after noon yesterday two Germans of middle age, one of whom was dressed like a sailor, went to the Hotel Zur Quelle, a cheap boarding house at No. 411 Broome-st., and hired board for a week. They were assigned to a room on the third floor in which there were two beds, but they were not required to give their names, because they paid for their board in advance. After they had eaten a hearty dinner, they went to their room and ordered up some beer, which they drank. The sailor then went out, leaving his comrade alone in the room. Louisa Souzer, a chambermaid, entered the room at 3 p. m., but quickly withdrew when she saw a man lying on one of the beds, apparently asleep. She went back an hour afterward, and saw the man kneeling beside a door leading to an adjoining room. Thinking that she had caught the man in an attempt to break into another boarder's room, the servant ran downstairs and called Frederick Newman, one of the bartenders.

When Newman got upstairs he was surprised to find the man still kneeling beside the door. Then he discovered that there was a rope about the man's neck, and one end of it was fastened to a hook on the door. He was dead and there was no means of identifying the suicide.

Country Real Estate For Sale.

A COUNTRY HOME and STOCK FARM FOR SALE.—Located in Central New-York, on the Lehigh Valley Railroad; adjoins the village of Moravia (3,000 inhabitants); with good schools, churches, telegraph, telephone, express offices, and good society; 18 miles south of the city of Auburn. The farm embraces 192 acres, of which about 100 acres lies in the valley, and is unsurpassed in fertility; balance on side hill and timber. The dwelling is first-class in every particular, with all modern appliances and conveniences, such as running water, furnace, open grates, broad piazzas, &c.; while the barns have been built after most approved plans as seen both in this country and in Europe. Tenant-house on the farm. It was the summer home of the late George J. Letchworth, of Pratt & Letchworth, of Buffalo, N. Y., and has been kept in perfect condition. A fine herd of registered Jerseys (40 to 50 head) will be sold with the property if
