GENERAL MARKET REPORT.

New-York, June 8, 1893.

COTTON—The New-York cotton market to-day was a local affair, with a small volume of business. There was an advance of about 3 points at the opening on the large spot sales at Liverpool and the advices of stronger tone in spot sales at Liverpool. There was some gossip from the South about the crop prospects, but these did not have a very decided influence on prices. Subsequently Liverpool came in 2-64@3-64 lower at the close and barely steady, which started a reaction here. This reaction was helped by reports of a large failure in the wholesale grocery trade, stories of this coming apparently to New-York by way of the Chicago grain market, and induced considerable scared selling. Some talk of unfavorable financial conditions were current, but did not play an important part in the movement of prices. The market dropped by midday about 11 points from the opening, or 8 below the closing figures of last night, then became quiet. There is a great deal of speculation about the coming Government report, and traders hesitate to operate much in advance of this. The cotton market rallied quite sharply in the afternoon on "The Financial Chronicle's" estimate of the acreage, which was given out to-day instead of to-morrow, as anticipated. A large increase in acreage had been expected, but the gain was only 7.29 per cent, making the total area 19,761,385 acres, as against 18,362,892 last year. Spot quotations to-day were as follows:

COFFEE—The coffee market opened 10@15 points lower on active months on account of the decline in European markets. The market, however, improved somewhat later in the day under the influence of buying by the shorts. There were no special features, although a fair business was indicated. The warehouse deliveries are light and from present indications the total deliveries at New-York for this week will be something under the deliveries of last week. The European markets were all lower, as follows: Havre, 1¼c; Paris francs off 1c; Hamburg, 3/32 pfg lower; while London showed a decline of 3-64d. Toward the close there was a better feeling, prices leaving off 5 points for the day. The market closed steady. Total sales, 15,750 bags.

Rio closed weak, with first ordinaries 10@450; good seconds, 15@250, and 10½ for exchange. Receipts, 6,000 bags; stock, 84,000 bags. Santos market was quiet; good average Santos, 14@800; receipts, 6,000 bags; stock, 148,000 bags. Havre closed 1¼@1½ francs lower; London closed 3@6d off, and Hamburg was ⅛@¼ pfg lower.

The total stock of Brazil coffee in the United States to-day is 149,805 bags; afloat from Rio and Santos, 309,000 bags; total stock in New-York, 102,669 bags. Warehouse deliveries yesterday, 3,630 bags; stock in New-Orleans, 28,439 bags; in Baltimore, 18,197 bags. Spot coffee steady at 17¾c for Rio No 7. Sales, 1,000 bags Rio No 8 per steamer Olbers, at 16½c exchange; 5,000 bags Nos 7 and 8 spot, at 17c for the coffee.

FLOUR AND MEAL—FLOUR—The New-York flour market was again dull and weak with total transactions in small figures. Winter wheat flour showed relatively a very firm tone, but spring patents continued to show a very decided weakness. Sales have apparently been made on distressed lots as low as $4, and quite a large market has been made at $4 10, with $4 15 practically the top notch. While the volume of business publicly reported has not been large, the sales sub rosa have so far to-day been aggregated a large total, nearly one-half of which has been below $4 20, very little selling above that early in the week. Total transactions to-day were 16,000 pkgs, as follows: Winter patents, 400 bbls, at $3 90@$4; straights, 3,000 bbls, at $3 20 in sacks to $3 50 in bbls; clears, 1,000 bbls, at $3 20@$3 25; extra 1s, 1,000 sacks, at $2 50@$2 70; wood; extra 2s, 300 bbls, at $2 35@$2 60; superfine, 200 bbls, at $2 40@$2 50; spring patent, 6,000 bbls, at $4@$4 15, with some small lots of fancy at $4 50; clears, 300 bbls, at $3@$3 25; rye mixtures, 600 bbls, at $2 75@$3; extra 1s, 3,000 sacks for export, at $2 50@$2 65. Southern flour was quiet and steady. CORNMEAL—Was light, 200 bbls selling at $3 15@$3 25. CORNMEAL—Market steady, with sales of 500 bbls, at $2 75, and 2,000 bags of Western within the range; Brandywine, $2 75; yellow Western, $2 65@$2 75; Southern white, bags, $1 15@$1 25. BAG MEAL—Quiet. Quotations: Fine white, $1 05@$1 10; fine yellow, $1 05@$1 10; coarse, $1 05@$1 10. GRAIN—Market firm, and higher on spots. Quotations: 40-lb. 82½@85c; 60-lb. 82½@85c; 80-lb. 82½@85c; 100-lb. 85@90c; sharps, 95c@$1; rye feed, 80@85c; hominy chop, 87½@90c; cottonseed meal, $1 20@$1 25 per 100 lb; oil meal, $1 35@$1 40. Sales were 10,000 bags of city, at 82½@85c.

