GENERAL MARKET REPORT.

New-York, July 13, 1893.

COTTON—The cotton market at New-York was slightly firmer at the opening because of the comparatively steady opening at Liverpool, where a decline was expected, the net advance in that market being 1-64d for futures, with spots firm, spinners taking 10,000 bales. In fact, Liverpool seems to hold on a steadier basis than our market, which is attracting considerable attention, owing to the large stocks of cotton now held for a market before the pressure of the new crop is felt abroad. At the first call August opened at 7.93c against the closing price of 7.91c yesterday and soon sold off to 7.86c, at 1 o'clock standing at 7.89c. Most of the trading was for local account. Commission houses had very few orders, most of which seemed to be to buy distant deliveries. There were showers yesterday in all cotton sections of Texas, extending as far inland as Corsicana; the precipitation ranging from 1.62 at Tyler to .40 at Huntsville and .11 at Houston. Indications point to further showers in the same section to-day according to the Government report. Showers are indicated for the remainder of the cotton belt, the fact that at some points of the South it seems to be portune, as it was much needed and will no doubt have a beneficial effect upon the crop. Attention is called to impossible to draw New-York exchange, owing to the financial stringency. It is said that unless this condition is changed before the latter part of September, when the new cotton will probably be ready to move freely, that New-York cotton merchants will be compelled to send a good deal of money to their Southern friends in order to have the crop moved promptly. New-Orleans telegrams report receipt of second new bale of this year's cotton crop from Texas, and say recent rains in Texas have made feeling bearish in that market. Manchester reports a steady feeling, despite the large stock of cotton now on hand. Hubbard, Price & Co. received by cable to-day a summary of Mr. Ellison's monthly review of the cotton market. It says that the position of cotton on its own merits is healthy, and that an advance is only prevented by the fear of a financial crisis in America; that a large business has been done by spinners, and that mills are generally under orders at improving prices, and that increased takings may be expected shortly. The regular monthly figures of spinners' weekly takings and present stocks are as follows:

COFFEE—At New-York the coffee market opened about 15 points higher and at 1 o'clock September was held at 16.05, with 15.95 bid for December, an advance of about 10 points over yesterday's closing prices. The improvement was on unexpectedly higher foreign markets and a little buying for foreign account, supplemented by light receipts at Santos, the report showing only 1,000 bags, though it is said that it should read 10,000 bags. The deliveries continue fair. The recent political troubles in Brazil do not seem to have any material effect on the market here. It is said that the difficulty lies in the interfering of the Brazilian Government with the code telegrams. Total sales to-day, 17,500 bags.

Rio closed inactive with No 7 coffee, Exchange standard, 4 6 750; good seconds, 13 4 900 and 10% for exchange. Receipts, 15,000 bags; stock, 137,000 bags. Santos market was quiet; good average Santos, 14 4 500; receipts, 1,000 bags; stock, 116,000 bags. Havre prices were up 10% fr. The stock in Havre now amounts to 259,000 bags, the same as last week. Of this total 202,000 bags are Brazilian, a decrease of only 1,000 bags from last week. At Hamburg prices were 1-16% pfg higher, and at London 3d d higher. The total stock of Brazil coffee in the United States to-day is 231,037 bags; afloat from Rio, Santos, etc, 187,000 bags; total stock in New-York, 170,128 bags; warehouse deliveries yesterday, 7,331 bags; stock, New-Orleans, 21,863 bags; in Baltimore, 12,341 bags. The market for spot coffee was firmer at 17c for Rio No 7. Sales, 1,000 bags Rio 7, per steamer "Wanderer," at 17c; 1,000 bags No 7 to be shipped, 17c; 1,000 bags Santos No 7 to S, private terms. Mild's were quieter. Sales of 200 bags Mexican and 100 Central American, private terms.

FLOUR AND MEAL—The market for flour and meal has been dull and heavy without decided change in price. The buying has been principally by parties who wanted to stock up with old flours, fearing to trust the early receipts of new flour. The sales comprise about 13,750 bbls, as follows: Of winter wheat flour, 600 bbls patents at $3 60@$3 85; 3,000 bbls straights at quotations; 1,500 sacks straights, at $2 90@$3 20; 1,000 bbls straights, at $3 15@$3 30; 2,500 city mills to the West Indies, at quotations; 100 sacks extra No 1, at $2 40@$2 50; 300 bbls extra No 1, at $2 75; and of spring wheat flour, 2,250 bbls patents, at $4@$4 15; 500 bbls straights, at $3 75@$3 90; 100 sacks fears for export at $2 65; 150 bbls clears at $3 and 1,100 bbls rye mix at $2 50@$2 70. The market for Southern flour was fairly active and steady, with sales of 650 bbls at $3 15@$3 25. RYE FLOUR—Market dull, with sales of 175 bbls at $2@$2 25.

