TOMBS PRISON KEEPERS DISMISSED.

THE FOUR MEN WHO ALLOWED THE BURGLAR MEYER TO ESCAPE COMPELLED TO GIVE UP THEIR PLACES.

Warden Fallon said yesterday afternoon that the Commissioners of Charities and Correction, at a meeting held in the morning, had dismissed Keepers Cornelius Price, James O'Brien, Laurence Lamb and William Fletcher for carelessness and neglect of duty in allowing the burglar John Meyer to escape from the Tombs Prison on Thursday night last.

O'Brien was the day keeper on the fourth tier and has been in the service of the city for over twenty years. Price was fifteen years in the prison. Fletcher was appointed a week previous to the escape. He was the night keeper on the tier. Lamb was the night watchman in the yard of the prison for four years. Lamb sent in his resignation, but it was not accepted, and he was dismissed as were the others.

Captain John Orr, of the night watch, who is over eighty years old and has been employed in the prison in various ways for twenty-nine years, was informed that he would better send in his resignation at once. As yet there is no trace of the burglar.

THE TRADE IN CHICAGO.

Chicago, June 13 (Special).—Wheat advanced a little over a cent to-day, and held about 3-4. The principal bull motive was the report from New-York regarding the French crop. For some reason or other, neither New-York nor the other side appeared to put any credence in the sensational figures of crop damage in France; but, for the time being, that made no difference to Chicago. July wheat sold from 65 1-2 to 67 1-4, and closed at 66 3-4 cents sellers. The Northwest sent claims of damage by hot winds. But the Northwest reports did not receive the consideration which the so-called "London Times's" French crop report did. The receipts here were sixty cars; the estimate for Wednesday, thirty-two. Corn was very strong at an advance of over a cent. July sold between 38 7-8 and 40 3-4, and closed at 40 3-4 cents. Charters were made for 355,000 bushels. The receipts were 754 cars, but the estimate for Wednesday was only 275 cars. That indicated a big letting down in the movement. There was important buying of both sorts. Wright, with a considerable long line, was increasing it; shipping houses, the principal shorts, were covering. Oats were strong at an advance of 1-2 to 5-8 cent. July sold from 28 1-4 to 29, and closed at the top. June was 7-8 cents over July. Charters were made for 210,000 bushels.

Provisions were unaccountably firm. Ribs and lard, which for a week have been rather hard to sell, became rather hard to buy. Recent big shipments of lard and light receipts might have had something to do with the change in tone. September pork sold between $20 70 and $20 90, and closed at $20 70; september lard between $10 55 and $10 77, and closed at $10 70; september ribs between $9 65 and $9 95, and closed at $9 85. There were 14,000 hogs; the estimate for Wednesday was 14,000.

At night puts on July wheat were 66 1-4c; calls 67 1-2c.

THE METAL MARKET.

IRON—The New-York market for pig iron continues very dull, and entirely nominal. In other markets the same condition of apathy is reported. Advices from Philadelphia indicate that the market there is almost stagnant; buyers are not likely to want much stock for the next sixty days, and the sellers have nothing to offer during the same period. The only business is in the way of small lots at unchanged prices. Steel billets—For June or July delivery the market is firm at $24 delivered to mills nearby; the later months held at $23 50@$23 75. Buyers confine purchases to actual needs. The present firmness is regarded as temporary and due to moderate supplies. Finished material—Market weak and quotations tending downward; very little business and that entirely in the way of small lots; manufacturers are looking forward to a dull period for the next two months and refuse to buy more than they need; sellers are willing to make concessions to secure the trade prices. Old material—In the absence of business prices are quite nominal, with sellers at former figures, and some business reported at lower prices; there is no general pressure to sell. The closing down by the Court of both furnaces of the Lady Ensley Coal, Iron and Railway Co. and the blowing out of the Philadelphia furnace at Florence in addition to the stoppage of orders in the South, and the shutting down of several furnaces in the North during the past ten days, will, according to advices from Louisville, materially reduce production. This, however, will be about offset by the usual summer closing of mills and foundries throughout several sections; so that very little change in stocks or quotations is likely to occur. The following quotations are for cash f o b cars Louisville: Southern coke No 1 foundry, $12 75@$13 25; do No 2 foundry, $11 50@$12; do No 3 foundry, $10@$11 25; do forge, Forge, $10 50@$10 75; Scotch silvery, June, $14 50; No 1 foundry, $15@$16; do car wheel, $17 50@$17 75; spiritle, $11 50@$12 50.

COPPER—The copper market closes dull. Quotations: Spot, 11c; June, 10.80c; July, 10.80c; August, 10.75c; September, 10.70c; October, 10.80c; November, 10.80c; December, 10.80c. SPELTER—The market closes flat for prime at New-York and dull at 4c at St. Louis. New-York quotations: June, $4 27½; July, $4 22½@$4 25; August, $4 22½; September, $4 22½; October, $4 25. TIN—The market closes strong, sales, 80 tons, including buyers' option to July 1, at $20 10; June, $20 05@$20 05; August, $20 30. LEAD—The market for lead closes easier. Quotations: Spot, 3.35c; June, 3.37½c; July, 3.37½c; August, 3.72½; September, 3.72½; October, 3.72½c; November, 3.72½; December, 3.72½. The St. Louis market for lead closes weak at $3 17@$3 20. The following quotations were received at the Metal Exchange to-day by cable: Scotch warrants at Glasgow, 41s 1d; No 3 foundry at Middlesboro, 31s 3d. London quotations: Spot copper, £44 15s; futures, £44 15s. Market steady. Spot lead, £8 7s 6d; three months, £8 5 17s 6d; July delivery, £8 7s. Lead, £8 5s. Spelter, £17 10s. Messrs. James Lewis & Sons, of Liverpool, write under date June 1: The negotiations between European and American producers for an extension of the existing arrangements have not been concluded, two of the parties to the American agreement requiring an increased production. One of these, a Lake Superior company, asking for an increase of 1,500 tons per month, and the other represents the interests of two Montana companies, demanding that any deficiency in the production of the one company should be allowed to be made good by the other company. It has however been decided to continue the monthly meetings of the producers on both sides of the Atlantic, and make returns of the quantities produced, and in course of time it is hoped that these obstacles will be overcome; especially as we are informed that the two chief producers have stated that they will not make any increase upon the quantity already agreed upon, and that the export maximum will not be exceeded. It is manifestly so much to the interest of all concerned that the present limitation of production should continue, giving stability to the trade, that it will be very surprising if some way is not found out of the difficulty which has arisen.
