WHAT WAS DONE IN STOCKS.

Tuesday, July 25—p. m.

The stock market was comparatively active to-day, but the increase in business resulted in fresh declines in prices. In spite of rallies of 1 to 2 per cent, final looses suffered by the leading stocks were severe, and Chicago and Northwestern particularly sustained a decline of over 5 per cent. While the movement was in a sense fairly uniform the declines were largest in the Granger stocks and in a few others supposed to be the favorites of Western speculation. The declines undoubtedly were due, in large part, to the failure of the Wisconsin Marine and Fire Insurance Company Bank, of Milwaukee, which has been famous for more than fifty years as the Mitchell Bank. It was virtually a private copartnership, and the stockholders are individually liable for all its debts. The significance of the failure is the greater on this account, because the stockholders are reputed to be extremely wealthy. It was not explained why they should permit the suspension when they knew that by the terms of the association each one was personally responsible for the whole amount of the debts. The complications that may arise from the failure may easily be extensive. Other bank failures of only less importance occurred in Indianapolis and Louisville, and they added something to the general uneasiness. It was not surprising, therefore, that at times during the day the market was in a state of semi-panic. The recovery was only partial, but it was swift, and in the leading stocks amounted to from 1 to 2 per cent, and the closing was in the midst of the rally. The disturbances at the West and South naturally excited a fresh demand for currency, and the outward movement was estimated to be fully as large as on any day in the last few weeks. Otherwise conditions remained unchanged. Money on call was in ample supply at about 4 per cent, and rates for exchange on Europe were rather lower. One or two small failures at the London Stock Exchange were reported, but the fortnightly settlement, which begins to-morrow, was not viewed with apprehension. In fact, the foreign demand for stocks was excellent.

THE DAY IN THE BOND MARKET.

A sale of $6,500 coupon 4s at 110 1-2 was the only business in Government bonds at the Stock Exchange. The market was weak in tone, and for both classes of 4s bids were lowered 1-2 per cent. Final quotations were as follows:

	Bid.	Asked.		Bid.	Asked.
U. S. 4½s, 1891			U.S.cur.6s.1895	103	....
continued at 2 per cent reg	97	....	U.S.cur.6s.1896	106	....
U.S.4s.1907, reg	110	111	U.S.cur.6s.1897	105	....
U.S.4s.1907, coup	110	111	U.S.cur.6s.1898	110	....
Dis.Col.3-65.1894	111½	112	U.S.cur.6s.1899	112½	....

In State issues transactions were limited to Tennessee settlement 3s at 68. There were no sales of city bank stocks.

The general bond market again was more active, reported transactions rising to nearly $1,500,000 at par value. The greater activity resulted in materially lower prices, although in some cases the closing was not at the lowest points. On sales of about $375,000 Erie second consols rallied to 64 1-4, and then fell to 60, and at 60 3-4 suffered a loss of 1 per cent. Chicago and Erie issues were wholly neglected. Atchison new issues continued to be pressed for sale. The general 4s further declined to 71 3-4, and rallying to 72 1-2 closed with a loss of 2 per cent, and while A seconds fell 2 per cent to 32 1-2, and at 33 3-8a33 suffered a loss of 1 1-2 per cent. Chicago and Northern Pacific firsts fell 2 1-2 per cent to 57, and Northern Pacific consol 5s about 4 1-2 per cent to 44 1-2, and in both cases the last prices were the lowest for the day. General Electric debenture 5s closed 2 per cent lower at 68, and several other issues of less importance lost from 2 to 3 per cent. Reference is made to our full report of bond sales.

Money on call ruled at about 4 per cent until near the close, when a belated demand carried the rate to 8 per cent. The last loans were made at this figure.

The Clearing House statement was as follows: Exchanges, $93,834,693; balances, $5,015,437.

The Sub-Treasury was debtor to the Clearing House $604. Its net loss on balance was $1,023,518, made up by losses of $353,128 in currency and $670,390 in coin. The day's operations covered: Receipts, $2,594,677; payments, $3,618,195; resulting in a general balance of $79,038,966, consisting of $66,104,990 coin and $12,933,976 currency.

The United States Treasury at Washington received to-day $144,052 National bank notes for redemption.

The customs receipts were $362,545, the internal revenue receipts $214,593, and the miscellaneous receipts $32,741.

To-day's Washington Treasury statement of cash on hand and deposits in banks compares with the figures of the last previous statement as follows:

	July 24.	July 25.	Differences.
Net gold on hand	$97,977,473	$95,549,899	Dec. $1,427,574
Net legal tenders on hand	19,741,835	19,808,401	Inc. 66,566
Net silver on h'd	6,333,847	5,905,547	Dec. 428,300
Actual cash in the Treasury vaults over outstanding certificates	$124,053,155	$122,263,847	Dec. $1,789,308
Deposits in bank	11,588,518	12,019,562	Inc. 431,044
Net cash bal.	$135,641,673	$134,283,409	Dec. $1,358,264

The foreign exchanges were quiet, and at the close slightly easier. A lack of demand was apparently the only reason for the reduction in rates, because there was no increased supply of either commercial or security bills. Following are revised quotations for actual business: Bankers' bills, $4 81 1-2a$4 81 3-4 and $4 83 3-4 for long and short sterling respectively; French francs, 5.23 3-4 and 5.21 1-4; reichmarks, 94 1-8 and 94 7-8.

In London British consols were strong and a trifle higher at 98 13-16 for both money and the account. The bullion balance of the Bank of England was not affected by the day's operations. In the open market money was dearer at 1 5-8a1 3-4 per cent for discounts, but easy at 1-2 per cent for daily balances. Bar silver recovered 1-8 to 32 1-4d an ounce. American railway shares were quiet, but they declined until near the close, when slight rallies occurred in a few stocks. At Paris French 3 per cents fell nearly a franc to 97.87 1-2, although sight exchange on London remained unchanged at 25.20 francs to the £ sterling.
