GENERAL MARKET REPORTS.

New-York, April 13, 1893.

COTTON—Contrary to expectations current last night the advices from Liverpool came unfavorable this morning. Private cables said that the weakness was due to disturbed financial conditions. The failure of a large banking house in London, with liabilities of $30,000,000, and rumors of trouble on the part of some small cotton houses, coming on the heels of the recent Liverpool failures, and just as the cotton trade was beginning to look for a better state of affairs, caused our market to decline 10 points from last night's prices during the forenoon. August selling from 8.14 to 8.04. The Liverpool market showed a decline at the close of 3-64 to 4-64d. Private cables said the weakness there was in part due to the pressure of actual cotton on the market, and to disappointment regarding the trade outlook. The New-York market has not been active, as traders are very cautious, owing to the cables respecting the financial condition of affairs in Europe. Business to-day has been chiefly for the purpose of liquidating accounts already existing. Receipts for to-morrow at New-Orleans will be 3,000 bales, against 2,100 bales last week, and 1,930 bales last year. Receipts at Bombay for the week are 77,000 bales, against 68,000 bales last year. Shipments are 38,000 bales to the Continent, against 34,000 bales last year. Stock afloat is 18,000 bales, against 22,000 bales last year. Hubbard, Price & Co.'s circular will say: "Predictions from New-Orleans as to the probability of the next crop selling at 6½c for November and December delivery are freely made in view of adding to the cause of general weakness. The American operators who have been short in Liverpool bought cotton in that market today without selling here, believing that prices have reached a point where they were again justified in owning some cotton. So long as this pressure to cover continues in Liverpool, our market will naturally decline; but the decline has been so sharp and continuous since the 1st of December, and the prospects for a revival of the cotton industries in Europe have so much improved that it seems advisable to allow others to seek for the remaining profit on the short side of cotton. Our correspondents in Galveston state that the rains of yesterday appear to have been confined to a narrow area in the wake of a cyclonic disturbance, and the weather observer in Galveston says that there has been no rain and are no indications of rain to-day."

Spot cotton sales for consumption: To-day, 250 bales; yesterday, after report, 260 bales; total, 510 bales.

New-York cash sales to-day and last night: Consumption, 510 bales; total, 510 bales; market quiet at 8¼c for middlings; 1-16c lower. New-York net receipts to-day, 773 bales; gross, 773 bales; exports, 10,207 bales; forwarded, 53 bales; stock, 261,314 bales. Port receipts today, 6,097 bales; exports Great Britain, 10,998 bales; Continent, 1,208 bales; stock, 721,650 bales; consolidated net this week, 47,226 bales; exports Great Britain, 33,905 bales; France, 9,033 bales; Continent, 45,718 bales; total, 88,736 bales; so far this week, 77,206 bales, against 43,711 bales last week. Cables—Liverpool, 12:30.—Spot cotton dull and irregular; American middling, 4⅝c; sales, 7,000 bales. Futures opened quiet at 1-64d decline; 1:45 p. m. loss recovered of 1-64d at 2:45 p. m. further decline of 1-64d; at 4 p. m. further decline of 2-64d; at 4:30 p. m. steady at 3:45 p. m., a reaction of 2-64d; at 4 p. m. closed barely steady at a decline of 3-64@4-64d as compared with yesterday's closing prices. Liverpool closed to-day at the following quotations: April, 4 26@4 27; April-May, 4 26@4 27; May-June, 4 28; June-July, 4 29; July-August, 4 31; August-September, 4 24@4 27; September-October, 4 25@4 28; October-November, 4 23 bid; November-December, 4 26@4 27.

COFFEE—The coffee market has been very quiet with prices lower by 25 to 30 points, and the undertone of the market still weak. The cable news is disappointing, and trade is confined to evening up local contracts. Speculators and operators are sleeping out of the market, and the general situation is quite featureless both at home and abroad. The market was more active at the close, leaving off at the lowest point. Sales of futures to-day: April, 2,000 bags; May, 6,250 bags; June, 3,500 bags; July, 3,750 bags; September, 10,500 bags; October, 2,250 bags; December, 3,750 bags; total, 32,000 bags. Market closed weak. Quotations:

Months.	High-est.	Low-est.	Closed to-day.	Same time last year.

