WHAT WAS DONE IN STOCKS.

Wednesday, May 31—p. m.

Speculation in stocks was variable and uncertain to-day, and the interruption by a holiday failed to bring an increase of business. The trading remained largely professional, while the total transactions were smaller than they were on Monday. The most favorable influence, undoubtedly, was the completion, without important failures, of the fortnightly settlement at the London Stock Exchange, which was accompanied with somewhat easier rates for money. Strangely enough an impetus was given to the market by unexpectedly heavy withdrawals of gold for export. These were so large that the closing was affected once more by rumors of an early session of Congress. Wall Street is feeling out with its many tentacles to discover the limit of gold reserve which the present Administration may consider a financial emergency. With the legal-tender reserve be impaired by $10,000,000—that has practically been done—or by $20,000,000 or $50,000,000? There is a point beyond which the present "object lesson" may not be extended, and only one man in this country may fix the figure. No greater power was ever possessed by the extremest autocracy.

The fluctuations in prices were of little real consequence. General Electric was foremost by a rise of nearly 7 per cent, and New-England, on the other hand, by a fall of about 2 1-2 per cent. It must be acknowledged by every one that these are special stocks. Advances of about 2 per cent in Sugar Refining and about 1 per cent in such stocks as Omaha and Lackawanna did not change the character of the business. Among the stocks which have an international market Philadelphia and Reading was active, and again lower. In spite of the report that the Reorganization Committee might accept one-half of the general mortgage bonds as a satisfactory assent to the new scheme, the stock and bonds declined and suffered final losses. The closing was strong, and, in most instances, confident at the highest points.

THE DAY IN THE BOND MARKET.

There were no transactions in Government bonds at the Stock Exchange, and the only changes in prices were due to interest payments. The closing quotations were as follows:

	Bid.	Asked.		Bid.	Asked.
U.S. 4s, 1891, continued at 2 per cent, reg	99	....	U.S. cur 6s 1895	102½	....

			U.S. cur 6s 1899	113⅝	....

State issues continued to be neglected. Of city bank stocks Mechanics' sold (24) at 185, and Tradesmen's (25) at 110.

The only feature of the general bond market was its declining tendency. The reported transactions amounted to only about $880,000 par value. The Reading issues were naturally the most active, and general 4s fell to 69 5-8, and, rallying to 70, their opening price closed with a loss of 1-2 per cent. The incomes followed the example, and, in spite of a smart rally, closed materially lower. Erie second consols fell 1 per cent to 96, and many other issues sustained proportionate losses. The principal exception to the movement was a sudden rise of 8 per cent in General Electric debenture 5s, which closed at 90. Reference is made to our full report of bond sales.

Money on call was a little dearer, and the ruling rate was 3 per cent. The extreme range was from 2 1-2 per cent to 5 1-2 per cent, but the last loans were at the ruling rates. The advance in rates was due wholly to the shifting of loans at the end of the month.

The Clearing House statement was as follows: Exchanges, $124,524,640; balances, $7,147,975.

The Sub-Treasury was debtor to the Clearing House $790,801. Its net loss on balance was $289,044, made up by a loss of $2,561,208 in coin, less a gain of $2,272,164 in currency. Receipts, $4,034,300; payments, $4,343,343; resulting in a general balance of $77,604,427, consisting of $56,857,485 coin and $20,746,942 currency.

The United States Treasury at Washington received to-day $344,106 National bank notes for redemption.

The customs receipts were $396,599; the internal revenue receipts $581,409, and the miscellaneous receipts $127,979.

To-day's Washington Treasury statement of cash on hand and deposits in banks compares with the figures of the last previous statement as follows:

	May 29.	May 31.	Differences.
Net gold on hand	$98,895,428	$95,912,419	Dec. $2,983,009
Net legal tenders on hand	13,956,546	16,038,524	Inc. 2,081,978

The foreign exchanges were firm, and large exports of gold and somewhat easier rates for money in London had little influence on the market. Further shipments must be made if present rates are to be maintained. Following are slightly revised quotations for actual business: Bankers' bills, $4 86 and $4 89@$4 89 1-4 for long and short sterling respectively; French francs, 5.18 1-8 and 5.16 1-4; reichmarks, 95 and 95 1-2.

In London British consols further advanced the fractions to 98 1-8 for money and 98 1-4 for the account. The Bank of England gained £561,000 bullion on balance. In the open market rates for money tended downward, and offerings at 3 1-2 per cent for discounts and 3 per cent for daily balances were abundant. Bar silver was quoted steady at 37 11-16d an ounce. The fortnightly settlement at the Stock Exchange was completed without important failures, but American railway shares declined from the opening and closed without rally. At Paris 3 per cents advanced 20 centimes to 97.80, sight exchange on London being easier at 25.28 and 25.28 1-2 to the £ sterling.

Pursuant to the provisions of the agreement dated May 1, 1893, for the reorganization of the Richmond and West Point Terminal Railway and Warehouse Company and its subordinate companies, notice is given that the committee therein named has limited to June 10, 1893, the time of the acceptance of said agreement by the security holders of said company. Under the provisions of the agreement, outstanding 6 per cent bonds, 5 per cent bonds, preferred stock and common stock of the company must, therefore, be deposited at the office of Drexel, Morgan & Co. not later than June 10, 1893, at 12 o'clock noon. Deposits, if accepted after that date, will be received only upon such terms as the committee shall deem fit.

Winslow, Lanier & Co., Atlantic Trust Company and Coffin & Stanton will pay dividends on a number of securities advertised in another column.
