## GENERAL MARKET REPORT.

COFFEE—Brazil growths on the spot very dull, with prices nominally lower. No. 7 Rio quoted at 12¾c asked, without buyers. Mild grades unchanged and dull. The option market was likewise depressed, and the close showed a decline of 10@15 points, despite a rise at Havre. The stagnation and weakness in spot lots and selling by "clongs" were responsible for most of the depression. Havre advanced 1 franc on May and 4@5 francs on later months. Hamburg declined ⅛@¼ pfg. Options—Were depressed and lower, with only a moderate business reported. The start showed a decline of 3 points, and the close was fully 8@9 points below the final of Saturday last. The early break was due to "long" selling, prompted by disappointing Liverpool advices, and the heaviness was subsequently intensified by the freer port receipts. Sales, 85,400 bales.

FLOUR AND MEAL—FLOUR—Choice spring wheat patents were held with a fair show of steadiness to-day, beside from which the general market ruled unsettled and weak, with liberal offerings. GRAIN—WHEAT—Switching operations absorbed a considerable share of the business accomplished to-day (which was unusually brisk) and the market ruled alternately weak and strong, within the range of ⅜@1c. The dealings aggregated 11,250,000 bush, but trading was for the most part on local account. A stronger tone characterized the early market and local "shorts" covered to a limited way. The result was a rise of ⅛@¼c, and for the time being the "bulls" had affairs entirely in their hands. Deliveries on contracts both here and at the West were light, in addition to which there were large seaboard clearances, while the interior movement was very moderate. The cables, however, were again discouraging, and "longs" started selling on the rise, which was soon lost, and the close showed general losses of ⅛@⅜c. Liverpool came 1d lower early, and closed unsettled, some months being ¼d better while others were slightly lower. London was unchanged. Paris was higher by 30 centimes on flour, but this had no effect. The decrease in the visible supply was fully discounted and seemed to be ignored. Predictions of warmer weather in the West and Northwest helped the late decline, and some private Liverpool cables reported a weaker market on large Indian shipments. The opening of the canals was also used to some advantage by the "bear" element. Local stocks in store increased nearly 500,000 bush. May opened at 90⅞c and subsequently sold at 91c (for 8,000 bush, after which it dropped to 90⅛c, closing at the bottom. July ranged from 90⅞c up to 90 15-16c, then down to 89⅞c, closing at the bottom. Arrivals at interior points were 382,522 bush spring and 49,690 bush winter, against 851,262 and 52,316 bush, respectively, a year ago. Seaboard receipts, 318,000 bush; clearances, 687,848 bush wheat and 21,000 pkgs flour. Spot cables opened firm, but closed weak with free offerings. There were 128,000 bush taken for export, including No 1 Northern spring at 1⅛@1⅜c over May; do last half May at 91 9-16c; No 3 Chicago red, on private terms; No 2 red 8c over May afloat; do, f. o. b., 7½c over May. Millers bought 16,000 bush. Sales, 11,250,000 bush future, 180,000 bush spot, including No 1 Northern spring at 90⅞@92⅛c; ungraded winter red and spring at 85⅞@99⅛c; No 2 red afloat, 98⅛@99c; do, f. o. b., 97⅝@98⅞c; No 2 Chicago spring quoted 90⅞@91c; No 2 Milwaukee, 88⅛@89c; No 2 May, 90⅛@91c, closing at 90⅞c; do June, 89⅞@90⅛c, closing at 89⅞c; do July, 89⅞@90 15-16c, closing at 89⅞c; do August, 88⅞@90c, closing at 89⅞c; do September, 89⅛@90c, closing at 89⅞c; do December, 92⅜@92⅞c, closing at 92⅞c; do 1893, 95⅛@95⅞c, closing at 95⅛c.... RYE—Unsettled and lower. Quoted 80@82c for the whole range. Sales, 8,000 bush No 2 Western at 81c delivered.... BARLEY AND MALT—Entirely neglected.... CORN—Had another slow day in the option line, yet the market ruled quite strong and closed ⅛@⅜c higher. Offerings were light, and there was some little covering of local "shorts," stimulated by wet weather west, and the decrease in the visible supply. There were no deliveries on contract, and stocks in store showed a falling off, both of which contributed to the upward tendency. Spot lots responded with a rise of about ½c with restricted offerings, while demand was fair. Shippers took 94,000 bush. Clearances, 69,941 bush. Sales, 410,000 bush future, 147,000 bush spot, including ungraded mixed and white at 47½@53½c; No 3 mixed, 48½c elevator, 46½c afloat; steamer mixed, 47½@48c elevator, 48½@49c afloat; No 2 mixed, 50⅛c elevator, 51½c afloat; No 2 May, 47⅞@48⅛c, closing at 47⅞c; do June, 48⅜@48⅝c, closing at 45⅞c; do July, 45⅞@46⅛c, closing at 46c; do August, 46⅛@46⅝c, closing at 46⅛c.... OATS—Were depressed and lower, on the increase in the visible supply, together with the deliveries on contract, which aggregated 25,000 bush. Local "longs" were liberal sellers, and the speculation in general was more active. Fine figures showed a decline of ¼@⅜c. Spot lots also suffered a slight loss, with a moderate site to the demand. Clearances, 250 bush. Sales, 795,000 bush future, 124,000 bush spot, including No 3 mixed, at 33c elevator; No 3 white, 35½c elevator; No 2 mixed, 33⅝@34c elevator, 34⅝@35c afloat; No 2 white, 36½c elevator, ungraded mixed 34@35½c; white, at 34@40c.