GRAIN—WHEAT—The wheat market showed a slightly better tone at the opening, but soon became dull and weak, dropping off easily until near midday, when the weakness developed into quite a scare. This scare seemed to originate in Chicago over reports about a large New-York wholesale grocery house and resulted in a decline to 65¾c in the West and to 72 1-16c at New-York. The St. Louis market was down to 68⅞c and Northwestern markets were weak. The early heaviness was accentuated by the foreign news which was of easy markets, and improved crop prospects. Orders for Europe were rather scarce and in many cases limits were reduced owing to anticipation of further trouble in America. Home news was favorable to bears, but the foreign press and State advices were of a favorable character. "The Price Current" asserts that prospects have been fairly well maintained and spring prospects are quite good. The Missouri State report showed a condition of 81 against 72 last month, and this improvement was thought possibly to foreshadow an improvement in the Government report. The area is 8 per cent less than last year, however, and chinch bugs are reported in the southwestern part of the State. Secretary Mohler, of Kansas, asserts that the condition of 33 will mean a crop of about 25,000,000 bush in that State, which is about what has been anticipated. Hope was expressed that the export demand for wheat would prove a turning factor in the market, but this buying does not yet seem to have importance enough to produce important results. Since Decoration Day the export purchases of wheat have been about 2,200,000 bush, from 500,000 bush, and oats 300,000 bush, as publicly given out. Considerably more than this amount has been done and at the West nearly 2,000,000 bush of wheat have been taken for direct shipment. So good has the demand been that ocean freights have advanced about 4c a bush in the last week or so and room was thoroughly well taken up ahead. The offerings of grain bills on the exchange market have also caused weakness there, making quite a decided feature in the money market. During the latter part of the session trading in wheat was on a small scale, with fractional changes in price. The close was quiet at very nearly the lowest of the day and near the lowest on record. Late cables were quiet, showing a firm tone at Liverpool, but an easy tone at Paris. Cash business was fair, with sales aggregating 196,000 bush, including 184,000 bush for export as follows: No 2 red quoted 1⅜c under July elevator and store, July closed 72¼c, ⅛@⅜c under f o b afloat and ½@¾c under f o b afloat; No 2 red, 88,000 bush, special, ¼@⅜c under July, f o b afloat; Toledo red, 12,000 bush, private terms delivered; No 2 hard winter, 16,000 bush, ⅝@⅞c over July to ⅛c under f o b afloat, spot and special; No 1 Northern spring, 40,000 bush, ⅜c under July delivered; No 2 Northern, 8,000 bush, 3c under July delivered, special; unsaleable, 24,000 bush, private terms delivered.

"The London Times" is quoted to-day as making a special report on the cereal crop in England and Wales, which are below the average in England, but good in Scotland. English wheat 17 per cent and barley 27 per cent below the average; oats are 21 per cent below and Scotch oats 33 per cent above. The feeling is very discouraging and the opinion is expressed that it is the worst season ever known. "The Times" claims that unless there is some change it will lead to general and complete disaster to the agricultural interest. Chicago stocks of grain are as follows:

	June 5, '93.	May 29, '93.	June 6, '92.
No 2 red wheat	3,761,382	3,749,957	149,459
No 3 red	1,629,822	1,683,276	27,359
No 2 spring	12,801,907	12,260,585	4,631,848
No 3 spring	1,017,015	1,038,329	693,919
No 2 corn	1,032,008	1,056,324	516,365
No 2 oats	382,491	242,978	3,059
No 2 white oats	18,282	128,747	339,025

