BEWARE OF LOOSE LENSES

To the unlitiated, it may seem that a loose lens is a trivial affair. And in some cases it is.

But with some eye defects having the lenses in the correct optical position before the eyes is of great importance. The above illustration plainly indicates what happens when the lens becomes loosened.

We are glad to make little adjustments such as lightening a lens or replacing a screw without charge. Just drop in any time, even though you did not get your glasses here.

LOCAL AND PERSONAL

Stanley Marks visited in Lynden last week before leaving to enter the University of Washington.

The Amphiction Club will meet with Mrs. Walter Sommers Friday afternoon, Sept. 15.

That the land in the Colville reservation is so poor that even the winner of the third prize in the government drawing would not take up his claim, is the report of Frank Hawley, who returned last week from Colville. Hawley went over to see whether it was worth while to take up the claim he had won, but decided against it as he says better land with less stones could be found on the top of the Cascades.

Joe Nicewander was a visitor in Lynden this week.

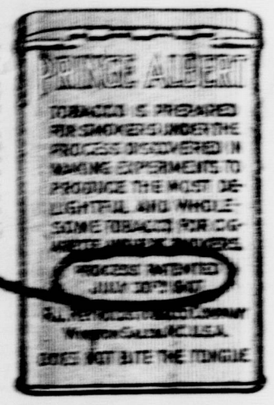
Prince Albert gives smokers such delight, because

—its flavor is so different and so delightfully good;
—it can't bite your tongue;
—it can't parch your throat;
—you can smoke it as long and as hard as you like without any comeback but real tobacco happiness!

On the reverse side of every Prince Albert package you will read:
"PROCESS PATENTED JULY 30TH, 1907"
That means to you a lot of tobacco enjoyment. Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

PRINCE ALBERT
the national joy smoke

You'll find a cheery howdy-do on tap no matter how much of a stranger you are in the neck of the woods you drop into. For Prince Albert is right there—at the first place you pass that sells tobacco! The toppy red bag sells for a nickel and the tidy red tin for a dime; then there's the handsome pound and half-pound tin humidors and the pound crystal-glass humidor with sponge-moistener top that keeps the tobacco in such sweet-to-smoke condition.



in goodness and in pipe satisfaction is all we or its enthusiastic friends ever claimed for it!

It answers every smoke desire you or any other man ever had! It is so cool and fragrant and appealing to your smokeappetite that you will get chummy with it in a mighty short time!

Will you invest 5c or 10c to prove out our say-so on the national joy smoke?

This is the reverse side of the Prince Albert tidy red tin. Read this "Patented Process" paragraph twice and realize what it means in making Prince Albert so sweet to your tongue.

Maxwell

$595 F. O. B. DETROIT

Maxwell motor cars have demountable rims and the same size tires on both front and rear wheels.

REMEMBER these important features, because they are not to be found on some of the lighter cars. Maxwell cars have 3½ in. tires all around. This is a generous size. The tires are not overtaxed. They last longer and make riding easier.

Tires of one size mean that you have to carry only one size casing and one size tube.

Demountable rims, of course, are recognized as the best. They are on *all* good cars. Don't buy any car without demountable rims. If you do, you'll regret it.

These two features—along with the other complete and up-to-date equipment; the economy and proved endurance of the Maxwell, make it *the greatest automobile value in the world today.*
