DR. MARCHISI'S

UTERINE CATHOLICON.

THE undersigned, having become agents for this invaluable Medicine, would respectfully invite the attention of the afflicted to the gratifying success that has attended its use wherever introduced, and its happy adaption to the cure of the distressing diseases for which it is offered.

This Catholicon is in truth one of the greatest Medical discoveries of the age, and is destined to become identified with the health and happiness of

FEMALES.

This declaration is based on the fact that it will cure more than nine-tenths of a class of very prevalent diseases, known as

FEMALE COMPLAINTS,

and which have heretofore resisted the skill and exertions of the most accomplished Physicians of all countries, to a degree beyond that of almost every other malady to which the human family is heir. It has already received the approbation and liberal patronage of the Medical Faculty in the United States, willing to abide the truth, and having due regard for the welfare of their patients, and is in every way worthy the confidence of the afflicted as a successful, safe, and cheap remedy. Of this additional proof will be found in the pamphlet to which the Ladies and practitioners is respectfully invited.

This medicine has never been introduced by empty puffs and misrepresentations, nor is it intended by its present popularity shall be sustained by any medium but its merit and the public. The Catholicon is not a "cure all" but is intended expressly for those complaints incidental to the respectable female whether married or single—Prolapsus Uteri, or Falling of the Womb; Fluor Albus, or Whites; Chronic Inflamation and Ulceration of the Womb; Incidental Hæmorrhage, or Flooding; Painful, Suppressed and Irregular Menstruation, &c., with all their accompanying evils, (Cancer excepted,) no matter how severe, or of how long standing.

DR. HOOFLAND'S

Celebrated German Bitters, prepared by

DR. C. M. JACKSON,

At the German Medicine Store,

120 Arch street Philadelphia.

Their power over the above diseases is not excelled by any other preparation in the United States, as the cures attest, in many cases after all else had failed.

These bitters are worthy the attention of invalids. Possessing a great variety in the rectification of diseases of the Liver and lesser glands, exercising the most restorative powers in weakness and affections of the digestive organs, they are withal, safe certain and pleasant.

Read and be convinced. *from the "Boston Bee."*

The editor said, Dec. 22nd:

Dr. Hoofland's Celebrated German Bitters for the cure of Liver Complaint Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor—a fact worthy of great consideration. They are pleasant in taste and smell and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use.

"Scott's Weekly" one of the best Literary papers published said, Aug. 25—

Dr. Hoofland's German Bitters, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitutions will find these bitters advantageous to their health, as we know from experience the salutary effect they have upon weak systems."

MORE EVIDENCE.

The "Philadelphia Saturday Gazette," the best family newspaper published in the United States, The editor says of

DR. HOOFLAND'S GERMAN BITTERS.

"It is seldom that we recommend what are termed Patent Medicines, to the confidence and patronage of our readers; and therefore when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly understood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotten after they have done their guilty race of mischief, but of a medicine long established, universally prized, and which has met the hearty approval of the family for [illegible]

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest testimony in its favor is, that there is more of it used in the practice of the regular Physicians of Philadelphia, than all other nostrums combined, a fact that can easily be established, and fully proving that a scientific preparation will meet with their quiet approval when presented even in this form.

That this medicine will cure Liver complaint and Dyspepsia, no one can doubt after using it as directed. It acts specifically upon the stomach and liver; it is preferable to calomel in all bilious diseases—the effects are immediate. They can be administered to female or infant with safety and reliable benefit at any time.

BEWARE OF COUNTERFEITS.

The medicine has attained that high character which is necessary for all medicines to attain to induce counterfeiters to put forth spurious articles at the risk of the lives of those who are unoccasionally deceived.

Look well to the marks of the genuine.

They have written signature of C. M. JACKSON upon the wrapper, and his name blown in the bottle, without which they are spurious.

PROSPECTUS OF

THE COTTON PLANT,

AND SOUTHERN ADVERTISER.

Published weekly, to advocate Direct Trade, Manufactures, Agriculture, and the development of Southern resources.

BY C. G. BAYLOR, WASHINGTON D. C.

THE importance of such a Journal as the above needs no exposition. The material and substantial interests of the South have been too long neglected. The "*Cotton Plant*" is established to promote these interests, keeping entirely aloof from party or party politics. A complete foreign and domestic correspondence has been engaged. The best talent of the country will contribute to our columns, which will present a medium of general communication, correspondence, and information for the friends of the measures we advocate. The proper steps have been taken in Europe and America to lay the foundation of a direct foreign trade at the South, and to introduce our coarse manufactures into the continental European market. One object of the 'Cotton Plant' will be, as the organ of direct trade, to stimulate the South to carry out this important measure.

We call upon the Southern merchants generally to send us their business cards, that we may lay them before the country, *to* enable the friends of Southern commerce, manufactures, &c., to discriminate properly in their desire to promote Southern enterprize.

The importance of Washington City as a point of location for such a Journal, especially in regard to opening foreign correspondence and promoting our Indian relations, is apparent. The opportunity of seeing here, also, members of Congress from every district of the country, presents means of general co-operation not to be found elsewhere.

