GENERAL MARKET REPORT.

New-York, June 30, 1893.

COTTON.—The market was about 8 points higher for the day, but very quiet. The first sales were made at an advance of several points, but during the latter part of the session prices eased off a little. Outside of an advance of 2-64d in Liverpool futures, and sales of 8,000 bales of spot cotton, which is considered a good average, there was apparently no general reason why the market should have advanced. The improvement at Liverpool was not expected. Crop reports were in the main good. Attention seems to be directed to what are considered by many to be a comparatively low range of prices in this market. There was not much cotton for sale, and there was a considerable demand for it from local traders during the earlier part of the day, though as the session neared its close the demand fell off and there was extreme quietude, the ring at times being almost deserted. No outside orders of consequence were received and the current sales were on local account. A few of the more prominent traders did most of the business. It was remarked on "Change that cotton is holding up very well considering the depression that prevails in other markets and the financial distress that prevails throughout the country. The first bale of new crop cotton has been received at a Texas town. The price of August cotton at the opening was 7.73c, which was even with yesterday's closing price and within an hour after the opening had advanced to 7.80c, but at 1 o'clock had fallen off to 7.70c. The first bale of the new crop of 1892-93 was shipped yesterday from San Diego, Duvall County, Texas to Houston. This is the earliest new bale on record from that section. Crop advices show an improvement in Mississippi, Arkansas and Texas. In Alabama the weather is rather more favorable and the plant is progressing; but in the Atlantic States complaints are still received of showery weather, small stands and a backward plant.

COFFEE—The coffee market was devoid of interest and trading was meagre. Up to 1 o'clock sales were only 3,500 bags. At that hour September was selling at 15.45c, October at 15.40c and December at 15.15c. The London market was lower, but Havre and Hamburg were higher. It is said that the visible supply on the 1st of July will show a decrease of from 200,000 to 250,000 bags. The warehouse deliveries at New-York yesterday were 7,159 bags. Our market was about 15 points better for the day, closing firm. Total sales to-day, 10,500 bags.

All of the principal coffee houses on the Street have signed an agreement to close their offices on July 3. Rio and Santos markets were closed on account of holidays. Havre closed ¼@¾ fr higher; London unchanged to 6d lower, and Hamburg unchanged. Advices received in Amsterdam cable to-day said that the amount afloat from Java and East for Europe was 22,000 bags; for the United States during last month, 1,000 bags. The total stock of Brazil coffee in the United States to-day is 215,621 bags; afloat from Rio, Santos, etc, 227,000 bags; total stock in New-York, 165,044 bags. Warehouse deliveries yesterday, 7,159 bags; stock in New-Orleans, 30,494 bags; in Baltimore, 20,083 bags. Spot quoted at 16½@16¾c for Rio No 7. One bid was said to have been as high as 16¾c, but the coffee was extra fine, and this does not represent the market. No business could be traced, and the market at the close was more or less nominal. Mild coffee is still being shipped to Europe, attracted by the higher prices ruling there. The last shipment reported was 1,800 bags Maracaibo.

DRUGS—The market has ruled quiet but about steady for nearly all kinds of drugs. Opium is selling only in small parcels, at from $2 60@$2 70 for one-pound tins. Powdered is selling in a small way at about $3 50@$4 00. Quinine ruled dull at 38½@38¾c for domestic. Essential oils rule steady but quiet.

FISH—The market for mackerel was quiet but about steady. Box herring was quiet with prices as last quoted. Codfish ruled quiet. We quote: Shore mackerel, fat, $3; No 2, $18@$20. Salmon—Very choice, $23@$24; No 1, $22@$23; No 2, $18@$20. New large pickled, $14 50@$15. Box herring—Medium sealed, 13@13½c. No 1, 16@16½c; lengthwise, 12@12c. Extra fine herring—Labrador, new, $5 50@$6; Portland round, nominally, $5@$5 50. Scotch herring, medium, 20@$8 25. Scotch, large full, $10 50@$11; Holland Matjes, 65c in kegs; white hoop, $8 25 in bbls, 55c in kegs; Holland, dark hoop, $7 in bbls, 45c in kegs. Codfish—Large size, 6¼@6½c; medium size, 4¾@5c; boneless, 6@6½c; boneless hake, 4@4½c.