"The Cincinnati Price Current" says: The corn crop position is somewhat improved, though continued drawbacks in various districts. The oat crop has been benefited by recent moisture. The winter wheat condition is maintained—not essentially improved. Spring crop starting well. The week's packing was 180,000 hogs against 385,000 hogs last year. CORN—The market for corn was steady early, developing a weakness later with the decline in wheat. It dropped off about ⅝c and then was dull. Crop news was favorable and the weather is good at the West for the young corn. Cables were quiet, and foreign news is not particularly stimulating, but the market seems to maintain a very steady front, notwithstanding the weakness in wheat. The corn market showed a fairly steady tone in the late afternoon. There was some disposition to buy, and the close was at a rally from the lowest prices. Cash corn was moderately active and about steady at a fractional decline from yesterday. Sales were 30,000 bush, including 16,000 bush for export, as follows: No 2 corn, 46⅝@47c delivered, elevator; No 2 corn, 44,000 bush, 46⅝@47c delivered, and 8,000 bush, 48⅝c delivered, late July; ungraded, 8,000 bush, private terms, delivered. OATS—The market for oats opened higher on the export demand, but with the weakness in corn and wheat flattened out with a moderate volume of trading. There seemed, however, to be a good many orders in the market, and expectation of continued export buying has a very pronounced effect. Foreign markets are firm, and there seems to be every expectation that Europe will want a large amount of feeding stuff during the coming season. No serious is the prospect for hay and coarse grain that during the latter part of May a considerable Government contract for hay was placed as high as $25 a ton. In face of the weakness in corn and wheat oats showed a very firm tone, closing at the best prices for the day. There seemed to be quite good orders in the market, and offerings were moderate. Cash oats were firm with a large local trade, although none reported for export. Total sales were 213,000 bush, as follows: No 2 oats, 90,000 bush, 38⅝@37c elevator, and 37½@38c delivered; No 3 oats, nominal, 36c; No 2 white, options, 39½@c; No 3 white, nominal, 38c; track white, 2½@6c bush above the regular quotations for No 2 white clipped, 1,000 bush, 41c. BARLEY—Out of season. RYE—Market quiet. Quoted 60c for boatloads and 58@60c for carlots. MALT—Market steady and unchanged; Western, 65@85c; two-rowed State, 72½@77½c; six-rowed, 75@80c.

METALS—IRON—The metal market has been quiet to-day and about steady. Interest is now showing any pronounced bad, and transactions run in a very small fashion. Elsewhere the conditions are practically the same, flatness is the position of the South. At Pittsburg there seems to be a heavy tone, and sellers are apparently in the majority. The financial conditions do not improve the situation, making dealers and manufacturers cautious in buying any stock not required for immediate use. Finishing mills are doing fairly well, but are not pressed with orders. Lake Superior coke from 1a quoted there for No. 2 at $12 75; gray forge, at $12 10; charcoal iron, cold blast, at $25 50; Bessemer steel rods, $40; billets, $21 90; new steel rails, $29; wire rails, $1 50; old iron rails, $15. The importation of iron to day was 50 tons; specialties, 720 tons; mail rods, 150 tons; wire rods, 150 tons. ANTIMONY—The market is dull, with French fractionally easier. Ballets is $9 90 bid and $10 asked; Cookesons, $10 50 bid, $10 62½ asked. TIN—The market closed firm, although sales were made at the Metal Exchange 5 points off from yesterday. Spot was quoted $19 10 bid, $19 25 asked, July, $19 15 bid, $19 40 asked, and August, $19 50 bid, $19 70 asked. Transactions were 25 tons, short notice, at $19 30; 25 tons June, sellers' option, to double at $19 25; 50 tons, sellers' option, one day's notice to November at $19 25; 50 tons June, regular, at $19 35. Abroad the market is strong but weaker, closing 5s off on spot and 7s 6d off on three months. Arrivals of tin to-day were 1,000 tons. COPPER—The market closed dull, with July off at $11 at $10 90, 10 points lower than last night, and August 5 points lower. Casting copper was unchanged. Part of the weakness in copper was in sympathy with tin, but belief that negotiations for restricting production will amount to no more than they have during the last month. Exports to-day were 2,313 sacks of ingots to Liverpool. LEAD—The market was easier in tone, closing at $3 85 asked for spot, and $3 80 for July or the off. The exports of lead to-day were 107 tons to London, and the arrivals 12,655 bars from Mexico. At St. Louis the market was 2½c off. SPELTER—Trade was dull, the market closing unchanged from yesterday at $4 30 for spot and $4 27½ for July. St Louis and London were both unchanged. Arrivals to-day were 2,115 plates. Arrivals of tin to-day were 3,324 boxes and 385 tons. The Metal Exchange cables quoted iron as follows: Glasgow closing 41s 2d, a rise of 2½; Middlesboro, 34s 4½d, a rise of 1½d. Copper at London, 43s 7½d, a rise of 7½d for spot; futures, £44 5s, a rise 17½d, a rise of 7½d for spot and 7½d for futures. Tin 5s 4d, at £86 10s spots and futures 7s 6d off at £85 10s. Sales spot were 80 tons, futures 50 tons, with the tone quiet. Tin opened in London this morning 10s higher, but broke quickly. Lead and spelter were unchanged.

