GENERAL MARKET REPORT.

COTTON—The cotton market opened at an advance of 4 points, sold off 6 points and recovered most of the decline. The cables were disappointing, although showing an advance of 5@6d@6d. The failure of three cotton houses that were expected to get through the clearing house at Liverpool to-day and the fact that the stocks have decreased these last 6,000 bales for the week, notwithstanding the burning up of 12,000 bales, made the trade hesitate to buy cotton. The local crowd directed their energies to bidding the market up for the purpose of selling. The market here is quite featureless and slower than it has been at any time for two weeks. Yesterday it was thought that a cotton house that has been stepped for some time past would be able to make back a good deal at the Custom House, but to-day they failed to do so, the breach being stated at $200,000. It was the difficulties of this house that dragged down the other two. For a time, according to private cables, excitement ran high at Liverpool, but later a more reasoned feeling prevailed. Advices from the South indicate that cottonseed mills have absorbed so much cottonseed that there is only enough is left to plant for another crop. In connection with this report are reports from the South saying that the probable acreage is shrinking owing to the rapid decline in the price of cotton, which is leading farmers to plant for corn in larger proportion than expected at the outset of the season.

Exports to Great Britain, 6,892 bales; Continent, 165 bales; France, 15 bales; stock, 779,649 bales; exports to Great Britain, 33,717 bales; France, 7,962 bales; Continent, 26,410 bales; total, 68,119 bales.

FLOUR AND MEAL—The flour market to-day was disappointing, trade being of an unimportant character. Higher prices were asked in a good many instances, but no rise was established, the market closing flat, at old prices but not accepted. There seemed to be a little demand at old prices, however, for a few small lots. We quote: Superfine, $2 00@$2 20; fine, $2 25@$2 50; extra, $2 60@$2 75; city mills patents, $4 30@$4 50; 800 bbls bakers, at $2 90; 2,000 bbls extra Is at $2 25 in sacks, and 200 bbls no grade in sacks, $1 70; in winter wheat patents there were 1,500 bbls at $3@$3 25; 2,500 bbls straights at $3 40@$3 65; 200 bbls extra at $2 85@$3; 200 bbls extra at $2 45, and 200 bbls superfines at $2 30. FISH—The market is quiet for mackerel, as there is no stock in first hands, and jobbers are working off old supplies. Box herring are in demand and firm. We quote: 16@17c for medium scaled, 12@12½c for No. 1, 14c for lengthwise; codfish held for full prices. We quote: Shore mackerel, No. 1, $26@$27; No. 2, $19@$21; No. 3, medium, $14@$15; Prince Edward Island mackerel, No. 1, $20@$22; No. 2, $14@$15; Norway bloaters, $33@$34; No. 1, $28@$33; No. 2, $22; No. 3, $18; Irish mackerel, $18@$20; box herring, medium scaled, 16@17c; No. 1, 12@12½c; lengthwise, 14c; barrelled herring, Labrador, new, $5 50@$6; Portland, round, nominally, $5; Portland, small, $2 75@$3; Scotch medium, $8 @$8 25; Scotch large, full, $10 50@$11; Holland milkmen, 65c in kegs; white hoop, $8 25 in bbls, 55c in kegs; Holland, dark hoop, $7 in bbls, 45c in kegs; codfish, large size, 6¼@6½c; medium size, 4¾@5c; boneless, 6¼@6½c; boneless bake, 5½c.

