Micw Gravel

The Chicago & Alton is now hauling gravel from near Louisiana, Mo., for use on the roadbed in the vicinity of Bloomington, Ill. A man in the vicinity of Louisiana, owned a little farm through which ran a creek. This creek was noted for its gravel especially that part of which ran through this particular farm. The Alton wanted gravel and the proprietor sold it to them at 25 cents per car load. Big machines were put in for hoisting it, and the money poured in to the farmer's pockets. It took but a short time to dig out quite a hole. About that time a big rain came along, and when the water went down the hole had filled up with gravel from above, off of other farmer's lands. The Alton continued to pay the man 25 cents a load for gravel and is still doing it, and the supply is kept up by the rains. The farmer is making a fortune out of the gravel which is washed down from his neighbor's farms. In this connection might be mentioned the Alton's big stone quarries at Pearl. The man who formerly owned them saw nothing in it but a big hill of stone on which could grow nothing. The Alton offered him 25 cents a car load for the stone as they used it, but he spurned the offer. The road then changed its plan and asked him his price to sell the farm. This is what the farmer wanted, and when he asked what to him was a big price, viz. $900, the Alton immediately closed the deal, and a man who is acquainted with the case states that enough stone had been taken out by the Alton to have brought in the same over $10,000 had he accepted the road's offer of 25 cents a car load.—Ex.

Vacancy in Faculty Filled

W. E. Turner, of Columbia, Mo., has been elected to and accepted the position of teacher of languages in the Alton High school, made vacant by the resignation of C. M. Strong. Put Your Finger on Your Pulse

You feel the blood rushing along.

But what kind of blood? That is the question.

Is it pure blood or impure blood?

If the blood is impure then you are weak and languid; your appetite is poor and your digestion is weak. You cannot sleep well and the morning finds you unprepared for the work of the day. Your cheeks are pale and your complexion is sallow. You are troubled with pimples, boils, or some eruption of the skin. Why not purify your blood?

Ayer's Sarsaparilla

will do it. Take it a few days and then put your finger on your pulse again. You can feel the difference. It is stronger and your circulation better. Send for our book on Impure Blood.

If you are bilious, take Ayer's Pills. They greatly aid the Sarsaparilla. They cure constipation also.
