Scraps.

There is a spirit in man, and the inspiration of the Almighty giveth them understanding.—JOB.

Instinctive life and sentient soul belong to nature, but rational spirit crowns nature, and of right takes dominion over it.—HICKOK.

As the season for Methodist camp-meetings is near at hand, preparations are being made for these popular gatherings in various parts of the country.

To listen to enemies as well as friends is a rule which not only increases sense in common life, but it is highly favorable to the increase of religious candor.—SYDNEY SMITH.

To the true reformer no institution is sacred, no belief above criticism. Everything shall conform itself equity and reason; nothing shall be saved by its prestige.—HERBERT SPENCER.

Never do we do more, and in a holier way, than when we know not how much we do. Never do we do worse than when we know what and how much we do, for it is impossible that we should not be pleased with ourselves.

A movement to institute a relief fund for the benefit of the widow and children of Captain Hall, the Artic explorer, was started at Cincinnati last week. Mr. Miles Greenwood was appointed chairman of a committee for the purpose of receiving subscriptions.

Mirth is God's medicine.—Every one ought to bathe on it. Grim care, moroseness, anxiety, all this rust of life ought to be scoured off by the oil of mirth. It is better than emery. A man without mirth is like a wagon without springs, in which one is caused disagreeably to jolt by every pebble over which it runs.

Those most learned in ceremonies, and most precise in observance of them, are not always best behaved; as those deepest read in creeds and scriptures are not therefore the most religious; nor those who have the clearest notions of legality and illegality, the most honest.—HERBERT SPENCER.

It is not proper to understand the Intelligible with vehemence, but if you incline your mind, you will apprehend it; not too earnestly, but bringing a pure and inquiring eye. Things divine are not attainable by mortals who understand sensual things; but only the light-armed arrive at the summit.—ZOROATER.

Man can monopolize and interpret facts, while the animal can only judge according to facts. By the insight of reason which no animal can exercise, man attains in many facts the principle which was before the fact, and which, wholly unmade itself, controlled and guided the maker of the fact in all its construction.—HICKOK.

Either very few death-beds are Christian ones, or else triumph is a very different thing from what the word generally implies. Solemn, subdued, full of awe and solemnity, is the dying hour generally of the holiest men; sometimes almost darkness. Rapture is a rare thing, except in books and scenes.—ROBERTSON.

When you shall say, "As others do, so will I: I renounce, am sorry for it, my early visions; I must eat the good of land, and let learning and romantic expectations go until a more convenient season;" then dies the man in you; then once more perish the buds of art and poetry, and science, as they have died already in a thousand and thousand men.—EMERSON.

The Bank of England covers five acres of ground, and employes nine hundred clerks. There are no windows on the street. Light is admitted through open courts; no mob could take the bank, therefore, without cannon to batter the immense walls. The clock in the center of the bank has fifty dials attached to it. Large cisterns are sunk in the court, and engines, in perfect order, are always in readiness in case of fire. This bank was incorporated in 1694. Capital, $90-000,000.

The Pope Prays.

THE Pope, in a speech yesterday declared he had ever prayed for France, but he would now pray with greater confidence, for the election of Mac Mahon to the head of that country was a guarantee of order and justice to civilization, which was menaced on all sides.

The above telegram comes to us from Rome. We are glad that Mac Mahon's election awakens in the old man at Rome, such a devotional spirit. Prayer is good for him. "But one swallow doesn't make a summer." The Republic isn't dead because the mere circumstances put it in the power of the monarchists to make Mac Mahon President. The people believe in Thiers, Gambetta, Democracy. At any rate, if one will accept the verdict of history it is quite evident that God has never had much palate for the prayers of Popes, has never given their supplications any very propitious audience. And so they themselve have believed, or else they would hardly have taken matters in their own hands and gone to work, by rack and dungeon and ax and fire, to persuade men. Perhaps no sadder calamity could befall Mac Mahon just now than to be prayed for by Pope Pius. Some men's objurgations are infinitely better than their supplications.