To the Cotton, Sugar, Rice and Tobacco Planters, we look confidently for support; and to the Friends of "Direct Trade" throughout the South we say, "show your faith by your works:"

The regular issue of the "Cotton Plant" will commence in June next. Advertisements are particularly requested to be forwarded early. Business letters addressed to C. G. Baylor, Washington City, D. C.

Correspondence from all interested in the cause we advocate is solicited, particularly as to the crop, as we wish to give correct information on a subject which is of so much importance to the Planter, and in representing which he has been so often injured.

Postmasters are requested to act as agents for us, and to all who approve our cause we look for good feeling, kindness and support. Terms $2 a year in advance.

Recommended by the Southern members of Congress.

BOARD OF INSTRUCTION.

THE REV. CUNGEY COLTON, D. D., Rector, and Professor of Languages, Rhetoric and Oratory.
WILLIAM CLARK, A. B., Assistant Rector, and Instructor in Mathematics and the Classics.
J. SORRELS, Instructor in English.

(Aided by as many Assistants as the number of Students may require.)

THE Second Session of the Academical year of this Institution will commence on Tuesday, 1st of Feb. The arrangements made to increase the number and efficiency of the Board of Instruction, and to raise the Institution to the very highest grade as a School of sound and thorough instruction, and energetic and firm parental government, both in the department of Boarding and Day Pupils, promise for the ensuing Session a decided advance, in several important particulars, upon the former arrangements.

With earnest and entire devotion to the interests of the Hall and the improvement of the students, in all that constitutes sound education and pure gentlemanly manners and tone of character in a high Christian School, it is hoped that the ensuing year will give both to the Officers of government and instruction, and to the parents and guardians, the ample rewards in the improvement of the pupils, and, in the best sense, the usefulness of the institution.

The Course of Studies embraces the Text-books of the Freshman and Sophomore years of the University of Oxford and of the other Southern Colleges, in addition to an exact and thorough preparation for the Freshman class in English, Latin, Greek, Mathematics and Elocution. Adequate provision is also made for those students who are preparing for business. The Reviews and Examinations of the classes, are Weekly and Monthly, during the year.

The Assistant Rector, Mr. Clark, who brings with him the highest qualifications of scholarship and experience as a preceptor, and also a educator and a firm and efficient disciplinarian, will administer the Study Hall, in connection with the instruction of his Classes in Mathematics and the Classics, leaving to the Rector, more leisure for general supervision, and the instruction of the higher classes in the Classics, History and Oratory. Especial attention will be given during the ensuing Session, to Elocution and Oratory, and without additional charge to the student.

EXPENSES:

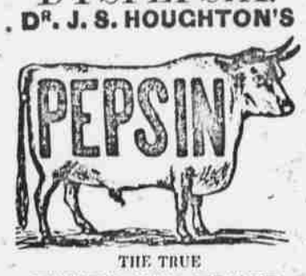
Another Scientific Wonder!

GREAT CURE FOR

DYSPEPSIA!

DR. J. S. HOUGHTON'S



THE TRUE

DIGESTIVE FLUID,

OR, GASTRIC JUICE.

PREPARED from *Rennet*, or the fourth *stomach of the Ox*, after directions of BARON LIEBIG, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

"I DIGEST." Such is the true meaning of the word PEPSIN. It is the chief element, or Great Digesting Principle of the Gastric Juice—the solvent of the food, the purifying, preserving, and stimulating agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming a true digestive fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. This is nature's own remedy for an unhealthy stomach. No art of man can equal its curative powers. It contains no alcohol, bitters, acids, or nauseous drugs. It is extremely agreeable to the taste, and may be taken by the most feeble patients who cannot eat a water cracker without acute distress. Beware of Drugged Imitations. *Pepsin is not a drug.*

Half a teaspoonfull of Pepsin infused in water will digest or dissolve *Five Pounds* of *Roast Beef* in about *two* hours, out of the stomach.

SCIENTIFIC EVIDENCE.

The scientific evidence upon which this remedy is based is in the highest degree curious and remarkable. Call on the Agent, and get a descriptive Circular, gratis, giving a large amount of scientific evidence, from Liebig's Animal Chemistry; Dr Combe's Physiology of Digestion; Dr. Pereira on Food and Diet; Dr. John W. Draper, of New York University; Prof. Dunglison's Physiology; Prof. Silliman, of Yale College; Dr. Carpenter's Physiology; &c., together with reports of cures from all parts of the United States.

PEPSIN IN FLUID AND POWDER.

Dr. Houghton's Pepsin is prepared in Powder and in Fluid—and in prescription vials for the use of Physicians. The powder will be sent by Mail, free of postage, for one dollar, sent to Dr. Houghton, Philadelphia.

☞ Observe this!—Every bottle of the genuine Pepsin bears the written signature of J. S. Houghton, M. D., sole proprietor, Phila. Copy right and trade-mark secured. ☞ Sold by

Fant & Scott, Agents.

And sold also, by all Druggists and Dealers in Medicines. $1 per bottle. Holly Springs, Miss.
