GENERAL MARKET REPORT.

New-York, June 24, 1893.

COTTON—The market at New-York was controlled by the usual Saturday dulness and the trading was for the most part of a local character. August opened at 7.77 and 7.78, against 7.80 at the close yesterday, and shortly after the opening it sold down to 7.74 and then rallied a little, selling up to 7.83 and closed at 7.81@7.82, thus showing a net advance for the day of 1 point. A week ago to-day August closed at 7.90@8c, a decline for the week of 20 points or so. There were no special features to-day, although the diverse report of "The Financial Chronicle" caused some comment and led the bulls to claim that it indicated that there would be no new crop movement until the latter part of September, and that the crop would be a short one. The report of "The Chronicle" indicated that at some points in the Carolinas and Georgia and the portions of East and South Texas there has been too much rain during the week. In the remainder of the cotton belt the weather has been favorable as a rule and cotton is developing well. The bears claim that this report was at least a negative one and they did not take much stock in it. The Liverpool market was weaker on futures, the net decline for the day being from 2 to 3-64d. Spot cotton was steady but quiet at unchanged prices, the sales being only 7,000 bales.

COFFEE—The coffee market was dull and extremely uninteresting, and the only matter of interest was the buying of July by shorts and their selling September at a difference of 10 points. Thus most of the business was of a switching character, with a very few outside orders in the hands of brokers to-day. The foreign markets did not cut any figure here, though they were all lower. At the opening September sold at 14.95, which was even with yesterday's closing price, while December opened at 14.70, against 14.60 at the close yesterday. The net result of the trading was sales of 7,250 bags.

There are 246,000 bags, total stock in New-York, 176,770 bags, Warehouse deliveries yesterday, 7,598 bags; stock in New-Orleans, 32,311 bags; in Baltimore, 13,204 bags. Spot market closed dull and nominal at 10¼@16¾c for Rio No 7. No business reported.

FLOUR AND MEAL—The flour market has been very dull, with sales confined to 8,000 bbls at prices showing no material change as compared with yesterday's figures. Buyers are pursuing the hand-to-mouth policy which has characterized their actions recently, owing to fears in the way of trouble in getting money, and on every hand caution is being observed on this account. The sales include 600 bbls winter patents at $3 30@$3 40; 500 sacks do clears at $2 50; 300 bbls do extra No 1 at $2 70@$2 75; 210 sacks do at $2 50; 2,500 sacks spring patents at $4@$4 15; 300 bbls do straights at $3 75@$3 85; 300 bbls do clear at $2 50@$3; 1,000 sacks do extra No 1, for export, at $2 75; 2,000 sacks do, no grade, at $1 85. The market for Southern flour is quiet, with sales confined to unimportant lots and prices nominally unchanged. RYE FLOUR—The market for rye flour is dull. Sales, 100 bbls at $3 10@$3 20.

CORNMEAL—Market continues quiet and easy: Brandywine at $2 75; yellow Western, $2 65@$2 75; Southern white, bags, $1 15@$1 25. BAR MEAL—Quiet and nominally unchanged. Quotations: Fine white, $1 06@$1 10; fine yellow, $1 05@$1 10; coarse, 95@97c. FEED—Trade was quiet, $1 05@$1 10; coarse, 95@97c. ..... FEED—Trade was quiet. Quotations: 40-lb, 77½@80c; 60-lb, 77½@80c; 80-lb, 77½@80c; 100-lb, 80@85c; sharps, 95c@$1; rye feed, 80@85c; hominy chop, 87½@90c; cottonseed meal, $1 20@$1 25 per 100 ℔; oil meal, $1 37½@$1 40. Sales, 2 cars of bran at 80c.

