Option trading was fairly active and the drift of the market was very irregular. Liverpool came weaker at the outset, while prices broke 1@2 points. Unfavorable news from Texas, however, together with estimates of a bullish crop report to-morrow, brought about a better feeling, final figures showing net gains of 2@5 points over yesterday. Sales, 92,000 bales.

Included in the sales were 5,000 pkgs spring wheat patents, $4 50@$4 75; 1,000 bbls straight spring, $3 40@$3 60; 2,500 bbls bakers extras, $3 10@$3 15. GRAIN—WHEAT—Bearish influences controlled the option dealings to-day, and the result was a heavy market attended with liberal liquidations of "longs" and more or less foreign selling. The close showed a decline of ⅞c, though at one period there was a break of 1¼@1⅝c. September started at 81½c and then dropped to 81 1-16c, closing at 81⅛c. The early public cables were stronger, but they had but little effect. Liverpool was ½d higher in some instances, but this was offset by the amount on passage, showing an increase of 2,384,000 bush in the amount on passage. London also made a gain of ¾d per qtr. The English visible showed an increase of 345,000 bush, and tale, coupled with the foreign selling, added to bearish sentiment. Domestic crop news was more favorable, with rains reported in the Northwest and Kansas. The interior movement was large, and this, too, helped the downward tendency, besides which Liverpool futures closed ½@¾d lower. Paris closed firmer, with flour 10@20 centimes better and wheat unchanged. Exporters were liberal buyers of spot lots, taking 210,000 bush (mostly hard), but even this failed to arrest the downward tendency. Local realizing was quite general, which served to augment the depression. Arrivals at interior points were 552,082 bush spring and 677,641 bush winter, against 333,100 and 559,000 bush respectively, a year ago. Seaboard receipts, 609,447 bush; clearances, 527,781 bush wheat and 33,200 pkgs flour. Spot lots also ruled weaker, and trading was more active. Shippers took 230,000 bush, including No. 2 red afloat, on export terms; No. 1 Northern spring, at 2⅜c over September; No. 2 red, at 84⅝c delivered; do, at ⅜c over September; No. 1 Northern, at 86¼c; No. 2 red, ¼c over September; No. 1 Northern, at 3½c over September; No. 2 Northern, at 3c under September. Millers took 24,000 bush. RYE—Dull and somewhat nominal. Quoted 70@73c elevator, in carlots, and 73@75c for boatloads. BARLEY AND MALT—Neglected and nominal. CORN—Was weak throughout the entire session, and selling for "long" account was liberal, based on improved crop accounts. The Missouri State Board estimated the condition at 87, against 78 last month, favorable. The amount on passage increased 1,832,000 and advices from Iowa, Illinois and Nebraska were more bush, which was another "bear" factor. Cables were somewhat stronger, but they had no material effect. The dullness in spot lots and absence of export interest also contributed to the decline. The spot market ruled weaker and very dull. There was nothing done for export, and the local trade bought sparingly. Clearances, 18,568 bush. Sales, 1,300,000 bush future, 28,000 bush spot, including ungraded mixed and white at 55@63c; No 2 mixed, 62c elevator, 63c afloat; No 2 August, 61⅛@62⅛c, closing at 61⅝c; do September, 59⅛@60⅛c, closing at 59⅝c; do October, 58⅞@60⅛c, closing at 58⅞c; do December, 58¼@58⅝c, closing at 58¼c. OATS—Weakened with corn and on improved crop accounts, leading to more or less realizing. Options closed 1⅛c lower, and speculation reached a moderate aggregate. Spot lots were firm on white and depressed and lower on mixed, with a moderate business reported. Sales, 295,000 bush future, 80,000 bush spot, including No 3 mixed at 33c; No 3 white, 34c; No 2 mixed, 39¼@39½c elevator; No 2 white 40c elevator; ungraded mixed Western, 33@34c; white do, 41@47c; No 2 August, closing at 38⅛c; do October, 39@39⅛c, closing at 38⅞c; do May, 42¼@42½c, closing at 42¼c. HIDES—There is a moderate business passing for the River Plate grades, and also a moderate business doing in common stock. Prices are without quotable change.

