WHOLESALE PRICES OF COUNTRY PRODUCE.

For the week ending July 11, 1893.

BEANS AND PEAS.

Receipts for week—Beans, 410 bbls; peas, 9,000 bush. Exports—Beans, 1,410 pkgs; peas, 1,746 bbls. Imports—Beans, 46 bags; peas, 262 bags. Sellers have had to yield a point or two on Marrow beans, the dulness of trade causing slight accumulation of stock and some urgency to sell. At the close choice marks are offering generally at $2 55, with demand light. Domestic medium relatively scarce and held rather firmly. Pea slow; easy to buy best marks at $2. White kidney very dull. Reds are quiet and unchanged. Only a few Turtle soup and Yellow Eye left, and feeling steady. Recent arrivals of California lima have been quite heavy, and prices have declined 5@10c; some nice lines have been closed out at $2. Best grades of foreign beans have a moderate jobbing demand at full former prices; lower qualities dull. Green peas lower under increasing pressure to sell.

BUTTER.

Receipts for week, 54,536 pkgs; exports, 2,815 tubs. Following our last weekly report trade was very slow, and rather a light business was transacted during the remainder of the week. Stock accumulated faster than receivers wished, and selling rates of table grades were modified slightly to find new customs. On Friday and Saturday there were quite strong indications of a lower market this week, but the situation changed a little in sellers' favor yesterday, and the feeling at the close is steady, though trade is still very quiet. Receipts are showing no further increase, and the prospect of getting more hot weather butter and less high grade goods causes a steady holding. There is not much speculative buying at present, and the local consumptive demand is down nearly to the lowest point. Exporters are buying freely of factory butter, and that class of goods keeps sold up close to receipts; most of the lots going abroad have been purchased at 16@16½c, 17c for tubs, few extra marks at 17¼@17½c, and about 150 firkins go at 17½c. Shippers have also taken a little imitation creamery at 15c, and fair creamery at 19c.

CHEESE.

Receipts for week, 67,668 boxes. Exports, 44,312 boxes. Prices of fancy large size cheese fell on Wednesday last to 8 3-4@8 7-8c for colored and 8 5-8@8 3-4c for white, but the market became more steady on Thursday under moderate arrivals and before the close on Friday stock ran so scarce that shippers were unable to fill all their orders. It looked as if an advance was close by and some of the favorite combinations of colored were engaged to arrive at 9c. But the demand yesterday showed less force than was expected and sellers had to modify their views in order to move the stock. The trading basis over the trier was 8 7-8c for colored and 8 3-4c for white. To-day the country advices came in a little stronger, one or two new shippers began buying pretty freely, which induced others to fill most of the orders in hand and there was a good market throughout, prices stiffening a little on fine grades. Fancy colored sold at 8 7-8@9c, and fancy white at 8 3-4@8 7-8c, outside figures for perfection of quality. Under-priced full cream had more call and was firmer. It has been a poor market for part skims most of the week and values have averaged lower than at any time this season. Small size full cream arriving freely and prices are sustained only by free storing. Liverpool cable, 45s@46s 6d.

EGGS.

Receipts for the week, 46,611 cases. The market has gotten into a very dull and unsatisfactory condition. Receipts, white not excessive, are liberal and of very irregular quality, a large part of the goods showing more or less serious defects indicative of hot weather or holding, and dealers have difficulty in securing satisfactory quality. The defective grades show the greatest depression, but trade is so light that even the finest marks are weakening at the close. The light trade on regular wants is mainly in range of quotations, but the movement is below the quantity offering, and any pressure to sell the surplus, even at inside figures, fails to increase demand materially.

FRUITS AND BERRIES—FRESH.

Late receipts of new apples show rather more of good quality, and these meet a fair demand, but there are still many of inferior size and poorly assorted, for which very low prices must be accepted. Le Conte pears in moderate supply, fair demand and steady. A few good southern Clapp's Favorite have sold at $1 50@$2 per crate. Georgia peaches coming forward freely; they are of good kinds but very rarely of fine quality, and prices have had to be reduced to get the trade started on a scale large enough to use the supply. Southern grapes neglected unless unusually choice. Currants plenty and lower. Blackberries have declined, but choice dry lots of large berries have sold at full former prices. Huckleberries close steady. Raspberries easier. Huckleberries plenty, dull and lower. Watermelons advanced late last week, but are closing a shade easier. Muskmelons nearly all inferior and such greatly neglected.

DRIED FRUITS.

Receipts for week, 35 pkgs; exports, 644 pkgs. The Government crop reports indicate a short crop of apples, but holders of evaporated fruit are not inclined to hold any lots over if they can be sold at a reasonable price. This gives buyers some advantage, and the market for all grades remains dull and weak. Sun-dried in comparatively small supply, and have enough jobbing demand to sustain rate prices. Chops and cores and skins sell slowly, but are in light receipt and unchanged. A few new cherries and blackberries have arrived, but there is no present demand for them and values are not established; old fruits of most kinds in moderate supply, but neglected.

