WHAT WAS DONE IN STOCKS.

Tuesday, March 28—p. m.

The lethargy of the stock market was not disturbed to-day. Declines of about 1 per cent in Reading, and nearly twice that in New-England were not surprising when both stocks were not exceptionally active. The speculations of the recent management of the Reading Railroad will be exposed in time, even if the books shall be kept from the bondholders and new banking arrangements made. The most active stock, however, and the only one which imparted even a semblance of life to the market, was Distilling and Cattle Feeding. It fell 2 1-2 per cent, and in the last hour, conspicuous by its weakness, closed at its lowest point. The reasons for the movement may be found when the intrinsic worth of the property may be known. The excuses which were put forward were of little importance. The selling may have been for the short account, or it may have been merely a skilful manipulation by inside interests for the sake of acquiring stock. It is idle to assert that fluctuations in the industrial stocks have no influence on the general market. The value of every dividend-paying railway stock is affected to some extent by the uncertainty caused by the speculative movements in the group of which Distilling was the latest leader. There is apparently no certainty about the condition of the company, and the price of the stock may advance or decline just as the directors of the company may decide from one day to another. The weakness of this stock was the feature of the last hour. Another stock may take its place to-morrow, but in no respect may the general conditions of the financial and mercantile situation be changed.

The course of prices proved that there was no formidable short interest in the market. The rallies were without spirit, and generally the closing was heavy at the lowest points. The money market was easy, however, and rates for foreign exchange were not such as to indicate immediate shipments of gold to Europe.

THE DAY IN THE BOND MARKET.

A sale of $7,000 coupon 4s at 113 3-4, a further advance of 1-4 per cent, gave strength to the Government bond market. Bids for both classes of 4s were raised in compliance with the transaction. Final quotations were as follows.

The business in State issues was limited to Tennessee settlement 3s, which were strong at the recent advance.

There was less demand for railway bonds, and consequently prices moved irregularly. Philadelphia and Reading issues seemed to be pressed for sale, and general 4s fell 1 per cent to 73 1-2, first incomes 7-8 to 46 7-8 and seconds 1 3-8 per cent to 33 5-8. Chicago and Northern Pacific firsts were dull and slightly lower at 78 1-4, and Northern Pacific consol 5s declined from 71 to 70 1-2. On small purchases Chicago and Erie incomes rose 1 per cent to 41. San Antonio and Aransas Pass issues were active and about 1 1-2 per cent higher. Elizabeth, Lexington and Big Sandy firsts gained 1 per cent at 99, but this advance was made in the morning hours. Reference is made to our full report of bond sales.

Money on call was in ample supply around 3 1-2 per cent. The highest rate was 4, and after the wants of brokers had been satisfied balances were offered at 2 1-2 per cent.

The Clearing House statement was as follows: Exchanges, $125,299,590; balances, $5,230,656.

The Sub-Treasury was debtor to the Clearing House $364,357. Its net gain on balance was $196,567 made up by gains of $186,081 in currency and $10,486 in coin. The day's operations included: Receipts, $3,156,925; payments, $2,960,358; resulting in a general balance of $97,271,484, consisting of $77,046,202 coin and $20,225,282 currency.

The United States Treasury at Washington received to-day $205,423 National bank notes for redemption.

The customs receipts were $445,646, the internal revenue receipts $189,933, and the miscellaneous receipts $23,657.

To-day's Washington Treasury statement of cash on hand and deposits in banks compares with the figures of the last previous statement as follows:

	March 27.	March 28.	Differences.
Net gold on hand	$107,098,865	$107,462,682	Inc. $363,817

Rates for foreign exchange were strong, although somewhat irregular. Short sterling bills were barely steady, while long were a shade higher. On Continental points rates were higher, and shipments of gold to Paris may be made without loss. Following are rates for actual business: Bankers' bills, $4 86@$4 86 1-4 and $4 87 3-4@$4 88 for long and short sterling respectively; French francs, 5.17 1-2 and 5.15; reichmarks, 95 1-8 and 95 1-2.

In London British consols were again a trifle higher at 98 1-8 for money and unchanged at 98 3-16 for the account. The Bank of England gained £150,000 bullion on balance. In the open market money was slightly easier at 1 5-8 per cent for discounts and 2 per cent for daily balances. Bar silver advanced 1-8 to 38d an ounce. American railway shares were dull and drooping, and last prices were usually the lowest, but the market was devoid of animation. At Paris French 3 per cents opened strong, but closed only a few centimes higher at 97.30.