MOLASSES—Market steady and quiet. New-Orleans, open-kettle, good, 30@32c; prime, 32@36c; choice, 35@36c; fancy, 38@39c; centrifugal, ordinary, 13@14c; common, 16@18c; fair, 19@20c; prime, 22@24c.

NAVAL STORES—The market for spirits turpentine remains steady. Rosin market rules firm, with a fair demand for low grades; free call for good grades. Stock—Rosin, 30,721 bbls; spirits turpentine, 954 bbls; tar, 3,559 bbls. We quote: Spirits turpentine, 29@c in Southern bbls, and 29c in machine-made bbls. Rosin—Common strained, $1 25; good strained, $1 27½; E, $1 35; F, $1 40; G, $1 50; H, $1 60; I, $2 00; K, $3 25; M, $3 60; N, $3 80; window glass, $4 25; W W, $4 25; tar, f o b, w h, $2; f o b, W G, $2; W W, $2 25; pitch, f o b, w h, $2; f o b, w h, $2 15; pitch, light weight, $1 50; pitch, regular weight, $1 60.

OCEAN FREIGHTS—There was a decided increase in business of ocean freights to-day, the total engagements footing up the largest figures of any day's business on the recent advance. So large was the demand that opinion was expressed that plobably the rush would not be likely to last, as some of the parties taking room seemed to be covering shorts. There were also indications of speculative engagements, as the business in grain for export was not more than a third of the amount of room taken, showing that some parties were willing to anticipate the future. There were about 30 vessels engaged to English and Continental ports, of which details were furnished on about 60. To Rotterdam there were four loads at 9c, and 20 loads at 3s per quarter. To London four loads at 4d and twelve at 4½d from the state. To Hamburg, 6½ loads at 4¾d. To Marseilles, 6½ loads at 4½d. To Genoa, 2c 6d and 5c to Leghorn, one load at 4½d. COUNTRY PRODUCE MARKETS.

New-York, June 8.

BEANS AND PEAS—A line of 400 bags imported pea beans sold to go West at $1 65, and a local dealer bought several lots of choice quality at same price. A very choice line of 300 bags medium sold at $1 60, and other grades went from $1 55 down to $1 40. Not much doing in domestic goods, but the absence of any pressure to sell tends to keep values steady. Offerings of green peas are light. Beans, marrow, $2 50; do medium, $1 90@$1 95; do pea, $1 85@$1 90; do white kidney, $2@$2 15; do red kidney, $2 80@$2 95; do black turtle soup, $2 85@$3; do lima, $2 20@$2 25; do foreign, medium, $1 40@$1 60; do pea, $1 65@$1 75; green peas, bbl, $1 90; do bags, $1 75@$1 85; foreign green, bags, $1 75@$1 80.

BUTTER—Quietness prevailed to-day, but the influences of lighter receipts and disposition to store butter at anything below 20c for fine creamery tended to hold the market steady. Sellers were ready to meet the demand promptly at current rates, but they seemed to have too much confidence in the position to warrant any modification of their ideas of values. Hence, while a little of the day's business in fancy creamery was at 20c, the general trading price for extra quality was at 20½c. The goods are showing up fine, and being full grass, there is a narrow range of quotations; most of the fresh creameries sell at 19@20½c. State dairy half tubs are scarce and in demand, and there is a good steady tone to the Western packings. Creamery, State, 20@20½c; do Western extras, 20@20½c; do firsts, 18½@19½c; do seconds, 17@18c; State dairy, half-firkin tubs, extra, 20@20½c; do firsts, 18½@19½c; do seconds, 17@18c; State dairy, Welsh tubs, extras, 19½@20c; do firsts, 18@19c; do seconds, 16½@17½c; dairy tubs, thirds, 16c; Western imitation creamery, firsts, 16@17c; do seconds, 15@15½c; do thirds, 14½c; Western dairy, firsts, 16c; do seconds, 15c; do thirds, 14@14½c; Western factory, firsts, 15@15½c; do seconds, 14½c; do thirds, 14c.

