FLOUR AND MEAL—The flour market was moderately active today with the bulk of transactions running on winter wheat flour at old prices. The demand seems to be mostly for local trade, very little interest being shown by shippers. The sales of winter wheat were 5,700 bbls patents at $3 90@$4 05; 1,650 bbls straights at $3 40@$3 55, and 1,000 sacks (200 ℔), at $3 55; 300 bbls clears at $3 25@$3 30; 700 bbls, extra No 2, at $2 60@$2 80; 300 bbls, extra No 1, at $2 70 in bbls; 150 bbls extra No 2, at $2 25; 650 sacks of superfines, at $2 30@$2 35. GRAIN WHEAT—The movement in the wheat market has gained in the direction of better prices, led by the West, which had a delivery bulge, counteracting the effects of the delivery break at New-York yesterday. Assisting the bull side of the market came reports of crop damage not only from the interior, but from Europe. It is generally believed that the crop damage abroad is quite serious, and official advices from Hungary indicate material injury. As yet, however, notwithstanding the reports of damage to the crops abroad, there has been no stampede on the part of foreign dealers to buy wheat here, and in the absence of a scare it is very difficult to get up much bull enthusiasm when the people most affected seem to care the least. The advices from the West were rather contradictory, although clearing skies were reported through the West and Northwest. Accompanying the clear weather were advices of a severe drop in temperature and official advices showed killing frosts west of the Mississippi. The visible supply which came out at 1 o'clock was a decided disappointment, showing an increase of 1,175,000 bush instead of a decrease of 1,000,000 bush. The visible supply and the amount on passage together made a grand total of 115,000,000 bush, an increase for the week just of 808,000 bush. The very size of this stock and the fact that the American visible is 75,000,000 bush, is one great feature in the bear attacks on the market. The market late was dull and without special feature of interest. Late private advices indicated that the Indian wheat crop would be 20,000,000 bush larger than last year, but as an increase has been expected for some time, the report carried small weight. Cash wheat was dull, with sales of 108,000 bush, of which 144,000 bush were for export. The details were as follows: No 2 red, quoted 62½c, under July in elevator, and 3c under July in store; No 2 red, spot, 61½c; No 3 red, 60c; No 2 hard winter, quoted 1c over May delivered; No 1 Northern spring, 70,000 bush, 2½c over July, delivered; ungraded, 48,000 bush, on private terms, delivered; 16,000 bush, to arrive, at 70c, delivered; 8,000 bush affoat, on private terms; 72,000 bush No 1 Northern to arrive, on private terms, for export, New-York account, and in addition to these sales about 250,000 bush of wheat have been done, via outports, for export ahead. CORN—The market for corn opened moderately active and somewhat stronger, selling up quite sharply toward midday, with considerable increase in general activity owing to the prospect of bad weather at the interior. The killing frosts were considered quite an adverse influence, although the fact that the barometer is rising, and possibly when the cold wave passes the ground will be in a condition for spring work, detracted somewhat from the lower temperature. The visible supply decreased 789,000 bush. The close was steady. On the cold weather cash sales were 175,000 bush, including 80,000 bush for export, as follows: Sale—No 2 corn, 6,000 bush, 50½c elevator; No 2 corn, 40,000 bush, 51½@51¾c delivered; No 2 corn, 56,000 bush, 51¾@52½c f o b afloat; ungraded, 25,000 bush, 50@51½c delivered and elevator; steamer, 1 car, 50c elevator. OATS—The market for oats was quiet and a little firmer early, turning strong toward midday with the advance in corn and on the reports of cold weather West. The continuous rains and the cold weather have certainly not been favorable for the crop, although the movement at the interior still continues free. The close was quiet but steady. Cash sales were 160,000 bush, as follows: No 2 oats, 25,000 bush, 38c elevator and 39c delivered; No 3 oats, nominal, 37½c; No 2 white, 7,000 bush, 42@43c; No 3 white, nominal, 41c; track white, 51,000 bush, 39½@48c; track mixed, 15,000 bush, 36½@39c; No 3 white clipped, 2,000 bush, 43c.....BARLEY—Market very dull and nominally unchanged; two-rowed State, 65@66c, and California, 66@67c for bay brewing.....RYE—Market quiet; State, 69@62c.....MALT—Market steady and unchanged; Western, 68@80c; two-rowed State, 72@77½c; six-rowed, 85@90c.