Beauty Sleep.

Sleep obtained two hours before midnight, when the negative forces are in operation is the rest which most recuperates the system, giving brightness to the eye and a glow to the cheek. The difference in the appearance of a person who habitually retires at ten o'clock and that of one who sits up until twelve is quite remarkable. The tone of the system, so evident in the complexion, the clearness and sparkle of the eye, and the softness of the lines of the features, is, in a person of health, kept at "concert pitch" by taking regular rest two hours before twelve o'clock, and thereby obtaining the "beauty sleep" of the night. There is a heaviness of the eye, a sallowness of the skin, and an absence of that glow in the face which renders it fresh in expression and round in appearance that readily distinguishes the person who keeps late hours.

"BOB, is your sister at home?" "Yes; but she won't see you to-night." "Why?" "Because she said she was going to have one more plate of onions if she never got another beau."

THE ROMANCE OF CURE!

The many evidences of extraordinary cures that are daily reported as effected through

DR. RADWAY'S Sarsaparillian Resolvent.

Ready Relief and Perfect Purgative Pills, in written testimonials from all parts of the world, surpass in wonder the most extravagant miracles of enchantment. Physicians and medical men in all countries pronounce these wonderful remedies a mystery, that neither their science of analysis or chemical skill can explain. True, these medicines effect the most marvelous cures, and restore the dying to life, and relieve the most wretched pain-suffering victim of his tortures, in from *one to twenty* minutes, and although they know some of the ingredients of their composition, and Dr. Radway has published their formula (withholding only two newly discovered roots), still both French, German, English and American chemists and pharmacentists utterly fail with the same ingredients as prepared by them. The great success, which these wonderful remedies are constantly achieving, lies in the great secret of combining the ingredients together, after exercising due care in selecting the pure and genuine roots.

Such wonders of Modern Chemistry as the SARSAPARILLIAN RESOLVENT, READY RELIEF & RADWAY'S PILLS, are without parallel in the History of Medicine, for there are some infirmities and diseases that are considered as incurable, and sure death. Yet the most astounding cures have been made through these remedies of some diseases that have never been known to be cured by medicine.

CONSUMPTION, SCROFULA, WHITE SWELLING, Tumors in the Womb, Stomach, Ovaries, Bowels, Bright's Disease of the Kidneys that have been pronounced incurable, Cancers, Ulcers, Swellings, Stone in the Bladder, Calculous Concretions, Ulcers and Sores of the Bones, Rickets so deeply seated that no other medicines have been known to reach, have been cured by the SARSAPARILLIAN RESOLVENT, aided by the READY RELIEF and PILLS.

Palsy, Paralysis, Dry Gangrene—that threatens a living death—daily rotting away of the limbs and flesh—Diabetes, Involuntary Discharge of Water, Fungi in the Bladder (the Emperor Napoleon's disease), Torturing pains when discharging urine, RHEUMATISM, GOUT, NEURALGIA—each and every one of these complaints—some but a few of the many other diseases, Radway's Sarsaparillian Resolvent has cured and is daily curing in all parts of the world.

In one word, any disease—no matter under what name designated, that is nourished or increased by bad, impure, depraved, weak, thin, watery or poisoned blood—can be cured by RADWAY'S SARSAPARILLIAN RESOLVENT.

Dr. Radway & Co. have never claimed one-hundredth part of the curative virtues for their remedies as is ascribed to them by the people who have used them; for fear in mind, only such diseases and complaints as Dr. Radway, after successful treatment with their remedies knew they would cure, were enumerated in their curative list, so that many of the extraordinary cases that have been reported to work a much astonishment in the discovery of their remedial agents as in those who had been rescued from death, and made whole and sound.

As many persons discredited their extraordinary power, from the fact of their disappointment in the use of other advertised remedies—and some believed it impossible for simple medicines made only from vegetable substances—roots, herbs, &c.—should possess such marvelous power. Yet they can readily comprehend that the simple grasses of the field, after undergoing the chemical process of distillation designed by nature in the cow-mud churn, furnishes the milk with butter—certainly the most abundant fat, caloric or heat-making—bone, tissue, muscle, sinew and blood-making constituents for the human body.

