WHOLESALE PRICES OF COUNTRY PRODUCE.

For the week ending June 27, 1893.

BEANS AND PEAS.

Receipts for week—Beans, 3,087 bbls; peas, 3,580 bush. Exports—Beans, 388 pkgs; peas, 472 bbls. Imports—Beans, — bags; peas, 200 bags. It has been a quiet, firm market. Domestic stock has come forward slowly, and the tenor of country advices has encouraged a confident holding of all kinds. The home jobbing trade is usually light at this season of the year, and the demand from exporters is quite moderate. Recent sales of choice marrow have been mainly at $2 60, and it would now be difficult to buy for less. Best marks of medium and pea, when wanted, bring $2. Small lots of white kidney have sold for export at $2@$2 05, and shippers have taken a few hundred bbls of red kidney at $3. Yellow eye firmer. Turtle soup slow. California Lima in moderate jobbing demand and steady. Foreign beans working out steadily at full prices, especially choice pea. About 1,000 bags imported medium sold at auction to-day at $1 35@$1 45. Green peas slow and weaker.

BUTTER.

Receipts for week, 47,074 pkgs; exports, 1,091 tubs. There has been a gradual hardening of values all along the line. Supplies have shown no increase to speak of, and the firm reports from other markets have helped to strengthen holders' views here. Trade has not been large, at times showing some dull spots, but the strong influence exerted by those who were long on June butter has forced prices up 1@1 1-2c per lb. At the close fancy Western creamery is selling at 21 1-2@22c, latter extreme, but obtained often enough to warrant the quotation. Some butter is still going into cold storage, partly on shippers' account and partly on speculative purchases, but there is much less inclination to put goods away to hold on the present basis of values. Late receipts have shown some hot weather defects, and buyers are drawing the lines sharply on quality. Firsts have advanced to 18 1-2@20 1-2c, the highest grades closing quite firm, and lower sorts range from 12c down to 17c. Fair receipts of creamery are coming from this State, quite a number of creameries preferring to ship fresh than to pack. Tubs command as much money as Western goods, but pails generally sell 1-2c less. Moderate supplies of State dairy are received, but the butter is mostly from small, second-rate dairies, and of irregular quality: bulk of sales at 18@20c, but fancy half tubs are wanted at 21c. Imitation creamery sells readily at 17 1-2@18c when choice, and a few special marks bring 1-2@1c more. Western dairy in demand and firm. Receipts of factory are unexpectedly light and under quite a brisk trade, prices are higher and firm. Two cars of fancy firkins sold at 17c, and ordinary to fancy tubs bring 15@16 1-2c. The dry weather in Great Britain is bringing out some orders.

CHEESE.

Receipts for week, 61,179 boxes; exports, 45,270 boxes. Foreign orders have run more on to white cheese, and with moderate offerings of these prices have improved gradually, to-day's business being at 8 7-8@9c, for fancy, generally the latter figures for superlative quality. Many of the lots still show natural color, but these do not figure quite so heavily in the receipts, and buyers take them at a moderate shading of cost, say from 8 1-2@8 3-4c for good to fine. Colored has changed but little. The relatively high country cost has made a struggle to get some margin, but a good deal of the week's business has been without profit. Exporters have had cautionary advices and have figured closely, and while some of the pet factories have sold at 9 3-8c, the general trading price over the iron has been 9 1-8c, with useful stock selling at 8 3-4@9 1-8c. Small size full have been over-plenty and weak; store trade for fancy quality at the close is at 9 3-8@9 1-2c generally, but no round lots could be placed above 9 1-4c. Chenango County part skims have had rather better sale during the week, and while values are unimproved stock has closed up more closely. Choice lots close steady at 5c. Late country markets are as follows: Watertown, 4,000 boxes at 8 5-8c; Canton 4,100 boxes at 8 1-2@8 5-8c; Utica, 8,608 boxes at 8 1-2@9c, ruling, 8 7-8c; Little Falls, 8,260 boxes at 8@9c; and the Cloverfield and Sandusky combinations sold at 9c. EGGS.

