GRAIN AND PRODUCE MARKETS.

FEATURES OF NEW-YORK DEALINGS.

The Government crop report of the condition of grain on June 1 took everything on Saturday—even the hearts of the most arrant bulls. It was a day of demoralization from start to finish. The crop report was amazingly favorable on foot, and astonished even those observers who have be hoping for the most improvement. The closer the report is studied the more bearish from a speculative standpoint seem to be its features. The improvement report from May 1 is sufficiently marked to permit a decision to be made on account of damage since June 1 and yet assure a most generous yield of wheat this year. It is estimated that the Government figures show a yield of winter wheat of 340,000,000 bushels and of spring wheat of 170,000,000 bushels, a total of 510,000,000 bushels, which figures have never been exceeded except by remarkable yield. The estimates here given are last year's, conservative, other estimates carrying the total figure most close up to 570,000,000 bushels. The report on rates of seeds the splendid yield of 605,000,000 bushels.

The opening in the wheat market was wildly excited and bullish prices prevailed simultaneously in different parts of the pit. Local speculators threw over their holdings freely, but the foreign element sold heavily and the bears had to fall to assist the decline. Net losses were scored of 1 cent on June options, and 3@3½ cents on later deliveries. July options opened at 88⅝@89 cents, rallied to 89 and then broke to 88¼ cents. On the curb there was further depression and heavy selling, July fell ¼ cent to 88, and December 1⅛ cent to 91 cents. Besides the Government news, there was better weather West, a better interior movement and heavy and lower cables. Some talk was heard of Russia's not removing the ukase because of a bad crop, and there were reports of drouth in France. This foreign news was without effect. Spot wheat was unsettled and lower, with an active export business on the decline. There were actual sales of 200,000 bushels, a very liberal amount "worked" on options against cable acceptances and a good business at the out ports. Millers took 32,000 bushels.

There was decided depression in corn, which by no means was wholly due to sympathy with the crash in wheat. The Government crop report of course did not cover corn, but the remarkable rebuke given in the case of wheat to the speculators who have been recklessly bandying stories of damage and disaster brought home to operators in corn the suggestion that this cereal may be far more advanced and in better condition than the bull prophets of evil would have us believe. The declines were caused primarily by the continuance at the West of hot, forcing weather, full receipts at Chicago, which indicate improved crop prospects and weaker cables. The speculation was attended by considerable liquidation, and the transactions amounted to about 1,300,000 bushels. The official close showed losses of 1½@2½ cents. On the curb the weakness increased and there were further declines of 1 cent in July options at 51½ cents and August at 51 cents, and ¼ cent in September at 51 cents. The cash market was 1@2 cents lower, but shippers took only 72,000 bushels at the decline.

Oats followed the lead of the other cereals, the options falling 1¾ cents. On the curb there were further losses of ⅜@⅝ cent, with July at 34½, August 34¼, and September at 33¾ cents. Cash oats were dull and 1@2 cents lower.

There was a decline of 3@5 points in lard. The sales on the spot amounted to 500 tierces.

The final official quotations were as follows:

Wheat—June, 87⅞; July, 88⅞; August, 89; September, 89⅞; October, 89⅞; December, 92⅛; May, 1893, 96 cents.

Corn—June, 55; July, 52½; August, 52; September, 51⅞ cents.

Oats—June, 35; July, 35; August, 34⅛; September, 34½ cents.

Lard—July, $6.65; August, $6.73; September, $6.80.

The receipts of grain and flour reported on Saturday at New-York, Philadelphia, Baltimore and Boston were as follows: Wheat, 242,697 bushels; corn, 122,010 bushels; oats, 56,529 bushels; total grain, 421,236 bushels; flour, 40,540 packages. At Chicago, Milwaukee and St. Louis the arrivals were: Wheat, 115,750 bushels; corn, 373,036 bushels; oats, 365,187 bushels; total grain, 854,875 bushels; flour, 19,944 barrels.

THE PETROLEUM MARKET.

NEWS FROM THE FIELD AND RANGE OF PRICES.

The calamity which overwhelmed the petroleum country a week ago stopped all speculation at the West and made the Eastern markets practically nominal. Much damage has doubtless been done to oil properties by the floods and fires, but as bearing upon the permanent position of petroleum, the Oil City and Titusville disasters probably will count for little. The refined situation is without important change, the exports of crude, refined, etc., from January 1 to date from the United States being estimated at 276,968,000 gallons, against 230,453,000 gallons for the same period in 1891, an increase of 46,485,000 gallons. The stocks in the principal continental European ports on May 26 amounted to 883,000 barrels, an increase of 34,000 barrels over the same date a year ago. Kirkham reports the exports of Russian oil in April as follows: To Eastern Asia, 815,000 cases; to Antwerp, 42,430 barrels; to London, 17,855 barrels; to other English ports, 16,950 barrels; to Italian ports, 12,000 barrels. This is a decrease from March of 174,000 cases and 14,451 barrels.

Following are the reports of net stocks of the three pipe lines named for the last two months:

The disasters in the oil country have somewhat curtailed the runs from the wells, while the deliveries have maintained a fair average. Hence the early pipe line returns this month show a slight excess of deliveries over runs. There is no reason, however, to believe that the overproduction of Pennsylvania crude oil has ceased. The daily average of runs in June so far has been 67,150 bbls, against full averages of 81,133 barrels in June, 1891; 79,000 barrels in June, 1890, and 68,284 barrels in June, 1889. The deliveries have averaged 79,767 barrels a day, against full averages of 70,945 barrels in June, 1891, 83,318 barrels in 1890, and 75,877 in June, 1889. The Pennsylvania pipe line returns from June 1 to 9 (charters to the 10th, inclusive, are as follows:

There were no incidents of interest in the crude oil markets last week. Business was formally suspended on one day on account of the oil country calamity, and on the other days the trading was light and without significance. Prices were substantially unchanged, but with a slightly declining tendency. The week closed with the full 1⅛ change disposed to sell certificates for the first time in two weeks.

The range of prices and the total dealings in National Transit certificates at the Consolidated Stock and Petroleum Exchange for the last two weeks were as follows:

Week ended—	Stock Exchange. June 4.	June 11.	Consolidated. June 4.	June 11.
Opening	----	53½	55¼	54⅞
Highest	----	53½	57	55
Lowest	----	53¼	55	54⅝
Final	----	53½	54⅝	54⅞
Sales, barrels	----	10,000	396,000	27,000

Refined petroleum was unchanged at 6 cents per gallon in barrels and 3.50 cents in bulk at New-York, and 5.95 cents and 3.45 cents in barrels and in bulk respectively at Philadelphia and Baltimore. Cases were 0.80 cents per gallon. Crude was weaker at 5 cents in barrels and 2.80 cents in bulk. Washington crude being quoted at 4.95 cents and 2.45 cents. Naphtha was unchanged at 5 cents per gallon.

Foreign quotations were the same at Antwerp at 15¾ francs per 100 kilos, and at London at 4⅞@5⅛ per Imperial gallon, but 5 points easier at Bremen at 5.70 marks per 50 kilos.