LEATHER—There is a steady movement from first hands to-day, buyers appearing content to pay current prices for their regular supplies. There is a fair export demand to be noted.

METALS—The market has been very quiet, and no important changes have occurred in prices, and the Thomas Iron Company's prices remain at $15 for No. 1 X foundry, and $14 for No. 2 X, at tidewater. GRAIN AND PRODUCE MARKETS.

FEATURES OF NEW-YORK DEALINGS.

The grain market yesterday was bearish throughout, wheat falling 7-8@1 1-4c.; corn, 3-4@1 3-4c., and oats, 1 1-4c. This was caused by more favorable crop news, with rain in the Northwest as well as in Kansas. Foreign dealers sold liberally, local dealers who bought on Monday realizing. Late cables were 1-2@3-4c. down. An increase of 2,384,000 bushels in amount on passage and an increase of 348,000 bushels in English visible all contributed to the downward tendency. Cables were generally firm, but without effect. Liberal clearances and fair export inquiry helped the bulls for a while but under the pressure to sell, the market closed barely steady. The receipts at the interior points were liberal, but this was partly offset by bigger clearances. A correction in the Indian shipments increasing the movement about 400,000 bushels was another bear factor. September opened at 84 7-8c., sold down to 84 1-16c. and closed at 84 1-4c. The spot market was weaker and twenty-six loads were taken for export. Five loads were taken for milling.

Corn was depressed and lower, with a decline of 3-4@1 3-4 cents on options. More favorable crop reports and an increase of 1,632,000 bushels on passage contributed to the decline. The cash market also was weaker and dull, nothing being taken for export.

Oats weakened with other cereals, and on better crop news closed 1-4 cent lower. The spot market was unsettled and only moderately active.

Lard was depressed and lower, and there was no export sales. Closing quotations were:

Wheat—August, 83 1-2 cents; September, 84 1-4 cents; October, 85 5-8 cents; November, 87 1-8 cents; December, 88 3-8 cents.

Corn—August, 61 3-8 cents; September, 59 3-8 cents; October, 58 3-4 cents; December, 58 1-4 cents.

Oats—August, 38 3-4 cents; September, 38 3-4 cents; October, 39 cents.

Lard—September, $8 25; October, $8 27.

The receipts of flour and grain yesterday at New-York, Baltimore, Philadelphia and Boston were: Wheat, 606,447 bushels; corn, 148,802 bushels; oats, 46,600 bushels; total grain, 801,745 bushels; flour, 49,452 packages. At Chicago, Milwaukee and St. Louis: Wheat, 664,738 bushels; corn, 211,718 bushels; oats, 309,730 bushels; total grain, 1,186,186 bushels; flour, 36,153 packages.

THE TRADE IN CHICAGO.

Chicago, Aug. 9 (Special).—There happened to-day the thing in corn which invariably happens when prices have an extraordinary advance on crouth. There were some rains in the West; there was almost instantly a panic in corn. September, which sold yesterday at 55½, sold as low as 52⅞, and closed at 53¾. The Signal Service map showed a few little rains at 7 a. m. in Nebraska; no rains at all up to that hour in Kansas, Missouri, Illinois or Iowa. But before the market opened here, Kansas City reported rain there, and during the day there came so many reports of rain through Nebraska that it looked as if that State was getting a good wetting down. Kansas, however, reported very little rain, and it is not certain at night whether the drouth through the corn belt had been broken. The approach of the Government crop report caused some selling. Schwartz-Dupee was the best buyer. There was a lot of local realizing. In wheat every holder seemed inclined to run away from the Government crop report. There was a stampede of holders from the opening to