GRAIN—WHEAT—The wheat market was less active to-day, sales amounting to 4,190,000 bush. Fluctuations were sharp, however, and the final close was 5¾@c off from the top, but ¼@¾c up from last night. There was a decided change in the appearance of the wheat market this morning from the conditions which ruled at the close last night. The opening was strong and higher, and prices advanced easily ⅞@1c with active trading. The rise was on reports of hot, dry winds in Kansas and Western Missouri, further injuring the growing crop. As hot evening rains were reported in this section, and today no rain appeared, it started quite lively covering. The high temperature and dry weather in the winter wheat belt were the important bull factors. On the other hand, in Michigan and the lake region there were heavy rains and a storm centre in the Northwest. There were some predictions of rain in the winter wheat belt, and toward midday prices began to ease off with a less active volume of trade. The details of the State reports at hand confirm the telegraphic advices, and show that the injury has been quite serious, although it is possible with very favorable weather from now on to considerably improve the present outlook. In Michigan the Secretary of Agriculture reports serious injury. In Kentucky the conditions of winter rye and winter wheat have suffered considerably, although the condition is reported at 90. Abroad the markets were fairly steady, although somewhat easier on account of the reaction here yesterday. There were not, however, many foreign buying orders in the market to-day. A correction was made in the London stocks of wheat, reducing the total by about 300,000 bush. Cash wheat was dull but a little firmer, export orders not seeming to be in the market at the advance. Sales were about 65,000 bush, including 80,000 bush for export as follows: No 2 red, 44,000 bush, ¼c over May f o b, store and private terms; No 2 hard winter, 16,000 bush, ⅜c over May f o b, afloat; No 1 Northern spring, 12,000 bush, 6½c over May delivered; ungraded Canada, 8,000 bush, 80c delivered, and 5,000 bush, 68½@68c delivered. No 2 red is quoted at ⅝c under May elevator, ¾c under in store. CORN—The market for corn was dull, sales amounting to only 280,000 bush in futures, closing ⅛c off from last night on May. The apathetic conditions which have prevailed in corn for some time past were apparent again this morning. The opening was steady, and later there was a slight advance in sympathy with the rise in wheat, but business was flat and the demand was slow. With the present demand for cash stuff, and the laziness of the season and the increase in stocks, it is difficult work bulling the market. Cash corn was dull, with sales of 39,000 bush as follows: No 2 corn, 51½c elevator; No 2 corn, 16,000 bush, 52⅞c f o b afloat; No 3 corn, 5,000 bush, the elevator; steamer yellow, 1 car, 50½c elevator; ungraded yellow, 2 cars, 51½c delivered; steamer, 14,000 bush, 50c elevator and 51c delivered. OATS—The market for oats is still dragging along in the old rut, with offerings good and demand small. Notwithstanding the rise in wheat, prices closed unchanged here from last night. Cash oats were moderately active, with whites ⅛c higher. Sales were 87,000 bush, as follows: No 2 oats, 27,000 bush, 36c elevator, 37c delivered; No 3 oats, 2,000 bush, 35½c; No 2 white, 7,000 bush, 40@40½c; No 3 white, 4,000 bush, 39@39½c; track white, 28,000 bush, 39@47c; track mixed, 1,000 bush, 38@38½c, rejected white, 10,000 bush, 38½c offer. BARLEY—Market quiet. Quotations are nominal at 60@75c for Western; two-rowed State, 65@66c, and California, 65@67c for bay breaking. RYE—Market dull and nominally steady; Western, 63@65c. MALT—Market nominally unchanged; Western, 65@90c; two-rowed State, 70@75c; six-rowed, 80@85c. Option quotations follow. For comparison, the closing prices last night and the corresponding date last year are given:

HEMP AND JUTE—The market remains quiet and more or less nominal. We quote: Manila hemp, 6½@6¾c; sisal hemp, 5c; jute, 3½@4½c; jute butts, 1¾@1¾c.

HIDES—Market quiet. Sales for week, about 62,000 hides; receipts for week, about 44,000; stock, 300,000 hides and kips, against 333,500 same time last year. Quotations are: City native steers, 7⅝@7½c; cows, 6@4½c; heavy bulls, 4½@4½c; Texas, dry salted, 8c asked.

