HOME TESTIMONY.

HARTFORD, Trumbull Co., O., March 7th, 1857.

I hereby certify that I have been dealing in the Graffenberg Medicines for the past year, and can truly say that I have never offered any medicines to the public that have met with the deserved appreciation of the people like these, particularly the Pills and Catholicon.—They will readily perform all and more than is promised for them. I have sold about fifty bottles of the Catholicon the past season, and I hear the best results in every case.

J. H. C. JOHNSON, Medical Agent.

Read what Dr. Rushnell says of the Graffenberg Medicines. Dr. R. is a physician of extensive practice, and one of the most successful in the county (Trumbull) in which he resides:

"This certifies that I have used the Graffenberg Pills and Marshall's Catholicon, sold here by J. H. C. Johnson, to my entire satisfaction. They are good medicines. Dr. G. W. RUSHNELL."

Hartford, Trumbull Co., O., March 7, 1857.

I am a physician of thirty years' practice. My principal study has been diseases of females. They have invariably met no less efficacious than astonishing results. Marshall's Uterine Catholicon is a medicine that has done a great amount of good in female diseases. One lady I sold it to told me she had received more benefit from one bottle than she had received in three years of medical treatment by the most skillful physicians. Yours truly,

JAMES WILSON.

New Agricultural Settlement.

To all Wanting Farms,

A Rare Opportunity is a Delightful and Healthy Climate, 25 miles South-East of Philadelphia, on the Camden and Atlantic Railroad, New Jersey.

An address consisting of several thousands of acres of PRODUCTIVE soil has been divided into farms of various sizes to suit the purchaser. A population of some Fifteen Hundred, from various parts of the middle States and New England have settled there the past year, improved their places, and raised excellent crops. The price of the land is at the low sum of from $15 to $20 per acre, the soil is of the best quality for the production of Wheat, Clover, Corn, Peaches, Grapes and Vegetables. IT IS CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The place is perfectly secure from floods—the destructive enemy of the farmer. Crops of grain, grass and fruit are now growing near us. By examining the place itself, a correct judgement can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only for actual improvement. The result has been, that within the past year, some three hundred houses have been erected, two mills, one steam, four stores, some forty vineyards and peach orchards, planted, and a large number of other improvements, making it a desirable and secure place of business.

THE MARKET,

as the reader may perceive from its location, is the BEST IN THE UNION.

Produce bringing double the price than in locations a way from the city, and more than double the price than the West. It is known that the earliest and best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of millions.

In locating here the settler has many advantages.—He is free from the evils of the great cities New England and Middle States, he is near his old friends and associations, he is in a settled country where every improvement of comfort and civilization is at hand—He can buy every article he wants at the cheapest rate, and the surface for the highest, (in the West this is reversed,) he has schools for his children, divine service, and will enjoy an open winter, and delightful climate, where fevers are utterly unknown. The result of this change upon those who try it, has generally been to restore them to an excellent state of health.

In the way of building and improving, lumber can be obtained at the mills at the rate of $10 to $15 per thousand. Brooks from the brick yard opened in the place, every brick can be pressed in the place, good carpenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaper.

The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct, no one would be invited to examine the land before purchasing. The stream expected to do. They will see land under cultivation, and is the extent of the settlement that they will see. Look, most persons, from their own neighborhood; they will witness the improvements, and can judge the character of the population.—If they come with a view to settle, they should come prepared to stay a day or two and be ready to purchase, as locations cannot be held on refusal.

There are two daily trains to Philadelphia, and to all settlers who improve, the Railroad Company gives a FREE TICKET for six months, and a half price Ticket for three years.

THE TOWN OF HAMMONTON.

In connection with the agricultural settlement, a new and thriving town has naturally arisen, which presents inducements for any kind of business, particularly stores and manufacturing. The Steam Saw Mill, which is carried on in this place and offers to great advantage, also cotton business, and manufacturers of agricultural implements, or Founders for casting small articles.—The improvement has been so rapid as to insure a constant and permanent increase of business. Town lots of a good size—we do not sell small ones, as it would effect the improvement of the place—can be had at from $100 and upwards.

The Hammonton FARMER, a monthly literary and agricultural sheet, containing full information of Hammonton, can be obtained at 25 cents per annum.
