WHOLESALE PRICES COUNTRY PRODUCE

For the week ending May 23, 1893.

BEANS AND PEAS.

Receipts for the week—Beans, 438 bbls; peas, 550 bush. Exports—Beans, 820 pkgs; peas, 1,671 bush. Imports—100 bags beans. Domestic marrow beans have strengthened a little under further sales for export, rather more home demand, and continued light receipts; late business has been fairly active at $2 50, and choice quality cannot be bought for less. No improvement whatever in the demand for other sorts. Pea, White Kidney, or Turtle Soup Beans are light and values are without material change. Close to 200 bbls Red Kidney have been taken for export within a few days, and the market is somewhat firmer. Imported Pea Beans move fairly active at fairly maintained prices, and there is a little more interest in Foreign Medium. California Lima have a fair jobbing demand, and good lots are held firmly. Green Peas are quiet.

Beans, marrow, 1892, choice		@	$2 10

BUTTER.

Receipts for week, 34,905 pkgs. The further decline which has occurred this week has been the natural result of increased receipts and pressure to get the light-bodied hay in for into consumptive channels as quickly as possible. The weather has turned cold warm, and the light character of the stock causes rapid deterioration in quality by holding, and there has been no hesitancy in making whatever concessions were necessary to insure quick sale. The decline has attracted a good trade, however, in all table sorts, and the offerings to-day went out so freely as to cause a fairly steady feeling. Extra Western creamery and the fanciest lots of State are selling at 21c very generally, here and there a lot of 21½ going fractionally lower. Marks that are classed as firsts bring 19@20c, and some of the more defective lots range down to 17@18c. Until quite recently speculative buyers have been taking contracts for June creamery, seller June, at 19 1-2@20c, but the changed financial conditions make it seem probable that banks will be less inclined to loan freely on butter, and buyers have reduced their bids to 18 1-2@19c for the month's delivery. State dairy is in fair supply, but it is thought that farmers will begin packing next week, and receivers are bidding prices well up to creamery, say 20@21c for fancy half tubs and 20c for best Welsh. Imitation creamery and factory are becoming more plentiful, and have fallen quite as much as the higher sorts. A little lot of old butter returned from Europe sold on Saturday at 15c.

CHEESE.

Receipts for week, 25,831 boxes; exports, 14,651 boxes. Under increasing supplies, cautious buying on the part of English operators and lower country markets, receivers have been forced to make a general reduction in prices, and the market closed quiet and weak. Shippers have tried not to overload foreign distributing markets with our hot cheese, and the buying is all on very conservative lines. White and colored have at last come together, with the latter leading in the demand. Choice parcels of both sold on the docks to-day at 10c, and while there was a disposition to hold some of the high-priced goods for a little more money, no business could be done at any higher figure. Small sizes of choice quality sold to home trade at same price; skippers paid for large, and while there was a fair demand the supply was also quite liberal. Under-priced full cream, either small or large, had slow sale at irregular prices. The best of the part skims have had fair sale on the basis of 8c for Herkimers, and 7c for Chenangoes, few special lots going higher, but all other grades drag heavily, poor close skims being practically unsalable. Some lots have been closed out at 1-2c lc, and it may cost the cartage to get rid of some parcels. Fancy old cheese are in very small supply and job out at 11 1-2@12c; lower grades dull at from 11c down to 9c. Liverpool cable 10s. old cheese 53s@58s. The country markets reporting recently were: Watertown, 1,300 boxes at 9 1-2@9 5-8c; Canton, 800 boxes at 9 3-8@9 1-2c; Utica, 5,000 boxes, at 9 1-2@9 7-8c, ruling price 9 5-8c; Little Falls, 4,367 boxes at 8 1-4@9 3-4c, ruling 9 1-2c; Buffalo, 500 boxes cloverfield combination, mostly colored, at 9 3-4c.

EGGS.

Receipts for week, 1,424 bbls; 51,368 cases. The market gained a stronger tone following our last weekly report. Considerable stock was ordered into cold storage or temporarily taken off the market by limits as to price, and with some decrease in receipts the offerings of fine goods were reduced enough to give prices an upward turn, finest Western reaching 16 1-2c by Saturday. But so far this week arrivals have again run heavy, and with hot weather and a slow trade part of the advance has been lost, the market closing quiet at 15 1-2c for choice grades, only an occasional special mark of very fancy Michigan, etc., going a small fraction higher.

State and Pennsylvania, new-laid, per dozen		@	16

Southwestern, per dozen	15	@	15¼
Southern, per case	$3 00	@	$3 50

FRUITS AND BERRIES—FRESH.

Receipts of apples are falling off and choice lots of red fruit are quite scarce, top grades showing some improvement. Russets are plenty enough and unchanged. The supply of Norfolk strawberries has been large, but is now decreasing, and receipts from Maryland are not heavy. Late arrivals of Norfolk stock have been mostly too small and poor to exceed 6c 10c per quart, but a few of large variety reach 12c 14c, and good to fancy lots from Eastern Shore, Va., are ranging from 11c up to 18c. Last arrivals from Maryland sold in range of 10@16c generally, with bulk of sales at 12@14c. Southern cherries, of good size, are wanted. North Carolina huckleberries more plenty and lower. A few early peaches have appeared from Georgia and sold at full prices, quality considered.

