Why Fall Painting is Advisable

Lumber is thoroughly dry in the fall. The summer sun has evaporated the moisture and dampness left by the frosts of winter and rains of spring and early summer, leaving an ideal surface upon which to apply paint.

Paint put on in the fall will penetrate deeper, secure a firmer hold and wear a great deal longer than it it will put on any other time of the year.

September and October are the ideal months for all kinds of painting and varnishing.

We handle Blood's and the Sherwin-Williams' paints and varnishes, No better made

AEROPLANE IN ACCIDENT.

Wright Machine Wrecked and Army Officer Killed.

Washington, Sept. 18.—After having drawn the attention of the world to his aeroplane flights at Fort Myer and having established new world's records for heavier-than-air flying machines, Orville Wright met with a tragical mishap while making a two-man flight. The aeroplanist was accompanied by Lieutenant Thomas E. Selfridge of the signal corps of the

army. Lieutenant Selfridge was fatally injured and died in less than three hours after the accident occurred. Mr. Wright was seriously injured, but is expected to recover.

While the machine was encircling the drill grounds a propeller blade snapped off and, hitting some other part of the intricate mechanism, caused it to overturn in the air and fall to the ground, enveloping the two occupants in the debris.

DROUGHT CAUSING RIVERS TO DRY UP

Pennsylvania, Ohio and West Virginia Affected.

Pittsburg, Sept. 19.—With forest fires destroying much valuable property, the enforced suspension of many industries, crops ruined, live stock suffering, river navigation at a standstill and numerous small streams absolutely dry, a drought which has practically been unbroken for over two months is fast assuming serious proportions in Western Pennsylvania, Eastern Ohio and West Virginia.

During four days of this week a representative of the Associated Press visited over thirty cities and towns in the tri-state district and conditions of an alarming nature were found on account of the long dry spell.

At night raging forest fires light up miles of territory, while thousands of persons are doing everything in their power to check the flames. Meetings are held at which prayers for rain are offered. A tour through portions of the three states shows the seriousness of the drought. A majority of the smaller streams are dry and their beds are being used as wagon roads. At a number of places along the Ohio and West Virginia shores of the Ohio river there is not a sign of water.

Near Marietta, O., the large steamboat Tornado, with a tow of barges for Pittsburg, is lying on a bed of gravel in the middle of what was the river. At many points small streams of water extend a few yards from either shore and boys, after having crossed these, can be seen playing ball in the middle of the Ohio river.

Many industries along the river are suspended on account of no water for power purposes and many others will be idle unless rain falls soon.

FOUR DEATHS SO FAR.

Four Others Seriously Ill as Result of Nurse's Carelessness.

San Diego, Cal., Sept. 19.—The carelessness of Mary Arthur, a nineteen-year-old nurse at the county hospital, has cost the lives of four patients to date and four others who drank from a pitcher containing atropine are seriously ill.

Miss Arthur, who is in a state of collapse, failed to confess her neglect until the poison had taken deadly effect. According to her statements she left a solution of atropine in the pitcher, which was later filled by some other persons. After a short absence Miss Arthur administered the water to several patients and others helped themselves from the pitcher.

Healthy Italians.

Italians of the poorer class are noted for their general good health. This is to some extent attributed to the fact that the working people of Italy eat less meat than those of any other European nation.

Defamation.

I never yet heard man or woman much abused, that I was not inclined to think the better of them and to transfer any suspicion or dislike to the person who appeared to take delight in pointing out the defects of a fellow creature, says a writer.