FLOUR AND MEAL—The flour market has been exceptionally irregular; quite a good deal of business has been reported on the sub rosa basis and behind the phrase "private terms" it is understood that a good many concessions on the part of the seller to the buyer have been covered. The rank and file of the holders of flour have concluded that there is no use in undertaking to force business in the present unsettled form of the market. But for all that there is a general anxiety to turn flour into cash, and the market closes very weak. The best demand is for low grades for all outports. The sales to-day amount to 30,000 pkgs, including of winter wheat flour 600 bbls patents at $3 00@$4; 2,400 bbls straights at $3 15@$3 35; 500 sacks straights at $3 15; 400 bbls clears at $3; 300 bbls extra No 1 at $2 90@$2 65; 300 bbls extra No 2 at $2 50@$2 60; 1,300 bbls low superfine at $2 20; 150 bbls superfine at $2 40, and of spring wheat flours, 1,500 bbls patents at $3 85@$4 10; 100 bbls straights at $3 40; 1,350 bbls clears at $2 50@$2 75; 500 sacks extra No 1 at $2 05; 150 bbls do at $2 50. The wholesale trade in Southern flours continues quiet and nominally unchanged, closing weak. RYE FLOUR—The market for rye flour has been dull and heavy, with sales of 550 bbls at $3@$3 20. There are now 18 steamers on the way to New-York, together bringing about 70,000 boxes of Mediterranean oranges, and about 163,000 boxes of Mediterranean lemons; also to New-Orleans, 1 steamer with about 22,500 boxes lemons; also in Boston, 2 steamers with about 9,700 boxes of oranges and 59,300 boxes of lemons, and 1 steamer at Philadelphia, bringing about 22,000 boxes lemons. We quote: Bananas, fir ts, $1 25@$1 62½; seconds, 75c@$1 12½; pineapples, $5@$14 for sugar loaf; $12@$12 per 100 for strawberry; cocoanuts, $4@$5 per M; Almeria grapes, per bbl, $5@$12—latter for fancy; lemons, Sicily, fair to fancy, $3@$6; oranges, Sicily, $2 75@$3 25.

GRAIN—WHEAT—The dull moralization in the grain markets at New-York continues with unabated force, owing chiefly to the great distress experienced in securing funds. The rate for money this afternoon is 25 per cent, but at that rate money was getable, and to that extent the money market was better. However, the financial situation is very complicated still and is the direct cause of prevailing depression in this department of trade. Exporters seem to be showing more interest in cash grain, but are nevertheless careful when it comes to buying, as the nearby deliveries seem to be getting weaker all the time. Thus, the difference between July and December wheat in this market has increased to 11½c, a discount never before witnessed; while the difference in the Chicago market is still proportionately greater—July, as compared with September, being at a discount of 7c. The whole situation turns on the ability of the trade to get money through the usual channels to conduct their business. Under these circumstances very little attention is paid to crop advices or to cable information; as far as these have had any bearing they have been against any recuperation, cables being weak, crop accounts being even more favorable than they have been, harvesting being reported as progressing rapidly and now arrivals being reported at Western points, notably at St. Louis, where receipts are reported as showing up well as to quality and commanding 61@62c a bush. This afternoon the market shows some rallying force as to the more remote deliveries, but as yet the shorts seem to be about the only buyers. In the afternoon the market was stronger, regaining nearly half the morning decline. The feature of strength was the report from Chicago that Armour was buying July and selling September at a difference of 7@7½c. The difference between July and September here, which was 7c this morning, widened during the afternoon to 9c. Just before the close the market suddenly turned weak and closed unsettled at ⅛c above the lowest point. Sales were 281,000 bush, including 100,000 bush for export, as follows: No 2 corn, 25,000 bush, 47¾c and July price in elevator; July closed, 47½c; No 2 corn, 8,000 bush, 48¾c or 1c over July delivered.....OATS—There has been a tolerably steady market for oats, at least as to undertone, although the great depression in wheat seems to influence all other cereals more or less, and speculation in oats is slow. In the afternoon the market turned easier, but finally closed steady, with sales of 94,000 bush as follows: No 2 oats, 65,000 bush, 31½@31¾c elevator, 35¼@35¾c delivered and 31¾c bid for elevator; No 2 oats, 2,500 bush, 32½c; No 2 white, nominal, 37½c; No 3 white nominal, 33½c; track white, 22,000 bush, 33½@43c; track mixed, 4,000 bush, 31½@36c.....MALT—Market nominal at unchanged prices. Western, 60@82c; two-rowed State, 65@75c; six-rowed, 75@80c.....SEEDS—Clovers continues firm.

MOLASSES—As with most of the other markets molasses is feeling the effects of the approaching holidays, for few brokers will be down Monday, and the usual dullness is thus intensified. No increase in business is looked for until the latter part of next week. New-Orleans quoted: Choice, 50@55c; good, 40@45c; prime, 35@38c; fancy, 28@29c; centrifugal, ordinary, 13@14c; common, 15@16c; fair, 19@20c; prime, 22@28c.

