FREE SEED TESTS

Send Early and Avoid the Rush to Guard Against Weed Seed and Poor Germination

The Seed Laboratory at University Farm, St. Paul, is now ready to make both purity and germination tests (free of charge) of all seeds sent in. In sending in a sample be sure that it is not too small. A good sized handful is sufficient, and a much smaller sample of clover or other small seed will do. Send your seeds in early. Do not wait until just before planting as the Seed Laboratory at that time is so busy that the reports are sometimes delayed.

All seeds should be tested both for purity and germination before they are planted. Corn, wheat, oats, barley, rye, clover, alfalfa, timothy and vegetable seeds all should be tested. The individual ears of corn should be tested and a bulk test should be made of all other seeds.—W. L. Oswald, in Charge of Seed Laboratory.

AN EFFECTIVE REMEDY FOR WORMS IN HORSES

Every farmer will be pleased to learn of a most effective remedy for the dreaded worm plague of horses which on account of its absolute reliability has become very popular. It is put up in gelatin capsules which as soon as they reach the stomach dissolve and by a peculiar action kill every worm, passing them off dead in a very short time. Hundreds of bots and other worms have been removed from a single horse by two of these capsules. They can easily be given ad used on mares in foal and colts as they do not injure the stomach in any way. Thousands of farmers have used these capsules with excellent results and no horse owner should neglect to give some to his horses right now even though they may not show any signs of worms. This excellent remedy, invaluable for colts, can be had from The Breeders' Remedy Co., 532 East Water St., Dept. 4, Milwaukee, Wis., at $1.25 for 6 or $2.00 for 12 capsules prepaid, or from John A. Brandl, R. F. D., No. 4, Pierz, Minn. —Adv. 44-tf