LEATHER—The market is fairly active on home and export account, which about absorbs current receipts. METALS—The market for iron continues very dull, very little change in prices and sellers rather anxious for business. STEEL BILLETS—Are quiet, as buyers decline to meet the advanced views of holders, and only small lots are being taken at former prices. Deferred deliveries show some tendency to weaken, as there is very little disposition to buy anything that is not required for the movement. The price is nominally $25@$25 50 delivered, Schuylkill Valley or equivalent points. There have been a few small sales within this range. There has been some effort made to create the impression that May and June deliveries are over sold. FINISHED MATERIAL—There is a very fair business and mills are kept well employed, with prices steady. OLD MATERIAL—The market shows a disposition to give way a little as trade is slow and holders anxious to realize. Steel is in relatively better demand than iron; the latter being quite nominal, and probably unsalable, except at lower prices. TIN PLATES—The market inactive and dull, the usual spring trade orders from the West is not forthcoming. The English markets remain very firm, however, some of the makers claim to be well booked ahead. COPPER—Market closed weak. Total arrivals since January 1 have been 414,042 tons; deliveries since January 1, 416,559 tons. Refiners' stocks April 1 were estimated at 104,556 tons, and the total stocks, all brands, 148,823 tons, against 140,196 tons last week. The stock in Havana and Matanzas is reported at 130,000 tons, against 106,000 tons last week, and 93,000 tons last year. The six principal ports of Cuba give for the week: Receipts, 40,000 tons; exports, 17,000 tons; stock, 299,000 tons, against stock last week, 186,000 tons. Total receipts of whole island of Cuba to April 1, are 527,000 tons, against 493,000 tons last year. Affloats to the United States from all countries, estimated, 75,000 tons, against 80,000 tons at the same time last year. The recent advance in sugar as stated has been very largely on the strength abroad, the market there being about ¼ of a cent above a parity with America. There has been considerable speculative activity induced by the shortage in the Cuban crop, this shortage being estimated variously at from 75,000 to 175,000 tons. The movement of sugar does not, however, substantiate the larger estimate. Refined sugar has not advanced quite as rapidly as raw. Raws to-day were strong, but quiet. We quote: Cuba, centrifugal, 3¾c; muscovado, 89 test, 3¼c; molasses sugar, 2c. No sales reported to-day, but a lot of 16,000 bags Cuba centrifugals was sold late yesterday and not included in any reports. Sugar to come to New-York, price 2¾c, cost, insurance and freight. TALLOW—Market quiet and easy at 5⅛@5⅜c asked for prime city.

WHALEBONE—About 10,000 lb sold at 83, and that was the closing quotation.

WOOL—The market has been a very narrow one owing to the light stock and the indisposition of mills to buy freely, as they have considerable stock on hand in some cases. Strange as it may seem, the very common grades and the best grades have a relatively good sale, but the medium grades are not wanted. There is, therefore, some discrepancy as to prices, and quoted values should be considered as being nominal. The sales for the past week were about 1,500,000 lb, including about 250,000 lb domestic and 900,000 lb foreign at about these prices: Secured Colorado at 35c; secured Texas at 30@31c; secured wool at prices ranging from 35c to 60c; Territory at 18@22c; fine do at 20c; spring Texas at 18@19c; fall Texas at 17@18c, and Pennsylvania fleece at 29@27c. We quote: Ohio fleeces at 29c for X, 30@31c for XX and above and XXX Michigan X, 27@28c. Delaine selections, 32@33c, and new fall sheep wool, 20@22c; Territory wools, 55@59c, clean for fine; 54@55c for fine medium, and 48@50c for medium. Texas wool, twelve months, 21c, and eight months, 18@c. Pulled wools, 30@40c for super.

COUNTRY PRODUCE MARKETS.

BEANS AND PEAS—Demand very light from all sources, and the general market has a weak tone. Medium and Pea, both domestic and for ign, show most weakness, and our outside figures are becoming extreme. Recent heavy importations have frightened buyers, and it looks like lower prices before time fairly starts again. California Lima dull and unsettled. Green peas weak; another lot of 411 bags received from Europe. Beans, narrow, $2 40; do medium, $2 10; do pea, $2 05@$2 10; do white, nothing. $2 30@$2 35; do red kidney, $2 75@$2 90; do black turtle soup, $2 90@$3; do Lima, California, $2 15@$2 20; do foreign, medium, $1 90@$1 95; do pea, $1 90@$1 95; green peas, bulk, $2; do bags, $1 90@$1 95; do Scotch, $2 40@$2 45.