NAVAL STORES—There was more for spirits turpentine ruled quiet but steady. Rosin was quiet and steady for low grades, with low grades nominal. Tar and pitch were dull. Stock—Rosin, 28,233 bbls; spirits turpentine, 1,375 bbls; tar, 3,417 bbls. We quote: Spirits turpentine, 36@37c in southern bbls, and 39c in machine-made bbls. OCEAN FREIGHTS—There has been rather a more active inquiry for full cargo steamers at quotations lately current; the further let-down in the price of wheat leading exporters to look for room in anticipation of buying grain on shipment. There were taken to-day five loads grain to London at 4¼d; one load to Liverpool at 4¼d, which is ¼d advance; seven loads grain to Antwerp at 4¼d, four loads to Copenhagen at 5s 6d. Business in the way of miscellaneous freights is very much hindered by the stringency of the money market, as the outward movement of merchandise waits for a more reasonable borrowing capacity for the various commodities that are now anxiously waiting shipment. Business in the line of charters is rather more satisfactory. We note as follows: Steamer, 1,716 tons general cargo New-York to Continent, about 15s; bark, 580 tons Philadelphia to Havana, lump sum; steamer, 11,000 quarters grain Philadelphia to Sound port, 3s 6d, or Stettin, 3s 9d; steamer, 10,000 quarters grain Baltimore to Rotterdam, 2s 10½d; steamer, phosphate rock Charleston Harbor to Continent, 17s 6d; ship, 13,000 quarters grain, New-York to Penarth Roads for orders, 28 7½d; steamer, 980 tons time charter, $550 per month; bark, 2,700 bbls petroleum, New-York to Cork, 2s 2d; bark, 3,300 bbls petroleum, New-York to an Irish port, 2s 1½d; bark, 2,851 tons wheat, San Francisco to Cork for orders, 22s 6d; bark (to arrive), 40,000 cases petroleum, New-York to Java, 19, 20@21c; ship (to arrive), 80,000 cases petroleum, New-York to Calcutta, 15c; bark, 788 tons general cargo, New-York to Chili, $1,200; schooner, salt, New-York to Fernandina, 90c, and back with lumber, $5 37½; schooner, salt, New-Castle to Wilmington, N C, $1 25; schooner, lumber, Nassau to New-York, $5 25; two schooners, coal, New-York to St John, N B, 80c.

OILS—The market for cottonseed oil was somewhat firmer, crude being quoted on the basis of 27@28c for prime and prime summer yellow quoted at 40@43c, but there were no important sales. There was, however, some demand for small lots. Lard oil was dull and nominal at 75c. Sperm and whale oils were quiet and without material change. Neatsfoot oil quiet and steady. Linseed oil steady, with moderate demand.

PROVISIONS—The market for provisions is quite neglected, and there is very little change to be noted. Talk of manipulation of September lard in Chicago for one thing checks speculation, but apart from that the commission men have all they can do to look after the wheat end of their business. PORK—The market is quiet and easy at unchanged prices, with sales of 150 bbls mess. Quotations are: New mess, $19@$19 50; short clear, $21@$21 50, and family, $20@$20 50.....BEEF—Market is quiet at unchanged prices. SUGARS—Quotations on raw: Centrifugal, 96 test, 4⅜c; muscovado, 3¾c; molasses sugar, 3 7-16c. A better tone was observed all through the market to-day owing to the strong cable advices. No business was noted, but it was reported that refiners were in the market after it was reported that refiners were in the market after sugar, but could come to no terms because of the extreme views of holders, who are asking 4½c for centrifugal. Refined more active and firm, with grades from No 6 down advanced 1-16@⅛c. Quotations: Cut loaf, 5.81@6c; crushed, 5.81@6c; powdered, 5¼@5.94c; granulated, 5⅛@5.56c; fine do, 5⅛@5.56c; coarse, 5⅛@5.81c; XXXX powdered, 6@6.13c; nonid A, 5.56@5⅛c; diamond A, 5⅛@5.56c; confectioners' A, 5⅛@5.44c; Columbia A, 5⅛@5.31c; Windsor A, 5⅛@5.31c; Ridgewood A, 5.06@5⅛c; Phoenix, 5.06@5⅛c; Empire A, 4.94@5⅛c; No 1, 4⅞@5.06c; No 7, 4⅝@4.94c; No 8, 4½@4⅝c; No 10, 4½@4.69c; No 11, 4.44@4⅝c; No 12, 4.56@4⅝c; No 13 (no rebate), 4.18c; No 14 (no rebate), 4.44@4⅝c; No 15 (no rebate), 4.18c; No 16 (no rebate), 4.44@4⅝c. TALLOW—Market is steady at unchanged prices, at 4⅝@4 11-16c.

