THE PUBLIC DEBT STATEMENT.

Wednesday, March 2—p. m.

The monthly Treasury statement shows a net decrease in the public debt in February of $2,497,149. There was a reduction of $1,703,803 in the aggregate funded debt, while the surplus cash in the Treasury was increased by $793,745. The net available balances, including deposits in National banks of $14,533,840, were at the end of the month $16,941,292—an increase of $434,823 in comparison with the preceding month. The stock of subsidiary coin and fractional currency was increased in the month by $358,022, and, following the current in previous months, the change indicates a satisfaction of public demand for minor coin. The Treasury holdings of gold coin and bullion were about the same as they were a month ago, but the gold balance was increased by a reduction in the volume of outstanding certificates. The net silver balance was not changed materially, although the accumulation of the white metal was continued.

The Controller's statement shows a decr