Brazil coffee (including amount afloat) is 548,682 bags, against 976,294 bags last year, 660,741 bags in 1891, and 616,346 bags in 1890. Total stock in New-York to-day is 219,464 bags. Warehouse deliveries at New-York yesterday, 11,034 bags. Amount afloat from Brazil for the United States is 245,000 bags. Spot market quiet. Rio No. 7 quoted nominally at 16¾c on the spot. There was a reported sale of 550 bags No. 7 spot, but no price could be obtained. It was rumored that No. 7 could have been offered at 16¾c. The closed inactive, at 13@600 for first ordinary, 12@300 for good seconds and 12 13-16c for exchange. Receipts, 4,000 bags; stock, 208,000 bags; clearances for Europe, 1,000 bags. Santos market was quiet; good average Santos quoted 12@600; receipts, 9,000 bags; stock, 200,000 bags. Havre closed barely steady at 1c 91 francs decline. Sales, 80,000 bags. London was 91 lower and Hamburg declined ¼@¾ pfg. as compared with last night.

FLOUR AND MEAL—The flour market was very quiet to-day and easier in tone, closing dull and heavy, with buyers indifferent on the question in wheat. Sales were limited to a small casual business, with most of the transactions in winters. In city mills there were about 4,000 bbls clears on private terms. Sales were 1,700 bbls spring patents at $4 30@$4 40; 2,000 bbls winter patents at $4 10@$4 20; 500 bbls winter extras at $3 10; 500 bbls winter clears at $3 10; 500 bbls winter straights at $3 90@$4 00. In winter patents sales were about 600 bbls at $4@$4 05; in straights about 3,000 bbls at $3 25 in sacks to $3 50; 400 bbls clears at $2 90; 1,000 bbls extra Brits, at $2 60@$2 70; 300 bbls extra seconds, at $2 40@$2 45. Southern flour was very quiet and easier in tone, with no transactions reported. RYE FLOUR—Market was quiet and easier at $3@$3 10. CORNMEAL—The market for cornmeal was quiet and a little easier in tone on the decline in corn. Quotations: Brandywine, $2 75; Western, $2 65@$2 75; Southern white, $1@$1 15, and city, 97c@$1 14. MILL FEED—The market was weak and lower again to-day. Western being quoted as low as 77c, with rumored sales at 75c. City feed was very dull at 85c@87½c. Quotations: Western, 40 to 80 lb, 77@82½c; 100 lb, 85@90c; choice, 95@$1; rye, 75@80c; cottonseed meal, $1 20, and oil meal, $1 25@$1 40.