HOPS.

Receipts for week, 987 bales; exports, 580 bales. Late cable advices from both England and Germany have been a little stronger, reporting a less favorable outlook for the growing crop and indications of higher markets. This has caused a firmer holding here, but no increase in business as yet. Dealers have moderate stocks, but seem to think pretty well of them, and are not urging sales. Brewers buy when imperative wants compel them to, but it is claimed that money is too short to lock up in hops, and the trading at the moment is light. Most of the country markets are steady.

POULTRY.

Arrivals of live poultry were too liberal for the demand most of the week and prices weakened toward the close. Yesterday an attempt was made to get values up a little, good Iowa fowls selling at 12 1-2c, and to-day, under advices of light shipments in transit, the market advanced to 13c firm. Chickens are also doing better. Turkeys steady, and good ducks and geese are selling very well.

Western dressed fowls continued to decline, following last weekly report and on Saturday 11c became the ruling price. Chickens were fairly well sustained. This week, under lighter arrivals, the market has made a partial recovery on fowls and an advance of full 1c on Western chickens and closes with tendency slightly upward. Long Island ducks very dull and easier.

POTATOES AND VEGETABLES.

Southern new potatoes went off about 25c per bbl toward the close of last week, but have since held firm for choice, sound goods, notwithstanding the very heavy supplies, and the market is cleaning up closely. Southern new onions in better demand and a shade higher. Tomatoes plenty and lower. Long Island string beans have fallen so low that Maryland stock is no longer salable at any profitable price. Cucumbers in heavy supply and much lower. Green peas lower. Cabbages in moderate supply and steady. Jersey green corn in fair demand when of good size and quality. Cauliflowers very irregular in quality and value.

BEESWAX—Quiet; Southern quoted at 25@25 1-2c for large lots, with smaller sales higher.

MAPLE SUGAR—New bricks nominally quoted at 7@7 1-4c per lb, with demand quiet. Syrup dull at 70c per gallon can. No movement reported.

MILK AND CREAM.

The daily average receipts of milk and cream at the different railroad distributing points in and near the city for the week have been as follows: Erie, 4,775 cans of milk, 22 cans of condensed milk and 350 cans of cream; Pennsylvania, Poughkeepsie and Boston, 81 cans of milk; Susquehanna, 1,700 cans of milk and 84 cans of cream; Lackawanna, 4,425 cans of milk and 40 cans of cream; New-York Central and Harlem, 1,861 cans of milk, 63 cans of condensed milk and 12 cans of cream; New-York and Northern, 975 cans of milk; New-Haven and Hartford, 863 cans of milk; Ontario and Western, 3,100 cans of milk and 370 cans of cream; West Shore, 1,395 cans of milk, 65 cans of condensed milk and 110 cans of cream; New-Jersey Central, 255 cans of milk and 15 cans of cream; and by miscellaneous short routes, 1,600 cans of milk and 60 cans of cream. The total daily supply has been 21,030 cans of milk, 150 cans of condensed milk and 1,041 cans of cream. The average price paid for the surplus on the platforms has been $1 10 a can of 40 quarts. The Exchange price is 2 cents a quart net to the producer.

GENERAL MARKET REPORT.

New-York, July 11th, 1893.

COTTON—There was a combination of bearish features in the New-York cotton market, the failure of Liverpool to advance more than 2-64d when an advance of about 8 points was expected, reports of rain in the Dallas, Texas, district, and the Government report of quite general rains in the cotton belt yesterday being the chief points in that direction. There was considerable trading, a good many who bought yesterday selling their cotton to-day; the trade for the most part being by local traders. Thus, under this pressure to sell, the market broke about 12 points during the forenoon, August selling as low 7.92 against 8.04 at the close yesterday. At 1 o'clock that option was selling at 7.96. While reports of rain from Dallas, reports from some other sections of the State, notably Galveston, are to the effect that the weather is very dry and that there are no signs of rain. The net loss for the day was about 12 points. The general financial uncertainties furnished a factor to investment buying. Private cables indicate that Manchester buyers are showing fairly sustained interest in the face of two small failures in Liverpool. Said a prominent cotton house to-night: "Tuesday in Manchester is a day upon which the greater portion of the business for the week is transacted, and sale of cotton in Liverpool are therefore apt to fall to small proportions in consequence of the presence of spinners in their home market. While the temper of the market is subject to these quick changes, it is noticeable that prices do not yield to the adverse influences in Wall Street as quickly as during the last 60 days. Notwithstanding this, it is undoubtedly true that until the trade finds some encouragement in the hope that Congress will repeal what is now considered to be the foundation of all the trouble in this country—the Sherman law—it will be difficult to induce speculators to take hold of cotton, unless the crop advices become very poor."