CHEESE—There was a larger and more general demand to-day for full cream cheese, and the market as a whole can be rated steady. Colored was most sought for, and being in relatively light supply gained a little firmness, a number of the choicest lots selling at 9¾c. Choice white sold at 9¾@9¾c, but dragged a little, and slight defects in make or condition reduced the value to 9½@9¾c. Home jobbers took hold of small sizes better, and there was fair trading at 9½@9¾c. Part skims are still in poor shape; the very choicest lots brand de to a moderate extent, but other qualities, which comprise a large part of receipts, go begging for customers at any price. Sales at Cuba yesterday were 2,500 boxes full cream white, at 8¾c. Liverpool cable, 49@50s. State factory, full cream, large size, colored, choice, 9¾@9¾c; do white, choice, 9¾@c; do fair to good, 8@8¾c; do small size, choice, 9¾@9¾c; do fair to good, 9@9¾c; part skims, Chenango and neighboring counties, choice, 5¾@6c; do common to prime, 2@5c; full skims, ½@1c.

EGGS—Receipts continue heavy, the demand is light and the weakness noted yesterday has become more pronounced, prices showing a decline of fully ½c. Some special marks of Northern are not offered at the reduction, but there is an abundance of fine stock obtainable at 16c to supply all demands, and very fair lots have been offered lower. State and Pennsylvania, new-laid, per dozen, 16½c; Western, new-laid, loss off, per dozen, 16c; Southwestern, loss off, per dozen, 15½c; seconds, per case, $3 50@$3 75.

FRUITS AND BERRIES—FRESH—Apples in light supply, and fancy lots bring full prices. Strawberries in lighter receipt, and cleaning up closely at better prices. Huckleberries a shade firmer. Cherries plenty and lower. Peaches sell fairly when of good size and sound, but many arrive in bad order, and for such there is very little demand. Plums sell readily when choice. Watermelons more plenty, and values unsettled; small sales reported in range of 25@50c each. Apples, Baldwin, per bbl, $3@$4; do russet, per bbl, $2 50@$3 50; do inferior, per bbl, $2@$2 50. Strawberries, Maryland and Delaware, fancy varieties, per quart, 8@10c; common to fair, per quart, 5@7c; do do, South Jersey, per quart, 8@10c; do Monmouth County, per quart, 8@10c. Huckleberries, North Carolina, per quart, 6@10c. Blackberries, Southern, cultivated, sound, per quart, 10@15c; do soft and small, per quart, 6@8c. Cherries, North Carolina, fancy large black, per lb, 12@15c; do white and red, 10@12c; do, medium-size, 7@8c; do, small, 3@5c. Peaches, Georgia and Florida, early sorts, per carrier, $2@$3 50; do, Florida, Chinese varieties, per case, $1 50@$3; do, South Carolina, per 4-flil carrier, 75@$1 25. Watermelons, per 100, $25@$50. DRIED—Nearly a carload of very high grade Western evaporated apples sold for export at 8c; there is a number of other lots are offering at same price, and shippers seem obtainable. Possibly there is a little more urgency to sell in order to avoid storing. Sun-dried apples slow. A sale of prime heavy packed chops is reported at 2¾c. Small fruits slow. Apples, evaporated, fancy, 9c; fancy, 8c; choice, 8½@8¾c; do prime, 8c; do common to fair, 7@7½c; Southern, sliced, 3¼@3½c; State, fine cut, 4@5c; do quarters, fair, chops, 2@2¾c; cores and skins, 1½@1¾c; peaches, Georgia, peeled, 10@14c; raspberries, evaporated, 23@24c; do sun-dried, 22c; cherries, 9@12c; huckleberries, 10@10½c; blackberries, 4@5c; plums, 10@12c.

HOPS—Market firmer, with more business doing. Under strong cable advices shippers are showing fair attention and have paid 22c for some choice States; more could be sold at same price were they available. Fair lots have sold at 20c, and this has induced dealers to buy with making to brewers, and this has induced dealers to buy with making to brewers, and this has induced dealers to buy with a fair demand from the country. Reports from the interior of this State show considerable business at 19@20½c, with 21c paid in a few instances, and to a fancy grade 21c was given to an exporter at 22½c. New-York State, 1892, choice, 21@22c; fair to good, 17@21c; common to good, 15@20c; do 1891, 15@17c; Pacific Coast, 1892, choice, 21