DRIED FRUIT

Receipts for the week, 3,420 pkgs; exports for the week, 1,638 pkgs. The anxiety to close out certain lots of evaporated apples has led to further cutting of prices, and all grades are 1-4@1-2c lower. A few exceptionally fancy marks are still held at 10c, but there is no quotable business above 9 1-2@9 3-4c, with choice selling at 8 1-2@9c, and prime at 8@8 1-4c. A line of 1,260 boxes sold at 8c, subject to approval. Sun-dried apples in light request and weaker; 5c is an outside figure for choice lots from any section—a car of fair Virginia fruit sold to-day in bags at 4c. Chops scarce, inquired for and prime heavy packed lots would bring 2 3-8c. Raspberries sparingly offered and firm. Cherries lower; crop reports from North Carolina are unfavorable, but a good yield is looked for in the northern sections. Other small fruit dull.

HOPS.

Receipts for the week, 1,628 bales; exports, 204 bales; imports, 12 bales. Exporters have been making some inquiries of late, but not much business has resulted as yet. Trade with brewers is quiet and mostly of a hand-to-mouth character. Between dealers there is very little doing. Prices are held about steady, but it is still a waiting market, and if the crop prospects should continue favorable for another month there is strong probability that values will weaken. There is some business doing in the country, mainly at 19@20c, few exceptional growths going 1-2c higher and some lots selling down to 18@18 1-2c. Part of the recent sales have been by members of the "combine." European advices have not changed materially.

Oat straw, per 100 ℔	40	@	

POULTRY.

Receipts of live fowls were very heavy following our last weekly report, and prices declined to 11 1-2c for Western, and 11c for Southern. But those figures opened a very wide outlet for the stock, and the market has since recovered rapidly, two cars of Western selling to-day at 14c. Spring chickens have declined sharply under liberal arrivals and dull trade; local demand is always light at this season of year and only a few of the watering places are open. Turkeys, ducks and geese steady. Western dressed fowls fell to 12c for the best grade toward the close of last week under liberal offerings, and have since been in ample supply for all wants at that price. Turkeys dull and easier. Spring chickens lower and closing barely steady. Long Island spring ducks very dull and much lower. Frozen poultry almost nominal.

POTATOES AND VEGETABLES.

New potatoes have been in much larger supply; prices were pretty well maintained up to the close of last week, but are now declining and closing weak. Foreign old potatoes are closing easy under large arrivals. Bermuda onions have passed off to $1 50 under heavy receipts, but New-Orleans stock is held steady. Southern cabbages in excessive supply and lower; far southern are now hardly salable at prices which show any reasonable margin above expenses. Green peas fluctuate from day to day according to supply; choice lots scarce and firm at the close. Cucumbers in good demand. Green beans in very heavy supply and much lower. Florida tomatoes have been scarce and high, but late arrivals are largely too green, and these move slowly.

SUNDRIES.

NUTS—Peanuts quiet; quoted at 6 1-2c for fancy hand picked, and 4@5c for farmers'; Spanish shelled dull at 4 3-4c for No 1; No 2 quoted at 2 5-8@2 3-4c; Virginia No 1 shelled at 3 1-2c, and No 2 at 2c.

BEESWAX—Quiet; Southern quoted at 26@28c for large lots, with smaller sales higher.

MAPLE SUGAR—New bricks freely offered at 7 1-2@8c per ℔, with demand quiet. Syrup dull at 70@75c per gallon can.

THE GENERAL MARKETS.

New-York, May 23, 1893.

COTTON—There has been more life in the New-York cotton market to-day, with the average of prices higher. The opening sales were at lower prices under local selling in the absence of cable news and buying support. After a decline of 4 to 5 points, however, there was a quick rally of 8 to 9 points, on the up turn; the shorts were quite energetic buyers, and by 1 o'clock the sales had reached about 60,000 bales; included in this business was considerable said to be bought on investment account. It is also said that a number of discretionary buying orders remain in this market unexecuted. The sharp turn in the market was caused primarily by evidences of extremely cold weather in Texas, with the thermometer in the northwestern part of the State, indicated on the official map, as low as 32 degrees. This was a condition that naturally alarmed the shorts, and although there was an attempt made to break the force of the report with reference to the fact that there was very little in the way of private information to confirm it, the shorts felt that they could not ignore the official statement at present low prices. There was, therefore, quite a rush to cover, and quite a lively market ensued. It was argued that the cold wave report when cabled to England would naturally lengthen that market, and unusual interest is, therefore, attached to the opening cable to-morrow. Private advices, mail and telegraphic, sum up the effects of the recent protracted rains in the South as having benefited the uplands as well as the bottom lands crops, but not to the extent to place them beyond the possibility of reimperation with favorable weather from this time forward. A stretch of a month or six weeks of good weather is usual at this time of the year. The future market closed steady, at about the best point of the day. Sales, 91,100 bales.

The opening, range, and close to-day, and closing bids last night and last year, contrast as follows:

	Opening.	High-est.	Low-est.	Closing to-day	Last night.	Last year.
