WHAT WAS DONE IN STOCKS.

Thursday, July 13—p. m.

Easier rates for money resulted in higher prices of stocks. It was reported that $1,000,000 Clearing House loan certificates had been retired and that the same amount of gold had been engaged in London for shipment to this country. There was no foundation for the stories. The amount of Clearing House certificates has not been changed, although many banks, following the example of the Commerce, have taken out loan certificates that they did not need. Some imports of gold may be expected, but at present figures there is only one firm which can import gold at a profit. The firm says that it knows nothing about engagements of gold.

The variations in the stock market were not important. Chicago, Burlington and Quincy was the most active stock, but it unfortunately lost about 2 per cent, although it rallied 1 per cent from its lowest price. This was about the measure of the rally, although Lackawanna, on small sales, rose nearly 4 per cent, and Louisville and Nashville recovered 2 per cent of the 4 per cent loss suffered yesterday. As a group, the Granger shares were lower, and Rock Island fell 2 per cent in spite of the final rally. Chicago, Burlington and Quincy suffered about the same loss. Final changes were divided, and as many stocks closed lower as higher. The closing was rather confident, although first prices were generally the best for the day.

THE DAY IN THE BOND MARKET.

There were again no important transactions in Government bonds in the Stock Exchange, but the market was firm in tone, and bids for the currency issues were raised 1-4@1-2 per cent. Closing quotations were as follows:

State issues were wholly neglected, and there were no sales of city bank stocks.

The general bond market was quiet and weak. Erie second consols fell about 3 1-2 per cent at 83 3-8. Considerable sales were made on an option of twenty days. Rock Island extension 5s seemed to be pressed for sale, but at 94 1-2 their final loss was only 3-8 per cent. Union Pacific, Denver and Gulf firsts fell 3 per cent to 54. The movement of prices was downward, and last prices were about the lowest. Reference is made to our full report of bond sales.

Money on call was distinctly easier, and the highest rates were 7 and exceptionally 8 per cent. The supply was so large that the ruling rate was not much above 6 per cent, and in the last hour balances were offered at 3 per cent.

The Clearing House statement was as follows: Exchanges, $106,806,842; balances, $4,165,901.

The Sub-Treasury was debtor to the Clearing House $1,015,351. Its net loss on balance was $827,829, made up by losses of $194,029 in coin and $723,800 in currency. The day's operations covered: Receipts, $8,066,229; payments, $8,834,058; resulting in a general balance of $85,294,455, consisting of $69,375,508 coin and $13,917,947 currency.

The United States Treasury at Washington received to-day $147,567 National bank notes for redemption.

The customs receipts were $933,268, the internal revenue receipts $864,082, and the miscellaneous receipts $21,236.

To-day's Washington Treasury statement of cash on hand and deposits in banks compares with the figures of the last previous statement as follows:

	July 12.	July 13.	Differences.
Net gold on hand	$97,283,727	$97,883,575	Inc. $599,848
Net legal-tenders on hand	20,953,078	21,922,183	Inc. 968,505
Net silver on h'd	6,369,576	6,488,790	Inc. 121,214

Net cash bal.	$137,049,339	$138,218,737	Inc. $1,178,398

The foreign exchanges were fairly active for an "off" day, but rates were lower in consequence of a lack of demand. At present prices gold may be imported if it can be obtained in London. Following are revised quotations for actual business: Bankers' bills, $4 81 1-4@$4 81 1-2 and $4 83@$4 83 1-4 for long and short sterling respectively; French francs, 5.23 1-8 and 5.20 5-8; reichmarks, 94 1-8 and 94 5-8@94 3-4.

FOREIGN MARKETS.

The governors of the Bank of England at their weekly meeting made no change it its minimum rate of discount, which remains at 2 1-2 per cent. In the week the bank lost £161,000 bullion, but the proportion of reserve to liabilities was raised from 43.46 to 47.62 per cent, against an advance from 40.42 to 45 per cent in the corresponding week last year, when the discount rate was unchanged at 2 per cent. The bank to-day gained £14,000 bullion on balance. At the London Stock Exchange British consols advanced 1-8 per cent to 99 3-16 for money, and 1-16 to the same price for the account. Bar silver was quoted steady at 33d an ounce. American railway shares continued to decline, and they ended without rally. At Paris French 3 per cents rallied to 97.75, sight exchange on London being 25.18 1-2 francs to the £ sterling. The weekly statement of the Bank of France showed a decrease in specie of 2,650,000 francs gold, and 5,275,000 francs silver.