But when those people who first doubt the efficacy of these remedies commence their use, they become their most earnest advocates.

WORMS.

THE ONLY SAFE & SURE REMEDY FOR TAPE, PIN, & WORMS OF ALL KINDS.

OVARIAN TUMOR CURE.

Never has a medicine taken internally, been known to have cured Tumors, either of the Womb, Uterus, Ovaries or Bowels; the knife has been the sole reliance in the hands of experienced surgeons; but Dr. Radway's Sarsaparillian settles this question. It has cured over twenty persons of Ovarian Cysts and Tumors, as well as Tumors in the Bowels, Uterus, Womb, Liver, Dropsical Effusion, Ascites, and Calculous Concretions.

Tumor of 12 Years' Growth Cured by Radway's Resolvent.

BEVERLY, MASS., July 16, 1869.

DR. RADWAY: I have had Ovarian Tumor in the ovaries and bowels. All the doctors said there was no help for it. I tried everything that was recommended, but nothing helped me. I saw your Resolvent and thought I would try it, but had no faith in it, because I had suffered for 12 years. I took six bottles of the Resolvent, one box of Radway's Pills, and used two bottles of your Ready Relief, and there is not a sign of a tumor to be seen or felt, and I feel better, sweeter and healthier than I have for 12 years. The worst tumor was in the left side of the bowels, over the groin. I write this to you for the benefit of others. You can publish it if you choose.

HANNAH P. KNAPP.

AN IMPORTANT LETTER

From a prominent gentleman and resident of Cincinnati, Ohio, for the past forty years well known to the newspaper publishers throughout the United States:

NEW YORK, Oct. 11th, 1870.

DR. RADWAY—Dear Sir: I am induced by a sense of duty to the suffering to make a brief statement of the working of your medicine on myself. For several years I have been afflicted with some trouble in the bladder and urinary organs, which gradually became aggravated to almost terribly afflicting disease, which the physicians all said was spasmodic stricture in the urethra, as also inflamation of the kidneys and bladder, and gave it as their opinion that my age—53 years would prevent my ever getting well or being cured. I had tried a number of physicians and had taken a large quantity of medicine, both allopathic and homeopathic, but got no relief. I had read of astonishing cures having been made by your remedies, and some four months ago I read a notice in the Philadelphia Saturday Evening Post of a cure having been effected in a person who had long been suffering as I had been. I went right off and got some of each—your Sarsaparillian Resolvent, Ready Relief, and Regulating Pills, and commenced taking them. In three days I was greatly relieved, and now feel as sound as a young man.

The New York Ledger FOR 1873.

THE GREAT FAMILY PAPER.

Instructive and entertaining as the *Ledger* has been in the past, we hope and intend to make it still more instructive and entertaining in the future. Our experience is greater than heretofore, and our ambition to make the *Ledger* the best paper of the kind published in the world, is undiminished.

It is the aim of the *Ledger* to cultivate a taste for reading in the rising generation, and at the same time, by the character of its contents, to contribute constantly to their moral and intellectual improvement and growth.

An epicure might as well undertake to write down what he would have for dinner every day for twelve months to come, as for us to attempt, at this time, a catalogue of all the good things that will be spread before the readers of the *Ledger* in 1873. Our old subscribers will bear us witness that all the promises we have ever made have always been more than fulfilled. We never let slip an opportunity to obtain any really good and desirable thing. Expense and trouble never stand in our way. And in this respect, as it has been in the past, so it will be in the future.

The *Ledger* is particularly devoted to the interests and welfare of the young. A vast number of questions about lovers' quarrels, propositions of marriage, plans for housekeeping, and the best means of brightening the future of youthful married couples, are answered in its columns.

One great and guiding principle with us is to inculcate the sentiment of self-respect and self-reliance, and thus to strengthen and render more sturdy the characters which are just assuming form, to endure through all their days.

