GRAIN—WHEAT—There was a moderately active business in the option line. The market opened excited and strong and 1¾c higher as a result of strong cables, and strong Wall Street and foreign buying, a decrease of 10c on active Wall Street and foreign buying, a decrease of 10c on bush shown by the weekly statement of the amount of grain on passage and an erroneous report that the English visible supply statement indicated a decrease of 2,500,000 bush for the week. There was a reaction of ¼@1⅛c when it became known that the English visible decrease was only 1,075,000 bush and that a decrease was shown by local stocks.
