SELLING FEATURE OF DULL MARKET

Mexicn Petroleum Is Weakest Stock, Declining Almost Three Points.

NOTE—Quotations refiect closing prices Saturday, June 17.

New York, June 17.—Selling of the usual week-end character, induced in part by the crisis in Mexican affairs and the railway labor problem, characterized today's dull session.

Mexican Petroleum was the weakest stock, declining almost three points, with a full point for American Smelting. Among war issues Allouez, Baldwin Locomotive, Crucible Steel and Westinghouse receded one to two points. St. Paul, Reading and Illinois Central averaged one point losses, with more moderate declines in U. S. Steel and the metal group. United Fruit gained almost three points.

The closing was heavy.

Bonds were irregular.

BRADSTREET'S REPORTS TRADE AND INDUSTRIAL OUTLOOK GOOD

New York, June 17.—Bradstreet's review today says:

Trade currents, following the reaching of maximum expansion seem to indicate a further gradual contraction, at least, as regards new buying. But the cancellation, except in a comparatively few lines, number for insistance, is strongly buttressed by filled up order books, which assures activity in industrial quarters for some time to come.

Lower ocean freight rates, enlarged dividends, evidences of renewed heavy buying of cotton for foreign account and the prospecting of a $10,000,000 loan to Russia are also significant features. Notwithstanding that the time for seasonal quiet has arrived, activity in essentials is marked, though unattended, of course, by symptoms of feverish buying such as characterized purchases a while ago. Instead, there has come orderly, steady buying with evidences of a prudent disposition to eliminate on bidding as well as to guard against sudden forward shifts in prices. Weekly bank clearings were $4,476,812,000.

RUMOR OF FOREIGN ORDERS FAILS TO INCREASE COPPER

New York, June 17.—Rumors that foreign buyers' orders were pending in the copper market have not yet been followed by any definite reports of business and resellers are still offering small lots of electrolytic at from 27 to 28 for nearby and forward deliveries.

The quotations of the leading agencies have been maintained, however, at 29 to 29½c for October and later positions.

SPECULATION RESTRICTED ON THE BOURSE IN BERLIN

Berlin, Germany, June 17.—The managing committee of the Berlin Bourse has adopted the outlines of a plan to restrict speculation, which although without official sanction of the Bourse, has grown remarkably active in recent months. The committee ordered that all commissions shall be on a strictly cash basis and with the date of delivery strictly prescribed. Option trading will be prohibited, as will also the circulation privately of price lists.
