GENERAL MARKET REPORTS.

New-York, April 12, 1893.

COTTON—The cotton market at New-York, contrary to expectations, opened 10 points lower, and further declined 5 points. It was expected that the advance in our market yesterday would stimulate Liverpool to higher figures; but instead of that, Liverpool came in 5 to 6 points lower, closing steadier in tone at the decline. At the same time there were reports of rain in Texas, which reached New-York, via New-Orleans. It is reported that there have been showers at Dallas, Albany, Paris, Waco and Beaumont. These reports are not supported by the official dispatches, and a private message from Galveston says that there has been no rain or any prospect of rain throughout the southern and central parts of Texas; rain in this part of the State is needed very much. Sentiment at New-York is rather bearish in view of the heavy stocks held in Liverpool, and the small demand from spinners for cotton. Private advices indicate that the sentiment in the South remains very bearish, and the Southerners quite generally report an extension of acreage. Some of our more conservative commission houses do not expect to see much decline in cotton, and may be counted on as buyers on weak intervals, during the next thirty days. Spot cotton in this market is not particularly pressed for sale, and generally held fully ¼c over the June price. Receipts for the week are estimated at 55,000 bales at the ports. The decline in the price of cotton may increase this amount to 60,000 bales for the week. August cotton, which closed last night at 8.31, opened this morning at 8.21 and sold down to 8.14. Spot cotton weak, 1-16c decline.

The exports for the month comprise 135,000 bales to the United Kingdom, 51,000 bales to France, 75,000 bales to Germany, and 59,000 bales to the other European countries. Nearly one-half the exports, or 140,000 bales, were from New-Orleans, 70,000 bales from New-York, 37,000 bales from Galveston, 24,000 bales from Baltimore, 22,000 bales from Boston, and the balance scattering.

COFFEE.—There has been a decline of 10 to 15 points in the price of coffee at New-York, chiefly due to the weakness of the Rio market. Business here has been very slow, chiefly on local account, with some foreign selling, supponenting the pressure of liquidation of a few weak local long interests. The market appears to be suffering from the pressure of available supplies. Private cables say European markets are being held up by main force. Sales of futures to-day: April, 1,500 bags; May, 9,250 bags; June, 1,500 bags; July, 2,000 bags; August, 250 bags; September, 2,500 bags; October, 3,000 bags; November, 250 bags; December, 3,250 bags; total, 27,750 bags. Hamburg was ⅛@¼ pfgs higher; sales, 23,000 bags. London closed ¼d to 6d higher.

FLOUR AND MEAL—The market for flour to-day was rather quiet, buyers being discouraged early by the weakness in wheat, although later there was more inquiry on the reaction and the final close was firm. In spring patents sales were about 1,800 bbls at $4 20@$4 40 in clears; 2,500 bbls, at $2 60 in sacks, and 2,000 bbls. In rye mixtures, 150 bbls, at $2 60. City meal was slightly weaker with sales of 4,000 bags at 87½@90c. CORNMEAL—Market dull and about steady. Quotations: Brandywine, $2 75; Western, $2 65@$2 75; Southern white, $1@$1 15; city meal, 97@$1 14 for coarse to fine.