BUTTER—The effort to study the market on fine fresh table grades has not proven successful, the extreme dullness of trade causing some accumulation in spite of the light receipts; sellers do not want to carry goods over into next week, and they cut prices quite per ¾ in the hope of finding a wider outlet. The finest marks of creamery sold this afternoon at 29c, and selected lots of State dairy half tubs at 27c. The weakness extend to all the lower grades, and even the old butter which has seemed to occupy so strong a position of late is now unsettled and declining. Creamery, Pennsylvania extra, 29c; do Western extra, 29c; do firsts, 26@27½c; do seconds, 25@26c; do thirds, 24@25c; State dairy, half-firkin tubs, extra, 27c; do firsts, 24@26c; do seconds, 23@24c; State dairy, Welsh tubs, firsts, 25@26c; do seconds, 23@24c; dairy tubs, thirds, 22c; West in imitation creamery, firsts, 23@24c; do seconds, 21@22c; do fresh firsts, 22c; do seconds, 20@21c; do thirds, 18@19c; Western factory, extras, 24@25c; do firsts, 21@22c; do seconds, 19@20c; do thirds, 17@18c; Western summer-made creamery, 23@24c; State summer and fall-made State dairy, firsts and extras, 24@25c; good of Western dairy, or in firkins, 17@18c.

CHEESE—Home trade has been fair again to-day, and the market for the stock wanted by that class of buyers is steady, fancy large size and flavored lots jobbing at 11¼@12c. Shippers have taken further lots of summer-made full cream at 9¾@10c, and negotiations are pending on other parcels. Winter made skims are still very dull; some of the extremely poor lots are closing out at 3@4c per lb. Liverpool cable, 52s 6d. State factory, full cream, fine, fancy, 11@11½c; do choice, 11@11¼c; do good to prime, 10¼@11c; do common to fair, 9@10½c; part skims, fair to prime, 5@8c; do good to prime, 7@8c; do common to fair, 3@6c; full skims, 2@2½c; Pennsylvania skims, half-skims, 3@4c. Market shows little change in prices or general features. Stock on hand here is liberal, but sparingly offered under strong advices from the West, and while trade is rather quiet the offerings for prompt sale are light enough to give holders some advantage. On Change to-day 1,600 cases were sold, all at 11c, except 50 cases Kansas and 50 cases Nebraska at 11½c. Duck eggs lower. Goose eggs in moderate supply and about steady. Western and near-by, new-laid, per dozen, 16c; Southern, per dozen, 15@15½c; duck eggs, per dozen, 22@25c; goose eggs, per dozen, 40c.

FRUITS—FRESH—Choice Baldwin apples in fair demand, and in shade firmer; Greenings continue dull. Florida oranges have shown a slight improvement, and the market closes firm under moderate supplies. Florida strawberries in to-day by freight were largely below choice and sold mainly at 30@50c. Express lots ranged at 60@70c, but very few brought latter figure, and the tendency is now downward. About 11 crates arrived from Charleston, mixtures, per bbl, $2@$2 50; do Baldwin, Charleston, mixtures, per bbl, $2@$3. Cranberries, Jersey, per bbl, $2@$2 75; do Spy, per bbl, $2@$3. Cranberries, Jersey, crate, $2 75@$3. Florida oranges, per box, $2@$4 50. Strawberries, Florida, per quart, 30@70c; do Charleston, per quart, 60@70c. DRIED—Holders of evaporated apples are offering stock a little lower in the effort to open an outlet. A car of prime fruit sold at about 8¾c. Sun-dried, weaker and dull. Chops firm, with 2½c bid for prime, heavy packed lots.