Receipts for week, 941 bbls; 39,001 cases. The market continued in sellers' favor following our last report, receipts running quite light and the demand fair. By the end of the week best grades of Western had reached 15 3-4@16c. So far this week arrivals have been moderate, and advices of stock in transit indicate moderate supplies to arrive for the balance of the week, but prices have now reached a point high enough to induce some of the larger dealers to use stock from cold storage, and the demand for current receipts being thus reduced, supplies are proving ample for all requirements, prices holding firm, but showing no further upward tendency.

FRUITS AND BERRIES—FRESH.

Fine large and well selected harvest apples would sell well, but we see none. There are plenty of small and common, for which any decent offer is gladly accepted, such being liable to seizure by the health officers. Southern Le Conte pears, mostly windfalls, are dragging at about $1 50@$2 50 per bbl, and 50c@$1 per crate; a few hand-picked of medium size reach top quotations, and fancy large would bring a premium. Choice free-stone peaches wanted at good prices; common early sorts dull and irregular. Wild goose plums scarce and firm; soft lots and all small common kinds neglected. Florida grapes, mostly inferior; no demand for such, but fancy would sell well and might exceed quotations. Strawberries advanced sharply late last week, but are now plentier and lower. Raspberries easier. Watermelons very irregular; fair demand for large and sound, but many arrive in poor order.

DRIED FRUIT.

Receipts for week, 500 pkgs; exports, 1,740 pkgs. Evaporated apples are having very dull sale, and under quite a strong pressure to close out the remaining lots; the market is decidedly weak. Fancy fruit is jobbing at 8 1-2c, very rarely a fraction more; choice can be bought at 8c, and prime at 7 3-4c. The carload that arrived to-day was for export direct. Sun-dried quiet and unchanged; not enough stock left to worry over. Chops steady. Cores and skins neglected. Raspberries would sell, if here, at full prices. Samples of new cherries are shown for which 10@12c is asked.

HOPS.

Receipts for week, 2,311 bales; exports, 1,731 bales; imports, 5 bales. A pretty good shipment will be made to Europe again this week, but we do not hear of many new orders now in hand. English markets have been quieter of late, and crop reports seem to be a trifle brighter. Our market has changed but little during the week. Trading continues light, but the inability to buy stock much cheaper in the country tends to make a steady holding.

POULTRY.

The low prices that prevailed for live poultry for two weeks were disastrous to shippers, and stock was either held back or turned to other distributing points. This has given us so much lighter receipts for the past few days that the market has taken a sharp upward turn, fowls showing most improvement.

The decline in dressed fowls noted last week caused a close clearance of stock, a good many lots being taken to go into cold storage, and late in the week prices recovered to 10 1-2@11c. This week's moderate receipts have given a firmer tone, and at the close prime fresh lots are firm at 12c for dry-picked and 11 1-2c for scalded. Spring chickens are in moderate supply, fair demand, higher and firm. Turkeys doing a shade better. Long Island spring ducks in fair demand and firm. Squabs dull.

POTATOES AND VEGETABLES.

Southern new potatoes advanced immediately following last report, prices reaching $3@$3 50 for fair to choice rose, and $2 50@$3 for red stock, but later in the week excessive supplies caused a decline of 75@$1 per bbl. This week, though receipts have been very heavy, the demand has been active and prices have made a slight recovery, closing firm as quoted. Onions firm. Southern cabbages largely in poor order and show wide range; choice near-by lots firm. Good string beans firm; poor lots neglected. Cucumbers in large supply and easier. Tomatoes a shade firmer for choice bags and well-colored lots.

SUNDRIES.

NUTS—Peanuts dull; quoted at 5 3-4@6c for fancy hand-picked, and 3 3-4@4 1-4c for farmers'; Spanish shelled dull at 3 3-4@4c for No 1; No 2 quoted at 1 3-4@2c; Virginia No 1 shelled at 3c, and No 2 at 1 1-2@1 3-4c.

BEESWAX—Quiet; Southern quoted at 25 1-2@26 1-2c for large lots, with smaller sales higher.