The *Ledger* is always full of life. Nobody ever complains that even a single number is dull.

It has the largest number of great and distinguished writers.

It contains the purest, sweetest and most delightful stories, striking narratives, and instructive biographical and historical sketches.

It has the most popular and carefully prepared collection of scientific facts.

Many of the most distinguished clergymen of the country write for it.

All our favorite old writers will continue to write for the *Ledger*; and we are always on the keen look-out for any new developments of *real* rising genius.

FOR THE

THROAT AND LUNGS!

It is gratifying to us to inform the public that Dr. L. Q. C. Wishart's Pine Tree Tar Cordial, for Throat and Lung Diseases, has gained an enviable reputation from the Atlantic to the Pacific coast, and from thence to some of the first families of Europe, not thro' the press alone, but by persons throughout the States actually benefitted and cured at his office. While he publishes less, so say our exporters, he is unable to supply the demand. It gains and holds its reputation—

First. Not by stopping cough, but by loosening and assisting nature to throw off the unhealthy matter collected about the throat and bronchial tubes, *which causes irritation.*

Second. It removes the cause of irritation (which produces cough) of the mucous membrane and bronchial tubes, assists the lungs to act and throw off the unhealthy secretions, and purifies the blood.

Third. It is free from squills, lobelia, ipecac and opium, of which most throat and lung remedies are composed, which allay cough only, and disorganize the stomach. It has a soothing effect on the stomach, acts on the liver and kidneys, and lymphatic and nervous regions, thus renovating to every part of the system, and in its invigorating and purifying effects it has gained a reputation which it must hold above all others in the market.

A NEW ERA IN JOURNALISM

The Great Achievement of the Nineteenth Century.

THE DAILY GRAPHIC.

All the News and Full of Pictures.

THE DAILY GRAPHIC is the title of a newspaper, published in New York, which is achieving the most remarkable journalistic success ever chronicled. It is an eight-page evening paper (three editions daily), elegantly printed, and contains, produced by the ablest editorial talent attainable.

As a newspaper THE DAILY GRAPHIC stands in the first rank, and contains regularly

The Very Latest and Fullest News from all Parts of the World.

Its great feature consists in the fact that it is not only a newspaper, but an illustrated newspaper as well. Four of its pages are filled with choice reading matter—telegrams, editorials, general and local news, items, gossip and correspondence on the freshest and most interesting topics. The remaining four pages consist of

executed in the most faultless and artistic style, and portraying accurately and fully all leading events within twenty-four hours after their occurrence. Those who have made journalism a study, and fully appreciate the great enterprise manifested in the collection and publication of news by the aid of the telegraph, steam presses, and the development of our journalistic talent, have been fond of advancing the theory, that the next advance in that field would result in a newspaper furnishing regular issues pictures of all current prominent events. That theory is a theory no longer; the newspaper of the future is the newspaper of to-day, and that paper is THE DAILY GRAPHIC. The processes which render this marvellous achievement an existing fact are the result of the most careful study and an endless variety of experiments, gradually perfected during the past twelve years. They depend upon improvements in lithography and the application photographic camera. By their aid a picture is engraved and made ready to print in from twenty minutes, to two hours. Costly and elaborate plates, works of art, scenes of interest, are reproduced and pictured forth with great facility and the most scrupulous fidelity. Illustrations of leading events are engraved and prepared for the press even before the accompanying written narrative or description leaves the hands of the compositor.

For the proper practical working of so great an enterprise, THE GRAPHIC COMPANY was formed has

months and months before the first issue of THE DAILY GRAPHIC, the most extensive preparations were made, and to-day THE GRAPHIC COMPANY has

The DAILY GRAPHIC aims to be in its strictest sense a newspaper. Striving always to be just and truthful, it discusses all questions independently and impartially. It is not the organ of any party, sect, or creed. It is always high-toned, and contains nothing to offend any taste. Its contents give it an immense advantage over the "old fashioned" papers. The annual subscriber gets