GRAIN—WEDNESDAY—It was an irregular market in wheat to-day. During the morning it was weak and active, turned dull during the middle of the day and rallied sharply at the close on large export sales, which was very surprising on the tone of the cables, and late advices from Chicago that there had been no rains in parts of Kansas where most needed. The final close was at a rise of 2c over the lowest prices for the day. There was too much rain for the bulls in wheat this morning, and the market showed disappointing weakness, and prices declined ⅝@⅞c with active liquidation. Business turned dull and was quiet the balance of the morning. The sales were general, extending all over the winter wheat belt. Some after reports from Kansas reported a very heavy downpour, while others said there had been none. While there was some doubt as to the exact extent of the rain, there was no doubt of its general character. Outside of Kansas foreign markets were disappointing largely because the American markets have been disappointing. There were fewer orders in the market to-day than yesterday, when total export sales amounted to nearly 500,000 bush, although the sales were about 400,000 bush. Late cables were weak and lower, closing heavy. May wheat at Chicago was active and irregular, selling from 90@81c in the first few minutes with considerable covering of short wheat from 82@83c. Prudent's visible was posted at a little after 1 o'clock and showed a decrease of 2,078,000 bush east of the Rockies, and a decrease of 446,000 bush on the Pacific coast. The decrease in corn was 399,000 bush, and oats, 179,000 bush. The total in America is: Wheat, 106,004,000 bush; corn, 16,741,000 bush; oats, 6,995,000 bush. The total visible supply of wheat in America and in Europe foots up 178,549,000 bush, an increase for the week of 316,000 bush, the decrease in America being offset by a gain of 2,840,000 bush in European supplies. Cash wheat was active with sales for export amounting to 400,000 bush, and sales for milling 125,000 bush. Sales were: No. 2 red, 125,000 bush milling, part to b., part to be under May in store; No. 2 red, 80,000 bush, ¼c over May f. o. b. store and 1¼c over May, f. o. b., afloat; 30,000 bush p. t. f. o. b., store, and 40,000 bush, ⅜c over May f. o. b. store; No. 2 hard winter, 100,000 bush, ¼c under to May price, f. o. b., store; No. 3 Chicago spring, 32,000 bush, ⅞c under May, delivered; ungraded, 104,000 bush, p. t., delivered; No. 1 hard Manitoba, 8,000 bush, 3⅛c over May to arrive. Total sales were 525,000 bush.....CORN—The market for corn was moderately active and weaker. Early prices declined this morning partly in sympathy with wheat, and rallied a little and closed quiet. The final result of the day was a gain of ⅛@¼c, owing to a late rally. It was the same old story. Shorts were scarce, stocks were heavy, and cash trade dull. Reports about rapid progress of ploughing and the fact of nearing the first of May with such heavy stocks at Chicago undisposed of gave a blue tone to business. The rally also was on covering of shorts in a narrow market and in sympathy with wheat and oats. Cash corn was firm, with sales of 58,000 bush as follows: No. 2 corn quoted 52c elevator; No. 2 corn, 8,000 bush, 53⅛c delivered; No. 3 corn, 21,000 bush, 49⅝@50c elevator and 51c delivered; steamer yellow, 7,000 bush, 51½c elevator; rejected, 1,000 bush, 52c delivered; ungraded, 4,000 bush, 52@57c delivered; steamer, 18,000 bush, 50½c elevator and 51½c delivered.....OATS—The market was active and weak; there was a sharp decline early, with considerable stuff pressing on the market; the depression in corn and wheat influenced trading somewhat, but the large supplies, good receipts and favorable reports about the weather and favorable appearance of the growing crop induced considerable selling. Toward the close there was a reversal of the market, and prices rose quickly, leaving off ⅛c higher for the day; spot oats were quiet, with white 1c lower. Sales were 61,000 bush, as follows: No. 2 oats, 10,000 bush, 37c elevator and 38c delivered; No. 3 oats, nominal, 36½c; No. 2 white, 9,000 bush, 40c; No. 3 white, 16,000 bush, 39c; track white, 20,000 bush, 36@40½c; track mixed, 6,000 bush, 37@38c.....BARLEY—Market inactive. Quotations are nominal at 60@75c for Western; two-rowed State, 65@66c, and California, 65@70c for bay brewing.....RYE—Market dull and nominally steady; Western, 63@65c.....MALT—Market nominally unchanged; Western, 65@70c; two-rowed State, 70@75c; six-rowed, 80@85c. Glasgow, April 12—Scotch warrants closed £41 asked. Middlesboro, April 12.—No. 3 Foundry, 31s 4½d. Pittsburg market—There has been quite a break in the BESSEMER IRON market and this grade of metal has declined to-day at $13 75 delivered Pittsburg for April-May shipment. The last sale reported prior to this break was $14 10 per ton delivered. There has been no demand for Bessemer of late and the fact that a large buyer came into the market for a small quantity and being a desirable customer the sellers were all anxious to secure the contract and consequently broke the market.....STEEL RAILS are also show weakness, and there are several sell-ers in the market to-day, while last week no one was inclined to sell. The market quotation now on soft Bessemer rail is $23 f. o. b. cars mason's mill Pittsburg or Youngstown.....OLD IRON RAILS are a little more freely offered and the railroads are beginning to replace them with new stock, and the probabilities are prices will drop a little, as there is very little demand.....SCRAP IRON is rather active, but prices are low and soft steel scrap is more in demand than iron. Quotations: No. 1 scrap is more in demand than iron. Quotations: No. 1 Foundry, $13 75; No. 2 Foundry, $13; No. 3 Foundry, $12 50; gray Forge, $12 25; charcoal iron (cold blast), $26; charcoal iron (hot blast), $19; old iron rails, standard section, $19 50; old steel rails, miscellaneous benefits, $22 50; old steel axles, $24@$24 25; 80 per cent Ferro Manganese, $59 25; Bessemer steel wire rods, $30@$30 50; Bessemer steel billets, $23; Bessemer pig iron, $13 75; new steel rails, $28; No. 1 wrought scrap, $15; wire nails, $1 30 per 100.