GRAIN—WHEAT—The wheat market was small and unimportant to-day with fluctuations narrow and trade sluggish. The first movement was toward a little better tone of prices, but this did not hold and soon the market dropped, with local operators selling more or less freely. The pressure did not seem to be as pronounced here as it did at the West, where the markets seemed to be influenced by favorable weather and good crop reports. For a while during the morning there was a period of hesitation, but this subsequently gave place to weakness as the inferior, prices declining somewhat rapidly, and the weakness was followed by the local market. The news of the day was nearly insignificant. Harvesting is progressing rapidly throughout the entire wheat country and conditions were favorable for active farm work again, so that there was no occasion for fear of delay or injury from weather conditions. "The Price Current" says that while results are irregular, they do not justify any large or extreme changes in prices in regard to spring wheat, there has been enough local damage to lower the general promise below previous calculations. The general estimate of the wheat crop seems to centre around 400,000,000 bush, which would give 35,000,000 bush of new wheat for export. The amount in farmers' hands is variously estimated. Late in the day there was a slight improvement in prices on covering by local shorts and the final close was quiet at practically last night's prices. Cash wheat was fully as dull as the future market, sales for export being only 88,000 bush out of the reported sold of slightly under 90,000 bush, as follows: No 2 red, quoted 3¼c first-last, 2¾c under September elevator and store; September closing 75¾c, 2¾c under September f o b store, 3c under September afloat; No 2 red, 64,000 bush, 3c under September f o b afloat; No 2 hard winter, 8,000 bush, 2¾c under September, f o b afloat; No 1 hard spring, quoted 1½c under September delivered; No 1 Northern spring, quoted 2¾c under September delivered; No 2 Milwaukee, 5c under September delivered; ungraded, 60,000 bush, 4½@5½c under September delivered and on private terms; also 8,000 bush No 1 Northern at 3½c under September, in store. Chicago stocks of grain are as follows:

"The Daily Bulletin" of Chicago, in its monthly report of wheat and flour in the United States, Europe and afloat for Europe, makes 95,000,000 bush in sight in America against 128,000,000 bush June 1, and 47,000,000 bush July 1 last year. The European supply is put at 88,000,000 bush, against 62,000,000 bush July 1 a year ago, and 50,000,000 bush last year. Its correspondents report that on July 1 there were 52,000,000 bush in farmers' hands in the United States, making a total quantity in America, exclusive of Canada, 141,000,000 bush, of which it will be possible easily to export 90,000,000 bush. Its estimate of the quantity in sight including the visible stocks in second hands not reported, farmers' reserves and the maturing crop, which is placed at 415,000,000 bush, makes a total of 566,000,000 bush, giving, after allowing 75,000,000 bush for visible and invisible next July, 126,000,000 bush for export. The probabilities, however, indicate that the crop will be less than 400,000,000 bush, which will make a corresponding reduction in the American stocks or in the export surplus. CORN—The market for corn was very quiet within a small range of prices; fluctuations early were accompanied by an easy tone, which later gave place to a somewhat better feeling. The decline in wheat, however, in the afternoon, brought in some selling and a slightly lower range of prices. Speculation late in the day was small and the final close was quiet. There were some talk of dry weather and injury to corn in Nebraska, but the effect on prices was small. Cash corn was dull, but about steady, sales being only 23,000 bush as follows: No 2 corn, car lots, 48¾c elevator; No 2 corn, 30,000 bush, 49¼c delivered. OATS—Speculative interest in the market was small and the trade apparently waiting for more export orders, or else some improvement in outside trade. Prices were steady all the morning, although at midday cash oats at the West developed considerable weakness, which reflected on prices here. The market for oats late in the day was quiet and rather heavy here and weak at the West. At the close prices were a little off on near deliveries at New-York and nearly a cent a bushel at Chicago. Fine weather and the absence of export demand on the recent advance were given as reasons for the weakness. Cash oats were dull, closing heavy, with sales of 66,000 bush as follows: No 2 oats, 28,000 bush, 37¾c elevator and 38¾c delivered; No 3 oats, 37c; No 2 white, 12,000 bush, 40c; No 3 white, 4a lots, 39¾@39¾c; track white, 20,000 bush, 39¾@45c; track mixed, 50,000 bush, 37½@39c; rejected white, 1,000 bush, 38½c. New-York Central ... MALT—Market nominal at unchanged prices. Western, 60@63c; two-rowed State, 65@75c; six-rowed, 75@80c. ... SEEDS—Cloverseed, firm at 11.40c bid, 11.50c asked.