WHALEBONE—The market remained steady, with $3 50 asked for arctic.

WOOL—The market is still extremely dull with values so nominal that it is impossible to give anything more than approximate prices. Nearly all of the sales are reported on private terms, which is taken as an indication that low prices were paid. We quote: XX and above Ohio and Pennsylvania washed fleeces, 29c; X washed fleeces, 27c; No 1 do, 31c; Michigan washed fleeces, 28c; No 1 do, 25c; Michigan No 1 do, 30c; combing and delaine washed, 29@31c; unwashed medium fleece, 23@24c; Texas spring, 16@20c; California, 16@20c; Territory, 15@19c; pulled, extra and super, 29@30c.

COUNTRY PRODUCE MARKETS.

New-York, June 30, 1893.

BEANS AND PEAS—So little doing in domestic beans at the moment that sellers are satisfied to keep prices steady. Under any pressure to move stock the feeling would weaken. Foreign beans get most of the trade at present, but these are moving only in a jobbing way. Green peas weak. Beans, narrow, $2 57½@$2 60; do medium, $2; do pea, $2; do white kidney, $2@$2 10; do red kidney, $2 85@$3; do black turtle soup, $2 10@$3; do yellow eye, $2 25; do lima, $2 15@$2 20; do foreign, medium, $1 40@$1 60; do pea, $1 65@$1 75; green peas, bbl, $1 80@$1 85; do bags, $1 70@$1 75; foreign green, bags, $1 70@$1 75.

BUTTER—Trade was very quiet in all table qualities, and while the range of prices remains about as previously quoted the market has a slightly easier tone. As a rule, sellers were not inclined to make concessions, the lighter receipts the last two days leading to the belief that supplies may not run as heavy as some have thought. Business so far as reported in fancy creamery was at 22c, quite free buyers of factory goods at 19@20c, and paid up to 17c for one of two lots. Creamery, State, tubs, 21½@22c; do State, prints, 23@25c; do Western, extras, 22c; do firsts, 20@21c; do seconds, 18@19c; do thirds, 17c; state dairy, half-firkin tubs, extra, 21c; do firsts, 19@20c; do seconds, 17½@18c; State dairy, Welsh tubs, extras, 20@20½c; do firsts, 18½@19c; do seconds, 17½@18c; dairy tubs, thirds, 16@17c; Western imitation, creamery, firsts, 17½@18½c; do seconds, 16@16½c; do thirds, 15@15½c; Western dairy, firsts, 17@18c; do seconds, 15½@16c; do thirds, 15c; Western factory, firsts, extra, 17c; do firsts, 16c; do seconds, 15½c; do tubs, extras, 16½@17c; do firsts, 16c; do seconds, 15½c; do thirds, 14@14½c. Quotations: Elgins, 23c.

CHEESE—Demand was not sufficient to take the stock offering today, and prices were cut 5c on all grades. Fancy full cream, colored, sold at 9@9½c; latter rather the extreme, and fancy white at 8¾@8⅞c. A number of the under grades will either be carried over or shipped on to wait for better prices. Fancy small size reached 9¾c for white, but round lots on the platforms are hard to sell at that price. Chenango County factory skims, close dull with decided weakness, except on the choicest lots. About 2,000 boxes full cream, colored cheese, sold at Cattaraugus yesterday at 8¼c. Liverpool cable, 45s@48s. State factory, full cream, large size, colored, fancy, 9@9½c; do white, fancy, 8¼@8½c; do choice, 8¼@8½c; do fair to good, 7½@8¼c; do, small size, choice, 9@9½c; do fair to good, 8@8¼c; part skims, Chenango and neighboring counties, choice, 5c; do good to prime, 4@4½c; do, common to fair, 1@3c; full skims, 3c.

EGGS—Receipts have fallen back to moderate amount today, and the market shows a little steadier tone on fancy qualities, but trade is quiet, and there is some pressure to move such goods as are without especially favorite reputation, owing to the interference with trade expected from the approaching holiday. State and Pennsylvania, new-laid, per dozen, 19@20c; Western, new-laid, loss off, per dozen, 15½@16c; southwestern, loss off, per dozen, 15¼@15½c; seconds, per case, $2 50@$3.

FRUITS—FRESH—Common grades of green apples continue neglected and offered very low; some fine