WHEAT—The wheat market at New-York opened in a good-for-nothing fashion, eased off ⅛@¼c, rallied ⅜c, and then dropped back to the lowest point of the day, a decline of ¼@⅜c from yesterday's closing figures. There was very little trading, practically no new speculative interest, and the rally of ⅜c in the earlier part of the session was entirely due to covering by the shorts, who scare very easily at present low prices and are not even willing to take chances by going short over Sunday. The subsequent decline to the lowest prices of the day was without special reason; the shorts were filled up, and after that the market had no support, and that is about all there was to it. Advices from the West indicate the same speculative lethargy and the whole situation is featureless, with a dread of scarce money checking investment buying at prices acknowledged to be tempting. The fact that "Bradstreet" make the crop of wheat 450,000,000 bush, allowing for the notorious errors of the Government figures on the last two crops, made no impression. The private cable news was decidedly of a bearish character. Exporters were fairly good buyers of cash wheat, taking 80,000 bush out of total sales of 188,000 bush, as follows: No 2 red in store and elevator, quoted at July price; July closed 71⅞c; 100,000 bush sold at July price to ⅛c over July in store; f o b from store quoted at ⅛c over July and ⅛c under July f o b delivered afloat; No 2 hard winter, 16,000 bush, July price delivered early July; No 1 Northern Duluth spring, 8,000 bush, ⅛c under July delivered; No 2 Milwaukee, 8,000 bush, ⅛c under July afloat; 8,000 bush do at ⅜c under July in elevator; ungraded, 48,000 bush, 3½c under July and private terms delivered afloat. CORN—Business in corn was somewhat ..... as in wheat, the market easing off a little early, but recovering and closing at the best prices of the day on a little buying to cover short contracts by local operators. Crop advices continue favorable, resting both wheat and corn. In the southern parts of the wheat belt the vesting is progressing quite generally, but the yield is uneven and returns are not sufficiently general to furnish a basis for any yield estimates. In cash a moderate business was done, sales being 47,000 bush, including 32,000 bush for export, as follows: No 2 corn, 10,000 bush on private terms, in elevator, quoted at close 48½@48¾c; No 2 corn, 21,000 bush, 49⅛@49⅛c delivered; No 2 corn, 16,000 bush, on private terms, f o b afloat. OATS—The market for oats ruled easier at the opening and failed to recover, as there was no speculative support and the local traders were pretty well cleaned up for a quiet Sunday. The crop news is all that could be desired respecting the outlook of the yield of oats, but the low prices checked business. The trade in cash amounted to 82,000 bush, all for the local trade. No 2 oats, 12,000 bush, 30c delivered; No 3 oats, 2,000 bush, 33c; No 2 white, 39c asked; No 3 white nominal at 38c; track white, 8,000 bush, 38½c to 43½c; track mixed, 13,000 bush, 37½@38c. HAY—Market dull. Quoted 57@68½c for shipping and 70@75c for car lots. MALT—Market steady and unchanged. Western, 73@85c; Canadian, State, 72@77½c; six-rowed, 75@80c. SEEDS—Cloverseed is firm, with sales of 350 bags of prime October at 11.35; No 1 is quoted at 11.62½@11.70. The present strength in seeds is said to be on foreign covering of a small lot.

Bradstreet's exports from both coasts for the week ended Thursday of wheat and flour were 3,553,000 bush, against 3,834,000 bush the previous week and 2,457,000 bush a year ago. The exports of corn were 840,000 bush, against 729,000 bush the previous week. The exports of wheat and flour from July 1 to date have been 186,700,000 bush against 218,100,000 bush last year, a decrease of 31,400,000 bush. English farmers' deliveries this week, 87,000 qrs; average price, 20s 9d, against 26s 11d the previous week. Estimated deliveries all points, 682,000 bush. Receipts at New-York this week were: Wheat, 1,737,400 bush; corn, 235,700 bush; oats, 641,550 bush; barley, 6,200 bush; rye, 21,300 bush; flour, 60,170 bbls and 125,372 sacks. Receipts at interior points this week have been: Wheat, 2,189,000 bush; corn, 2,530,800 bush; oats, 2,885,000 bush. Exports from four Atlantic ports: Flour, 207,100 bbls; wheat, 1,053,700 bush; corn, 566,700 bush. Interior receipts for 52 weeks ended to-day have been 236,536,000 bush of wheat, against 245,896,300 bush last year.

OCEAN FREIGHTS—There is continued inactivity as to berth freights to transatlantic ports; this is chiefly due to the scant supply of room, which also makes rates steady, as they are likely to remain for the next month. For all grain cargo freights are scarcely so firm, as steamers are offering more freely. Near freights show firm rates; the regular liners have all they can do. South American freights are doing a little better, but in West India freights business is very dull. For coastwise lumber freight rates are steady, with moderate business. Cha tering business is moderate. Quotations: Grain from New-York: Liverpool, 3½d; London, 4½; Antwerp, 4c; Newcastle, 4½; Bristol, 4; Leith, 4½; Hull 4½; Glasgow, 3½; Cork, f o, 3s 3d; cotton, 5d; petroleum, direct port, 5s 0d@5s. Oils—There was no disposition manifested to-day to trade in cottonseed oil, and the attendance of brokers on "change at the noon hour was very light. Prices were practically as they were yesterday, the nominal basis being 37c to 38c for prime crude, and about 41c for prime summer yellow. Lard oil remained dull and nominal at 75c, though it is probable that some oil could be bought at a lower price. Saponiffed red oil was inactive, the nominal price being 5½@5¾c. Sperm and whale oils were quiet, but about steady; neatsfoot oil was full and nominal; linseed oil was selling only in a jobbing way, as buyers were disposed to purchase only as the exigency of their business demanded.

