BEANS AND PEAS.

Receipts for the week—Beans—3,854 bbls; peas, 12,650 bush. Exports—Beans, 419 pkgs; peas, 5,441 bbls. Imports, 1,125 bags beans. Domestic beans have been influenced to some extent by the free movement in foreign, and prices are fully 10c higher. Sales of marrow above $2 45, are too exceptional as yet to quotable, but some of the favorite varieties a higher quotation, but some of the favorite brands are holding at $2 50. Medium are jobbing at $2 05 generally, and peas are so scarce that $2 10 $2 05 can be obtained. White kidney slow, and there is result be satisfactorily call for turtle soup. Export orders for yearly any call for turtle soup. Export orders for yearly are light, but stocks are well controlled red kidney are light, but stocks are well controlled and held with considerable confidence. California and held with considerable confidence. California lima are doing a little better. Foreign beans have had large sales and are firm at the advance quoted. Green peas have jumped up 20c per bush, and are still going, with very little stock here.

BUTTER.

Receipts for the week, 30,073 pkgs. Exports for week, 900 pkgs. The slight weakness which was developed at the time of last report was quickly followed by an almost entire suspension of business and a semi-demoralized market. For some time job buyers had been complaining of a dull trade owing to the extreme prices that receivers were compelled to charge, thereby materially lessening the consumption, and as soon as there were indications that the whole sale trade would go lower they stopped buying, and endeavored to work off stock already on hand. This caused quite an accumulation in receivers' hands, and the anxiety to sell became so strong that prices tumbled rapidly. By Saturday night prices had fallen 2@3c, and since then 2@2 1-2c more has come off, the break to 28c at Elgin yesterday completely upsetting all the calculations of the trade. At the close the market is still much unsettled and to a large extent nominal. Receivers ask 30c for gilt-edge fresh Western creamery and make a few sales at that, but close buyers have already secured some fancy lots at 29 1-2c, and now begin to talk 28c. Decent to choice grades are seeking customers at 25@28c. Held creamery is slightly weaker and dull, and there is a much quieter trade and slightly easier feeling in old State dairy, though the remaining stocks are light, in few hands and not urged for sales. Small lots of new dairy tubs are peddling out at 23@26c as to quality. Best marks of imitation creamery have fallen to 24@26c, and it is difficult to get over 23c, for fine fresh factory, seconds of fresh ladles are easier, but held stock is very steady.

CHEESE.

Receipts for week 10,339 boxes; exports, 34,074 boxes. But few changes have come to the market this week. Exporters have been moderate buyers of under-priced goods, mainly part skims in range of 7@8 1-2c, and these have shown slight hardening tendency; but they have given the fancy parcels no attention, cable quotations of 57@58c, failing to show a profit on 12c purchases here. Home trade has been steady and quite general, and has taken nearly all grades. The position on the whole looks firm, and while holders are meeting the demand promptly at present prices, there is no inclination to push sales. Fancy small size full cream sell quite generally at 12 1-2c, and fancy large at 12c, only 10 to 25 box lots going 1-8@1-4c higher. Part skims of choice quality bring 10@10 1-2c from home trade, and exporters have paid 9 1-2@9 3-4c for some fine lots. Close skims remain dull. Liverpool cable 57@58c.

EGGS.

Receipts for the week, 338 bbls and 10,002 cases. A little firmer feeling followed the heavy drop in prices recorded a week ago, and by Friday prices had recovered to 35c for the best Western, with held fresh reaching 28@31c, and limed selling again up to 30@31c. The recovery was caused by the fact that a larger trade was attracted by the fall to 28c than receivers considered it likely they could supply in view of the light advices of shipments in transit. There was a shading of about 1c on Saturday under some disposition to sell out closely, but so far this week we have had moderate receipts and a good steady market without further change in prices. Old goods are believed to be all forward, and the supply of them on hand here is gradually reducing, the market closing in healthy condition for the moment, but sensitive and liable to be affected by any increase in supplies.

FRUITS AND BERRIES—FRESH.

Receipts of fresh apples have been somewhat larger, but not excessive; demand quiet and hardly equal to using all the arrivals promptly, but so far accumulations have not been very serious, and prices are held steady. Grapes quiet but scarce, and a shade firmer. Cranberries in light, steady demand and firm. Florida oranges are working into a firmer position, and the better grades show a slight improvement.

DRIED FRUITS.

Receipts for the week, 4,228 pkgs; exports for the week, 6,150 pkgs. Since the advance in evaporated apples trade has been much quieter, but stocks seem to be in pretty strong hands, and there is quite a confident holding. Sun-dried apples continue firm, and there is an especially good demand for choice stock—anything below 5 1-2c. Chops and cores and stock—anything below 5 1-2c. Chops and cores and skins are improving a little. Peaches quiet. Cherries sell fairly when choice, but in evident inferior grades are not wanted. Plums very dull.

HOPS.

Receipts for the week, 2,559 bales; exports, 1,425 bales; imports, 418 bales. On the local market the movement has been light all the week, but the reports from the interior were of such a nature that receivers have held stock pretty steady, especially top qualities. Brewers' wants seem to be small at the moment, and exporters are getting less encouragement for new business. Quotations cover the few sales making, but outside figures could not be realized under any pressure to move goods.

POULTRY AND GAME.

Wild fluctuations in live fowl and chickens have marked the course of the market this week, but average prices have been fully 1c lower than last week. Two cars of fine Missouri stock was sold early this morning on the basis of 13 1-2c for fowls, 12c for chickens, 8 1-2c for roosters and 13c for turkeys, but receipts by express were large and closing sales were mainly at the inside figures. Ducks and geese sell very well.

Arrivals of fresh killed poultry have been somewhat in excess of the demand for current use, and a considerable accumulation has occurred, chiefly of chickens and fowls. Prices for all the leading kinds have ruled a little easier and close barely steady on average grades of chickens and fowls, though considerable confidence is expressed in the value of turkeys on the heads of present quotations. Quail, partridges and grouse are now outlawed. Wild ducks are quiet and easier, except very choice heavy birds. Rabbits can still be sold and hold firm in price.

POTATOES AND VEGETABLES.

Domestic potatoes dull and with some accumulation on track the tone of prices is a shade easier. Foreign dull and weaker under advices of heavy shipments in transit; buyers holding off expecting further decline. Sweet potatoes very dull and easier. Onions have shown slight decline but close steady. Cabbages and other staple winter vegetables generally firm. Norfolk kale fast sold at $2 and spinach at $4@$5 per bbl, under scarcity, but with larger lots to arrive to-morrow (Wednesday), prices will certainly decline and values at present are entirely nominal. Southern green beans scarce and wanted.