GRAIN—WHEAT—The wheat market was very quiet to-day and easier, sales footing up only 1,605,000 bush. The close was at ⅜c to ½c decline from last night, and dull. The market was firmer this morning on the report of less favorable weather in the Northwest for spring seeding and of continued dry weather in Kansas. The firmness was temporary, however, and prices soon gave way, with considerable liquidation, owing to the decline to 80 cents for May wheat in Chicago, making a drop of 10c a bush from yesterday morning. Prices then hung around the figures touched with a small local trade. Foreign markets were very quiet, and there was only a small business for foreign account in the cash grain, although there seemed to be few cash orders. The Northwest reported less favorable weather in the interior of Minnesota, and the Cincinnati Price Current says that later advices confirm the reports of damage in Kansas and Illinois, but generally the situation is unchanged from last week. Prime takes about the same position, with some details as to damage in isolated locations. The bears in May wheat at Chicago gave rise to reports that Pardridge was out of the deal and that he had covered his line of 4,000,000 to 5,000,000 bush short stuff, which he is said to have acquired yesterday, privately with the clique. In the last few minutes there was some foundation by traders. Cash wheat was dull, with sales of No 1 Northern spring, 8,000 bush, 6½c over May, delivered on spot, and 40,000 bush do to arrive at 7c ungraded spring, 40,000 bush, p. t., delivered and 32,000 bush ungraded red, p. t.; No 1 hard, Manitoba, 8,000 bush, ⅝c over May, to arrive; No. 2 red, 32,000 bush, 2c over May, f. o. b., store; No 2 hard, winter, 24,000 bush, 1c under May, delivered, and 8,000 bush 2c over May, f. o. b. Rye, delivered, and 8,000 bush 2c over May, f. o. b., afloat. Total sales were 192,000 bush for export. No 2 red afloat. Total sales were 192,000 bush for export. No 2 red is quoted 3c over May, elevator, and 3c under in store. CORN—The market was weak and lower, closing weak at ¾@⅞c decline for the day. The opening was active and weak. There was a good deal of selling here for Western account, apparently, and local longs were a little bit inclined to press sales, on the report that the straits had opened or would open soon. A large movement of corn will be seen as soon as the straits do open, and it is alleged that over 2,000,000 bush, nearly all old corn, have been sold, to come to New-York at opening of navigation. While these facts cause weakness in this market, they induce some buying in Chicago on prospects of getting rid of the corn there. Near the close Chicago advised that the straits had opened and the first that would leave Monday. Cash corn was dull with small sales. Sales were: No 2 corn, 5,000 bush, 51c elevator; steamer yellow, 1,000 bush, 51c elevator; rejected, 1 car, 47c elevator; ungraded yellow and white, 6,000 bush, 52c delivered; steamer, 1,000 bush, 50½c elevator. OATS—The market opened weak. There were active and big declines sharply in the first few minutes, partly recovered later and were heavy. A large movement is expected here with the opening of navigation, and what to do with the oats is causing a feeling of weakness. The close was at ⅛@⅜c decline, the latter on late deliveries, partly in sympathy with corn and on fears of large local receipts later. Cash oats were dull at ¼@⅜c decline. Sales were: No 2 oats, 29,000 bush, 36c elevator and 37c delivered; No 3 oats, nominal, 35½c; No 2 white, 1,000 bush, 40@40½c; No 3 white, 3,000 bush, 38½@39c, latter New-York Central; track white, 18,000 bush, 38@40c; track mixed, 4,000 bush, 37@39c; No 2 white clipped, 1,000 bush, 41@41½c; total sales were 64,000 bush. BARLEY—Market inactive. Quotations are nominal at 60@70c for Western; two-rowed State, 65@66c, and California, 66@67c for buy brewing. RYE—Market dull and nominally unchanged: Western, 62@65c. MALT—Market nominally unchanged; Western, 65@80c; two-rowed state, 70@75c; six-rowed, 80@85c. Option quotations follow: For comparison the closing prices last night and the corresponding date last year are given:

METALS—The market for pig iron continues very dull with the tendency downward. The Pittsburg market shows further signs of weakness, and 3,000 tons of Bessemer iron has been sold, for May shipment, at $13 75. It is impossible now to find a buyer at this figure, and indications are that values will decline. BESSEMER STEEL—Is considerably weaker, and 1,500 tons were sold today on basis of $22 45 Pittsburg, for April, May shipment. MUCK BAR—Remains about as last quoted, namely, $24 25 Pittsburg. There is no demand, however, and we do not hear of any transactions. FOUNDRY IRON—Is in considerable demand, and prices have not changed. No. 1 and 2 are quoted at $13 75 and $13 respectively, delivered Pittsburg. COKE—FOUNDRY FORGE, IRON—Is about the same, on basis of $12 25 delivered, Pittsburg mill. 1,000 tons were sold to-day on this basis, for prompt shipment. LEAD—Market closes firm. Spot, 4.05c bid, 4.20c asked; April, 4.05c bid, 4.15c asked; May, 4.05c bid, 4.20c asked. London, April 13.—Soft Spanish lead closes at £9 15s. Sh. Pig iron market closes quiet at unchanged prices. Exports had from this point, 15 tons in bond to Canada and 100 tons in bond to London. SPELTER—Market closes firm. Spot and April domestic, 4.25c bid, 4.45c asked. St. Louis spelter market closes firm at 4.05c. London, April 13.—Spelter closes at £21 15s. At New-York, 2,815 plates Silesian spelter arrived to-day from Stettin. COPPER—The market closed dull. Quotations: Casting, 10½@10¾c; ingot, spot and April, 11.05c bid, 11.45c asked. London, April 13.—Copper market closed dull; spot, £44 12s 0d; futures, £45. Sales futures, 350 tons. No sales spot. Report from Houghton, Michigan, states that the copper vein, in Calumet No 1 shaft, is extremely rich, so much so that miners cut through with difficulty. James Louis & Son, of Liverpool, in their report of April 4 say that a continuance of the agreement for restricting production for a further six months—until the end of this year—has been practically arranged between European and American producers, though not yet signed. TIN—Market closes strong, with the following prices: Bid, spot and April, 29.85c; May, 29.90c; June, 21c; July, 21.10c; August, 21.20c; September, 29.30c. Sales, 25 tons April, 1 day's notice, 29.85c; 50 tons April, after 25th, 29.90c. Tin, spot, London April 13—Market closed firm. London quotations: Tin, spot, £94 15s; one month, £95; two months, £94 10s; three months, £91; July and August delivery, £89. Sales spot, 20 tons; sales futures, 50 tons. Advices from Queensland to the effect that dies both Lode and stream operations have been restricted, owing to scarcity of water or winning the latter and to the poverty of the ore raised. The same remarks apply to Cooktown district. At Stanthorpe, where most of the tin comes from private lands, the output has fallen off. The tin of the Mount Bloom deposits is mixed with wolfram, rendering the ore unsalable in the colony. Good reports have been sent to the mines department by mining experts in the Etheridge district. Advices from New-Zealand: About two years since some supposed rich discoveries of tin ore were made at Stewart Island, but they have not proved to be as anticipated, the ore not having been found in quantities sufficient to pay working expenses. Advices from Victoria: The movement of tin was represented to be exports of 18 tons of black tin and 13 tons of ore, against an import of 178 tons of the former in the previous year. An area of about 12,000 acres was leased for tin working, chiefly in the Gippsland and Beechworth districts. From Tasmania: From January 1 to March 31 1,531 tons tin were exported in the first half year of 1891, against 3,269 tons during the total previous year. From Western Australia: The Greenbushes tin field has progressed steadily; but few areas are now being worked, although on some the wash has been very rich, yielding as much as 15 pounds to the dish.

MOLASSES—Market firm; offerings light. Quotations as follows: Porto Rico, 23@32c; English Island, 21@25c; New-Orleans, open kettle, prime to choice, 31@35c.

NAVAL STORES—The market for spirits turpentine closes quiet at 31½@32c. Rosin easy. Recent sales of about 6,000 bbls, chiefly low grade, indicate a fair demand for common and good strained. Quotations: A, B, C, E, general sample, $1 30; F, $1 35; G, $1 40; H, $1 45; I, $1 50; K, $1 60; M, $1 80; N, $2; window glass, $2 25; water white, $2 50. Rosin, 36,546 bbls; spirts turpentine, 1,308 bbls; tar, 4,209 bbls. Quotations: Spirits turpentine, scarce, 31½c; do machine, 32c. Rosins—Common, strained, $1 27½@$1 30; good strained, $1 32½@$1 35; pale, $1 85; I, $2 40; F, $2 60@$2 62½; M, $3 00@$3 05; N, $3 60@$3 65; window glass, $3 80@$3 85; water white, $4 25@$4 30. Tar, f. o. b., $2 05; pitch, light weight, $1 60; heavy, $1 70@$1 75;