METALS—IRON—The market for iron continues dull, with prices entirely nominal. In Pittsburg the feeling is reported as follows: The situation here still continues as last reported, little or no business being done, and the mills with one or two exceptions are closed down. Unless the financial situation changes, it is hard to say when the condition of affairs will brighten up. The special session of Congress is anxiously awaited, as it is hoped some measures will be adopted to relieve the present financial stringency. Pittsburg quotations of to-day:

Lake Superior coke iron, No 1 foundry	$13 50
Lake Superior coke iron, No 2 foundry	12 75

Bessemer pig iron	13 25
New steel rails	29 00
No 1 tap, net ton	14 00
Wire nails, per 100 lb	1 50

"The Iron Age" refers to the heavy decline in pig iron production as follows: The long continued pressure upon the producers of pig iron has at last told upon the current production, a very sharp reduction in the active furnaces having taken place. With the exception of the Pittsburg district, it has told on all sections. Nor does this novel district, it has told on all sections. Nor does this novel event seem to be quite exhausted itself, reports from different parts of the country showing that additional plants are preparing for at least temporary idleness. As it is, the output has been restricted during June at the rate of nearly 1,000,000 tons per annum. Of course the consumption, notably on the part of steel works, is sharply restricted during the current month. Still, even with that restricted during the current month, it must be obvious fact fully taken into consideration, it must be obvious that, statistically, pig iron is getting into very much better shape. On July 1 the active furnace plant, grouped according to fuel used, possessed the following weekly capacity:

Fuel.	Furnaces.	Tons.

COUNTRY PRODUCE MARKETS.

New-York, July 13, 1893.

BEANS AND PEAS—The price of domestic marrow was shaded to $2 02½, and 100 bbls were taken for export at that. Medium and pea quiet and without quotable change. Red kidney dull and values a trifle easier, California lima in buyers' favor. Green peas ruling rather freely and feeding unsettled. Beans: marrow, $2 02½@$2 05; do medium, $1 95@$2; do pea, $1 90@$1 95; do white kidney, $2@$2 10; do red kidney, $2 85@$3; do black turtle soup, $2 90@$3; do yellow eye, $2 20; do lima, $2@$2 10; do foreign, bags, $1 60. ... BUTTER—Jobbers are still buying cautiously and only against immediate wants, and the market for creamery and dairy and top grades of imitation creamery is dull. The trade demand, however, is offset to some extent by lighter receipts, and prices are held steady. Quotations are obtained on such sales as are making, but it would be useless to attempt to push business. Factory butter continues to have a good export outlet and values are holding fairly closely, that a firm line of values is maintained. Creamery, state, tubs, 21½@22c; do State, prints, 24@25c; do Western extras, 22c; do firsts, 20@21; do seconds, 18@19c; do thirds, 17@18c; State dairy, half-firkin lots, extra, 21c; do firsts, 19@20c; do seconds, 17@18c; State dairy, Welsh tubs, extras, 20@20½c; do firsts, 18@19c; do seconds, 17@18c; dairy tubs, thirds, 17c; Western imitation creamery, firsts, 18@19c; do seconds, 16@17c; do thirds, 15c. CHEESE—Shippers took fairly pretty freely to-day and there was a good trade, values stiffening a little, especially on white, which is now selling even with the colored. Fancy or choice of both sorts at 9c, with fairly good to prime lots at 8¾@9c; good to choice full cream ranged from 8¼@8½c, lots of good quality, but stock is showing up very nicely. Small size remain quiet and dull, the current trading price for best lots, Chenango county factory, being 9c. Skims are better and market firm for choice lots, sales at 7½@8c; yesterday were 1,000 boxes full cream, white, at 8⅝@8⅞c, ruling price. ... EGGS—Liverpool cable, 65s asks 66s. State, fancy, full cream, large size, colored, fancy, 8⅞@9c; do white, fancy, 8⅞@9c; do choice, 8⅝@8⅞c; do fair to good, 7½@8½c; do small size, choice, 9c; do fair to good, 8@8½c; per dozen. Chenango and neighboring counties, choice, 5c; do good to prime, 3¾@4c; do fair to fair, 3½@3¾c; dull and easy. ... POULTRY—Western dressed turkeys, 12@13c; Western dressed chickens, 12@14c; fowls, 12@13c; old cocks, 8@9c; spring ducks, Long Island, per lb, 18@20c; do Western, 16@17c; fowls, 16@17c; white per dozen, $2 50; do small and dark, $1 50@$2. ... POTATOES AND VEGETABLES—Receipts of new potatoes to-day were somewhat larger and trade was quieter, prices showing some weakness and outside quotations for coming more extreme. A few North Carolina red sweet potatoes have appeared, selling mainly at about $5 per bbl. Onions steady under moderate supplies. Southern beans excessively plenty and low, Southern cucumbers also selling at very shaky figures, but fancy Jersey lots are bringing brought fair prices. Nearby tomatoes steady for fine large stock; fair Southern mostly inferior in quality
