In the contract line an active business was reported and the drift favored the "bull" element. The early dealings showed a rise of 7@8 points, attended with considerable covering, and some little outside buying, and the close was fully 16@17 points up from yesterday. Cables came strong, with Liverpool especially "bullish," and this, coupled with unfavorable crop news (particularly from Alabama), led to the buoyancy. Sales, 182,000 bales.

GRAIN—WHEAT—Realizing was the general rule in this line to-day and the result was a lower range of prices, with a decline of ⅝@⅞c throughout the entire list. The dealings, however, were by no means brisk, being confined mainly to local operations, less than 1,700,000 bush changing hands. December showed a break of ⅛c on the opening sales, and subsequently recovered the loss; then came a free selling movement, and 80½c was touched, at which it closed. Thus cables came firm early, with an advance of ½@1d at Liverpool, but they had but little influence. The big increase, (1,242,080 bush) in the amount on passage, contributed largely to the early depression, but besides this, reports of rain in the West had more or less influence. The most important bear factor, however, was the continued large interior movement. Absence of material export demand, and light clearances served to augment the weakness, and furthermore, the English visible supply was quoted as showing an increase of 835,000 bush. Arrivals at interior points were 1,210,934 bush spring, and 352,725 bush winter, against 1,439,055 and 254,000 bush respectively a year ago. Seaboard receipts, 417,926 bush, clearances, 89,054 bush wheat, and 21,500 pkgs flour. For prompt delivery, there was a dull and lower market sympathizing with options. About 80,000 bush were taken for export, including No. 2 hard winter at 2¾@3c under December; No. 2 Minneapolis at 9½c under December; No. 2 Northern spring at 4c under December, and ungraded winter red part at 76½c. Millers were quiet. Sales, 169,500 bush future, 112,000 bush spot, including No. 1 Northern spring at 83¼c; ungraded spring and winter red at 70@78c; No. 2 red quoted 79½c afloat, 79½@80c f. o. b.; No. 2 Milwaukee, 77¼c, nominal; No. 2 October, 78⅛@78¼c, closing at 78½c; do November, 79c, closing at 79c; do December, 80½@80 13-16c, closing at 80½c; do January, closing at 82¼c; do March, 85¼@85½c, closing at 85¼c; do May, 87¾@87⅞c, closing at 87½c. Two-rowed State quoted 60@65c; six-rowed do, 78@80c; Western, 65@75c; No. 2 Toronto, 85c to arrive. BARLEY MALT—Slow.

CORN—Had a comparatively slow day, and the drift of prices was somewhat erratic. The speculation aggregated only 520,000 bush, being mainly of a local nature. An advance of ⅛@¼c occurred early, with more or less covering on better foreign accounts and reports of rain in the West, coupled with a decrease of 80,000 bush in the amount on passage. Free buying at Chicago by a prominent operator added to the firmness. Later on, however, there was a reaction on realizing, though the close was at about the best figure of the day. Spot lots ruled firm with more doing, in good part for export. Shippers took 72,000 bush No. 2 mixed at 51c, f. o. b. Clearances, 60,232 bush. Sales, 495,000 bush future, 130,000 bush spot, including ungraded mixed and white at 49½@51½c; No. 2 mixed, 49¾@49⅞c elevator, 50¼@50⅝c afloat; No. 2 October, closing at 49⅞c; do November, 50¼@50½c, closing at 50½c; do December, 51¼@51⅝c, closing at 51½c; do January, closing at 51⅝c; do May, 52¼@52½c, closing at 52½c. OATS—Were variable and irregular, with a fairly active trade reported, principally in the switching form. Options declined ¼@⅜c early, after which there was a rise of ½@¾c, closing steady, unchanged to ⅛c loss from yesterday. Spot lots ruled stronger, with reserved offerings and fair demand. Clearances, 104 bush. Sales, 505,000 bush future, 128,000 bush spot, including No 3 mixed at 32¼c elevator; No 3 white, 35¼@35¾c; No 2 mixed, 34¼@34½c; No 2 white, 38@38½c; No 2 Chicago, 35¼@35¾c; ungraded mixed on track, 34@36c; white do, 37@40c; No 2 October, 34¾c, closing at 34¾c; do November, 35¼c, closing at 35¼c; do December, 36½@36¾c, closing at 36¾c; do May, 39¼@39½c, closing at 39½c; do white October, 38½c, closing at 38½c; do November, 38c, closing at 38c; do December, closing at 38c.
