PROSPECTUS.

In tendering this, our prospectus, we wish to avoid flowery, deceptive language, and to set forth in detail a few simple, plain facts, briefly stating what we have done, where we have operated and what we propose to do.

The Prairie Mamou Oil & Mineral Co. L't'd, domiciled at Jennings, Calcasieu parish, La. is a duly organized and chartered company, capitalized at $200,000. Captain D. E. Sweet, president of the Jennings Banking & Trust Co., a man of unquestionable integrity and pronounced business success, is president of this company.

From the organization of this Company it has been the purpose to select small plots of really oil lands throughout the oil belt of Calcasieu parish, ignoring in a measure large bodies of indifferent lands without promise, upon which leases could be procured at nominal figures. Following up this idea they have purchased,

First.—Twenty acres near the Hackberry well that is full of promise, the well being down near 1,000 feet, with every indication of success. The stock of this well is now at par value.

A peculiar feature characterizing this well, which lies thirteen miles southeast of Sulphur Mines is, that before the day when sulphur was extracted by heat a spring at Hackberry flowed very cold water, which today is almost as hot as hot coffee. We also purchased five acres near the Vinton wells which have struck several stratas of oil, published to the world.

Second.—Finding unparalleled gas and oil indications on Bayou Blue, about fifteen miles north of Jennings, we purchased Bayou Blue Springs, covering a hill of about five arcres on Bayou Blue. We also have forty acres three miles north of the Jennings Oil Well, where gas and oil abound and upon which it was at first intended to sink a well. But the climax was struck when after much labor and time had been spent, ANSSE A. LA BUITE, the SPINDLE TOP of Mamou Prairie was secured, and this is a real Spindle Top in every sense. This six acres lies within a mile of Bayou Cane, tributary of Mermentau river and just north of Mermentau station where the Southern Pacific railway crosses the Mermentau river, giving easy and cheap access to an outlet to market.

This is where the Prairie Mamou Oil & Mineral Co., L't'd will within the next 30 days begin to sink a well with the promise in advance of a gusher. It is about one-fourth of a mile south east of the noted gushing well of the Jennings Oil Co.

We intend to bore our second well on Bayou Blue. We have leases upon several hundred acres of lands on which we would bore in event others see fit to develop any adjacent thereto and meet success.

The Company will offer 50,000 shares for sale at 50 cents per share for a short time. Par value of shares one dollar each. We would much prefer to sell these shares to home people.

Andrew Jackson's Pedigree.

The Memphis Commercial-Appeal has been delving into the life of Andrew Jackson with startling results. A correspondent writes to the paper that its legend "giving the pedigree of Jackson, running back many centuries to the Scottish kings, making him a descendant of Sir Robert Bruce, is the boldest venture into the unknown past to be found in historic mythology."—Detroit Free Press.

A Lively Princess.

The liveliest and, the English people think, the prettiest princess in Europe is Princess Maud, youngest daughter of the king, and now Princess Charles of Denmark. She cannot only bind books and nurse a sick patient scientifically, but also sail a half-rater, ride a bicycle, and let go the handlebar without falling off, spin as well as sew, play chess and speak five languages, including Russian.

Telephoning by Submarine Cables.

M. Marche, a French engineer, claims to have solved the problem of telephoning by submarine cables for great distances. His experiments are reported as having been very extensive and exhaustive and as having resulted recently in his being able to transmit a telephone message, with perfect distinctness, from Calais through a cable 400 miles long.

Pseudo-Classical Terminology.

Herbert H. Asquith, in a recent address, condemned "the uncouth pseudo-classical terminology of men of science, the tortures and nebulous phrases of modern philosophers, the pretentious conventionalities of the art critic and the slipshod slapdash of the newer school of journalists."

A Talented Designer.

Walter Crane, the decorative artist, is one of the most talented men in England. He is a teacher and writer in art, a book illustrator, a painter, a designer of furniture, glass, mosaic, wall paper and fabric. He is besides a poet, lecturer and a fearless socialist.—Chicago Chronicle.

Claims on Millionaire's Estate.

Mark Hirschberg of Morenei, Mich., has completed the work of establishing his claim as one of the four heirs to an estate of $1,500,000 left by his uncle, Aaron Brinneur, in Russia. Hirschberg has sold his tailor shop in Morenei and will leave for Russia.

Shower of Greenish Insects.

In Szentes, Hungary, a most interesting phenomenon occurred recently. At dusk a black cloud suddenly obscured the sky, and a shower of greenish, opalescent insects began to descend, covering the ground to a depth of a foot.

Astrological Meaning of Influence.

The word influence at first had an astrological meaning. It referred to the subtle energy supposed to emanate from the sun, moon and stars, and to exert some mystic power over the human race.