MAPLE SUGAR—New bricks nominally quoted at 7@7 1-4c per lb, with demand quiet. Syrup dull at 70c per gallon can.

MILK AND CREAM.

The daily average receipts of milk and cream at the different railroad distributing points in and near the city for the week have been as follows: Erie, 5,254 cans of milk, 23 cans of condensed milk and 359 cans of cream; Susquehanna, 1,888 cans of milk and 125 cans of cream; Pennsylvania, Poughkeepsie and Boston, 90 cans of milk; Lackawanna, 4,425 cans of milk and 40 cans of cream; New-York Central and Harlem, 2,186 cans of milk, 78 cans of condensed milk and 16 cans of cream; New-Haven and Hartford, 850 cans of milk; Ontario and Western, 3,315 cans of milk and 265 cans of cream; West Shore, 1,510 cans of milk and 15 cans of cream; New-Jersey Central, 285 cans of milk and 15 cans of cream; and by miscellaneous short routes, 1,700 cans of milk and 65 cans of cream. The total daily supply has been 22,469 cans of milk, 176 cans of condensed milk and 940 cans of cream. The average price paid for the surplus on the platform has been $1 10 a can of forty quarts.

GENERAL MARKET REPORT.

New-York, June 27, 1893.

COTTON—The New-York cotton market presented no very interesting features to-day, and after opening at 7.72 for August, a decline of 7 points, it sold off 2 points more and then rallied to 7.78, or within 1 point of yesterday's close. From 7.78 it went off 3 points, but at noon sold at 7.77. The market closed with a net advance of 3 points or 80. Liverpool was the controlling force to-day, that market showing considerable weakness, the net decline for the day being from 3-64d to 5-64d, the market, however, closing steady at the decline. Spinners were not taking much cotton, the sales on that account footing up only 8,000 bales with prices unchanged and middling uplands quoted at 7.16d. The imports were 7,000 bales, of which 4,000 bales were American. Private cables said that the decline was due to the silver troubles in India. Outside of the fact that it had an effect on Liverpool our market would probably not have been moved by the troubles there. Trading here was moderate and of a local character. There was more rain in the cotton belt than there has been for some days past. Atlanta, Augusta and Mobile reported a trace, while at Memphis the fall was .05, at Montgomery .01, and at Little Rock and Wilmington .05. There was considerable covering by shorts and the demand on this account caused a firm market during the afternoon.

Opening, range and close to-day, and closing bids the previous night and last year follow:

COFFEE—The New-York coffee market was without interest, the opening sales showing an improvement of about 5 points, and at noon these prices still obtained, July being quoted at 15.30, September at 15.15, December at 14.90. Sales up to the noon hour were 3,750 bags. The close was about even with yesterday's. The foreign markets were higher. Notice was posted on 'Change of the inability of M. L. Bandel, of Baltimore, to meet his mercantile obligations. At the time of the Barr failure, Barr & Co. were doing the business on 'Change for Mr. Bandel, and at that time he was sold out under the failure. He is a member of the New-York Coffee Exchange, and as there were still some outstanding obligations unsatisfied, he was posted according to the rules of the exchange. This posting, however, had no effect on our market.

GRAIN—WHEAT—The market for wheat at New-York opened lower this morning, following the weakness in the West, which was due to the absence of any further buying against short contracts, the short interest being now pretty well cleaned up yesterday. At the same time, crop news was bearish, the State crop report in Kansas was regarded as favorable, new wheat from Missouri was commencing to arrive in St. Louis, Duluth was urging wheat for sale, everybody was afraid of tight money and there seemed nothing left to bull the market on, excepting the large interest in short contracts, which showed the significance of the low price was appreciated, but the dread of money difficulties took the courage all out of trade. In Chicago there was a mild day rally in grain, which carried prices up a little, but still later the market there slumped and in the early afternoon was weak on late private cables from Paris and Berlin. The trade here is trying to think that wheat will do better, with gold coming in this direction from Europe, as the result of recent exports of cotton and grain, but no sooner do the friends of grain under take to back up their faith in the market than along comes a budget of financial rumors from Minneapolis to take the