PROVISIONS—The New-York market for provisions has been exceptionally dull, in sympathy with the extreme apathy in the West and some tendency toward lower prices, consequent upon the slowness of business rather than upon any pressure of supplies. Advices received at Chicago under some resulting on long contracts advises from there say that the bears are manifesting a good deal of caution at the present low prices and it is hard to get up a short interest. In the New-York market there has recently been a small business in cash lard at $9 45, with $10 asked, the market closing dull. PORK—The market continues dull and about steady, sales, 150 bbls mess. Quotations are: New mess, $19 50@$19 75; short clear, $20@$21 50, and family, $20 50@$21. Sales were 160 bbls of mess. BEEF—Market dull and steady. Quoted: Family at $11@$12; extra mess, $9; extra India mess, $18@$17 in tcs. BEEF HAMS—Quiet. Quoted: $17@$17 50. BUTTER—So much stock has been withdrawn from current sale during the week on purchases to go into cold storage that the requirements of regular trade, though moderate, have kept receipts sold up very closely. To-day, with light arrivals, nearly all kinds and qualities are going out in good shape, and the market shows a firm tone throughout, without, however, any further advance in prices. CHEESE—Stock cleaned up closely yesterday, and the feeling to-day was steady on fancy parcels, though the usual Saturday's quietness prevailed. No really fancy offered could be bought below 9½c, and fancy dealers of white was inquired for at 8½@8¾c. Under grades of colored held about as previously quoted, but while are neglected and easy. A good many small size full cream are unsold, and 9½c has become a full outside rate, some nice lots selling at 9c. Part skims close quiet, and while choicer lots are steady at 5c, very much off grade stock has to go at 3@3½c. Exports to Europe until 8 am this week, 45,781 boxes, Liverpool cable, 45@49s. EGGS—Receipts again very light, and the upward tendency continues, prices showing a further gain of ½c to-day and closing strong for the moment. But it is believed that present prices will draw larger supplies—possibly in excess of the quantity required by dealers on the basis of current quotations. State and Pennsylvania, new-laid, per dozen, 16½@17c; Western, new-laid, loss off, per dozen, 15½@16c; Southwestern, loss off, per dozen, 15@15½c, seconds, 14@15c.

FRUITS—FRESH—Small, common apples are slow sale at low prices; fancy large would, however, sell very well. A few Tillotson peaches in to-day are selling fairly at $2@$2 50 per carrier; small or soft fruit is neglected, but fancy large varieties would bring good prices. Plums mostly of small variety and such dull; fine large Wild Goose wanted. Strawberries opened at high prices, some of the first arrivals reaching 18@20c per quart for fancy quality, but a good many came in late, for which prices had to be reduced to a range of about 10@16c. Huckleberries firm. Fancy raspberries from yesterday's receipts were in such a light supply; many of yesterday's receipts were in such bad order as to be unsalable for cost of freight, and some were seized by the Health Board; fancy stock in demand. Apples, Astrachan, Southern, new, per carrier, $1@$2; do North Carolina and Virginia, Harvest, choice, per bbl, $1 25@$1 75; do North Carolina, common, green; per crate, 50@75c. FRUITS—DRIED—Evaporated apples are dering quite freely, and the feeling is weak. There is considerable inquiry for them from the West, but most of the bids are below holders' views. Exporters are taking very few, and the home jobbing trade is light. Some call for sun-dried apples, but stock light, and buyers have difficulty in finding the grades wanted. New cherries offering by sample at 10c; old stock very dull. Other small fruits nearly out of stock. Apples, evaporated, fancy, 8½c; do choice, 7½@8c; do prime, 7¼@7½c; do common to fair, 6@7½c; Southern, sliced, 3½@5c; State, 4@5c; quartered, 2@3c; cores and skins, 1½@1¾c; peaches, Georgia, peeled, 28@30c; raspberries, evaporated, 21@22½c; do sun-dried, 22@23c; pears, 8@10c; huckleberries, 10@10½c; blackberries, 4@5½c; plums, 10@11c.

HOPS—The market holds firm under reserved offerings and firm advices from the country as well as across the water, but the movement here is not large at the moment. The week's exports foot up 1,731 bales, most of which were purchased in the interior. Shippers are trying to buy a little cheaper but still want hops. New-York State, 1892, choice, 20@22½c; prime, 21@21½c; common to good, 18@20c; Pacific Coast, 1892, choice, 21@22c; common to prime, 18@20c; old olds, 5@8c.

HAY AND STRAW—Market quiet and without further change. Large contracts for outgoing freight have been made for shipments to Europe and with unfavorable reports from the growing crop in all easterly sections the outlook for shipping qualities seems favorable. POULTRY—ALIVE—There was call for the few small lots in to-day by express and with the exception of turkeys all kinds of weighing stock were firm. Fowls were easily placed at 11c, and most of the spring chickens sold at 16@20c. Old roosters wanted at 7c. Turkeys remain very dull. Geese steady. Ducks drazging. Onions firm. String beans plenty and weaker. Southern cabbages have been in bad order and of very irregular value; nearly stock steady. Cucumbers plenty, dull and easy.