The New-York Coffee Market opened weak and in some cases lower under the influence of lower foreign markets, European traders being the principal sellers, while local traders were buying. There was some reaction on shorts covering and rumors of political troubles in Brazil, and at 1 o'clock prices stood as follows: August, 16.30, September, 16.30, October, 16.20; December, 15.85. There was quite a degree of activity. Warehouse deliveries were fair. Market closed 5 to 20 points lower than yesterday's last prices, the weakness at the close being due to local hammering. Total sales to-day, 24,750 bags.

Cleared from Rio July 10, 8s cabotage, 2,000 bags for New-York.

DRUGS—Business is still very slow and buyers have had the advantage at nearly every turn. Opium is in very moderate demand and easier; single case lots can be bought for $2 45, and jobbing lots at from 2½ to 5c more. Lots in quantities are still held at $2 42½@$2 50, and powdered at $3 00@$3 45. Quinine is going off slowly, speculators figuring on the basis of say 45@48c for foreign, but small sales are being made on the basis of 18@19c. Essential oils are quiet but steady, and shellac rules quiet and without important change in price.

FISH—There is a great scarcity of new mackerel, and news comes from the fleet that the catch has fallen off. A telegram from Gloucester to-day says that there is nothing in that market, the recent big holiday there is having been cleaned up. Dealers that have bought nothing here and they are bidding the market up on themselves. Nova Scotia Cape Shore fish that were nothing here and they are bidding the market up on themselves. Nova Scotia Cape Shore fish that were nothing last week at from $4 50 are now worth $14@$14 50. Massachusetts shore mackerel are held at $16@$17 for No 2; $19@$20 for No 1. Codfish are scarce and wanted. There are a good many Norway bloaters on the market, but there is not much demand for them and values are more or less nominal. Box herring are steadily held, but no sales have been made. One cargo arrived to-day. The market has not been placed on the market, but bids have already been received for parts of the cargo. We quote: Massachusetts shore mackerel, new, No 1, $29@$32; No 2, $17@$19; Norway bloaters, $34@$41; No 1, $28@$33; No 2, $23; No 3, $18. Irish mackerel, old, $18@$20; new large rimmed, $14 50@$15. Box herring—Scotch, fall, $1 50@$1 75; spring, $1 50@$1 75; fancy, $2 50@$3; Holland Milchner, $5@$6 per keg; white hoop, $8@$9 in bbls, 55c in kegs. Holland, dark hoop, $7 in bbls, 45c in kegs. Codfish—Large size, $5@$6 25; medium size, $3@$3 25; boneless, 6½@9c; boneless hake, 4@4½c.

FLOUR AND MEAL—The market for State and Western flour opened with a fair promise, exporters bidding prices equal to the figures demanded by sellers during the recent period of depression, but business was checked by reason of the fact that holders were not willing to go on without some further advance, as they realized that the intrinsic value of old flour, now composing the stock, was increasing, as the time for new flour approaches, buyers being disposed to give preference to well-seasoned goods. With the weakness in wheat, however, the flour market closed easier. The sales to-day amount to 15,000 pkgs, including of winter wheat 2,200 bbls patents at $3 50@$4 00, 2,250 bbls straights, at $3 25@$3 40, 300 bbls clears at $2 90@$3 15, 1,100 bbls extra No 1 at $2 60@$2 75; 300 bbls extra No 2 at $2 50@$2 55; 1,000 sacks superfine at $2 15; 300 sacks fine at $2 10, and of spring wheat flours 4,000 bbls patents at $4 10@$4 20, 2,000 sacks clears (choice for export at $2 95; 300 bbls rye mix at $2 60; 250 sacks fine at $1 80. The market for Southern flour rules quiet at unchanged prices and barely steady in tone. We note sales of 300 bbls extra No 1 at $2 60, and 150 bbls patents at $3 60.

RYE FLOUR—The market for rye flour is moderately active and steady at about former prices, with sales of 650 bbls at $3@$3 20.

GRAIN—WHEAT—The Government crop report proved to be bullish enough, under ordinary circumstances, to have produced a sensation, showing as it did for wheat a condition of 77.7 for winter and 74.1 for spring, or a condition of all wheat July 1 of 76.6, against 78.8 the previous month. A year ago the condition of winter wheat was 89.6 and of spring 90.9. The area of the crops of wheat is 24,629,000, against 26,534,000 last year, with the production based on a series of averages for the last ten years, of 415,000,000 bushels, against 415,000,000 bush last year, including both spring and winter. In the face of this strong statement, however, the market, after a momentary strength, turned weak under heavy selling in the way of liquidating long accounts made yesterday and previously in anticipation of just such a report. The report as was expected, if anything, the old crop report was more bullish than looked for. The report is commented on as being the strongest issued in many years, and the conduct of the market since its promulgation is a great disappointment to the bulls and doubtless an equal surprise to the bears themselves. The failure of the report to have its legitimate effect was due to a combination of bearish conditions, acted upon by returning evidence of financial weakness, seen in the suspension of failures in the West and several failures
