Options—The "bulls" only predominated in this department, and from the start to the finish there was a steady rise, final figures showing net gains of 12@14 points. It was a weather market in its entirety, there being an absence of Liverpool accounts, owing to the holidays. From the South come further reports of rain and crop damage though floods in some cases, on which local "shorts" covered quite freely, and there was some outside buying. Closing figures were about the best of the day. Sales, 91,000 bales.

GRAIN—WHEAT—Options were again buoyant, and the speculation was fairly active considering the brief session. About 2,000,000 bush changed hands. St. Louis parties were again buyers in a liberal way, and local "shorts" covered quite freely. During the early session there was a rise of 3/8@1c, and the close (at 12 m.) showed net gains of 3/8@1c. The West reported further covering by prominent "shorts," and this, in conjunction with continued wet weather in the Northwest contributed largely to buoyancy. Besides this, the seaboard clearances were large, upward of 700,000 bush wheat and flour together, being sent out. The bulge in corn also aided the "bull" element, as did more encouraging advices from France. Paris reporting a rise of 50@70 centimes on flour and 10 centimes gain on wheat. There were no English cables, owing to the Whitsuntide holidays. "Bradstreet's" estimates the exports of wheat and flour together from both coasts during the past week at 2,691,355 bush, against 2,289,722 bush the week previous. Arrivals at interior points were 348,579 bush spring and 29,875 bush winter, against 201,727 and 42,808 bush respectively a year ago. Seaboard receipts, 507,207 bush; clearances, 666,210 bush wheat and 60,000 pkgs flour. On the curb July sold down to 92 13-16c, closing at 93c asked; August closed at 93 5-16c, and December, 95 3/4c. The spot market ruled 1/2@3/4c higher, but trading was less active. Shippers took 80,000 bush, including No. 2 Manitoba regular at 92 1/2@93c; No. 1 Northern spring at 8c under July, and No. 2 soft Toledo, c. f. and f., $1 01 to New-York, and ungraded spring and winter red within the quoted range. Millers bought 8,000 bush. Sales, 1,940,000 bush future, 97,000 bush spot, including ungraded spring and winter red, at 92 1/2@91 00 1/2; No. 1 Northern spring, at 92 3/4c afloat; No. 2 red afloat quoted at 90 3/4@91 00 3/4; No. 1 hard, nominal, 97 3/4@98c; No. 2 June, 91 3/4@91 7/8c, closing at 91 7/8c; do July, 92 3/4@93 1/8c, closing at 93 1/8c; do August, 93@93 1/8c, closing at 93 1/8c; do September, 92 3/4@93 1/8c, closing at 92 7/8c; do December, 95 1/2@95 7/8c, closing at 95 7/8c; do May, 99 3/4@99 7/8c, closing at 99 7/8c.

RYE—Firmly held, but trading quiet. About 2,500 bush prime Western sold to fill at 88c. Quoted, 83@86c for choice, Pennsylvania sold to fill at 88c. Quoted, 83@86c for choice, and 87@88c in boatloads.....BARLEY AND MALT—Neglected.....CORN—Had an active day in the option line, and the market ruled somewhat excited on heavy covering of "shorts," stimulated by unfavorable crop news and wet weather West. An advance of 2@2 3/8c was scored early in the session, after which there was a reaction of 1/2@1c, closing rather nervous. A dispatch from the West stated that not more than three-eighths to half of the crop had been planted from Chicago to St. Louis, and a generally backward season was announced, both of which had a strengthening effect. Chicago arrivals were moderate and trading poor. There were no cable advices received on account of the Whitsuntide Holidays. Spot lots rose 2@3c, but trading was very slow, owing to the advance. There was nothing done for export. Clearances, 12,465 bush. "Bradstreet's" estimates the exports from both coasts at 750,314 bush, against 1,080,585 bush the previous week. Options gained 5@6c and "shorts" covered in a small way, owing to the rise in corn and wheat. On the curb June and July closed in corn and wheat. On the curb June and July closed at 38 3/4c, August 38 1/4c, and September 37 3/4c. Spot lots advanced 1/2@1c, graded white being specially strong
