WHOLESALE PRICES OF COUNTRY PRODUCE.

For the week ending August 1, 1893.

BEANS AND PEAS.

Receipts for week—Beans, 694 bbls; peas, 3,300 bush. Exports—Beans, 2,064 pkgs; peas, 1,631 bbls. Imports—Beans, — bags; peas, — bags. The price of choice domestic marrow beans has been advanced 5c under continued light receipts, further reduction of the stock in store and a little export interest. A shipping order for 50 bbls was filled within a day or two at $2 60, and jobbers are paying that price for best marks. Medium and pea move slowly, and there is a little pressure to sell at quotations. White kidney dull. Exporters have had only small orders for red kidney again this week, and prices have been cut fully 10c, with an unsettled weak feeling at the close. Yellow eye steadier. California lima held fairly steady, but not much doing. Foreign beans quiet and unchanged; desirable grades are getting in small compass. The extreme dullness in green peas has forced prices fully 5c lower.

Beans, marrow, 1892, choice	$2 57½@$2 60

BUTTER.

Receipts for week, 52,755 pkgs; exports, 1,384 pkgs. There has been a considerable shrinkage in the receipts, especially from the West, but the demand has been confined so largely to current consumptive requirements that the offerings have continued in excess of the wants of the trade, forcing a decline in all grades. Money matters have been in no shape for any speculative trading; indeed many receivers have found the banks unwilling to give the accommodations necessary to meet the demands of legitimate business. Sight drafts have come along from the West as though there was no scarcity of cash in this city, and the inability to effect reasonably prompt sale of the goods has forced the turning down of a good many of these drafts. It is unfortunate that the trade has drifted into a method of doing business which, in times like these, is hurtful to either the operator in the West or his agent here. But the combination of several adverse influences have crowded the market downward, and at the close there is a very unsettled and weak feeling. Perfect quality creamery is so light that the receipts that sellers are trying to hold up to about steady at 19 1-2@20c, but everything else is accumulating, and bids within 1-2@1c of asking rates would undoubtedly be accepted to move lines. Factory butter is particularly dull, and it is quite evident that values must fall to an export basis before there will be any relief.

CHEESE.

Receipts for week, 58,171 boxes. Exports, 42,847 boxes. There has been a larger and more general export demand this week, and stock has sold up pretty closely from day to day, prices hardening gradually. The recent sharp advance in Canada evidently turned more orders this way, at the same time our receipts have fallen off nearly 9,000 boxes. Trade to-day was fairly brisk and there was quite a strong market. Colored showed most strength, fancy parcels selling at 9 1-8@9 1-4c, latter mainly for combinations. Oswegoes or special single factories; for trading over the trier 9 1-8c was the more general rate. There was an effort to make 9 1-8c for an occasional lot of white, but it was not very successful, fancy parcels going mainly at 9c, choice at 8 3-4@8 7-8c, and lower grades from 8 1-2c downward. Small size full cream in considerable accumulation, dull and weak; jobbers pay 9c for gilt edge lots, but lines of fancy quality can be bought 1-8@1-4c less. Part skims have worked out fairly at better prices, say 3@3½c for fair to prime, and 5 1-2@5 3-4c for choice, few parcels at 6c; the latter figures will probably be made for a number of the choice colored lots this week. The country markets are all higher. At Canton and Watertown on Saturday 10,000 boxes of white sold at 8 5-8c, 8 3-4c. The ruling price at Utica was 8 3-4c, and the Sandusky combination, colored, sold at 9c. Liverpool cable 45s 6d@46s 6d.

State factory, full skims	½@ 1

EGGS.

Receipts for the week, 3,191 bbls, 39,846 cases. The general features of the market have shown little change. Receipts are a little lighter, but still liberal, and there is very little improvement in quality. Buyers are looking for fine fresh goods, free from hot weather defects, and are few such arriving from northerly sections command a premium, but for average prime Western 15 cents is still top price, and there are many lots among the receipts which are too poor to give satisfaction, and for which there is no important outlet aside from the cheapest class of trade.

Western, fresh collections, fair to good	14½@ 14¾
Western, inferior and seconds, per case	$1 50 @$2 75

FRUITS AND BERRIES—FRESH.

Apples are plenty, but generally of a defective quality; for such the market is dull and weak, but there is a fair demand for choice, large, hand-picked stock. Pears quiet and without much change in prices. Far Southern peaches of the fancy late varieties are scarce and firm; Maryland and Delaware fruit is in moderate supply and firm. Southern grapes very dull, and grades below prime are not worth expenses. Currants firm. Huckleberries a shade better. Raspberries scarce and firm. Blackberries more plenty and easier. Muskmelons more plenty and dull. Watermelons in liberal supply and a shade easier.

DRIED FRUITS.

Receipts for week, 26 pkgs; exports, 231 pkgs. The demand for evaporated apples has been mainly against current requirements of the jobbing trade, and the moderate stocks available out of cold storage have tended to keep prices steady at 7 1-2@8 1-2c for choice to strictly fancy. A car of prime sold recently to go West on the basis of about 7c here. Sun-dried are relatively scarce, but not much inquiry for them. Chops and cores and skins dull. A few new sun-dried raspberries are jobbing at 17@18c; evaporated are offering freely to arrive at about the same figures. Cherries neglected and largely nominal. Blackberries very slow. California fruits dragging at easy prices.

HOPS.

Receipts for week, 1,696 bales; exports, 1,946 bales. The influences of firm European advices and fairly strong country markets have helped to keep the position here quite firm, and while the amount of business passing at the moment is light holders are carrying stocks with a good deal of confidence. Buyers who want choice State hops have to pay 22 cents, and an occasional lot is held for more money. Useful brewing stock can be had at 20 to 21 cents. Shipments abroad are still quite heavy but they will be lighter as soon as the hops bought some time ago are forwarded.

Rye straw, short, per 100 lb	45@55
Oat straw, per 100 lb	40@—

POULTRY.

Prices for live fowls have ruled very high, the offerings falling below the requirements of the trade. Receipts in so far this week have brought 15c, and that figure will probably be maintained on to-morrow's arrivals. Chickens have fluctuated somewhat, closing steady as quoted. Turkeys are higher under light receipts. Ducks and geese steady. Receipts of dressed poultry are larger, trade is extremely dull and prices rule lower for spring chickens, of which the supply is quite excessive. Fowls are held steady. Spring ducks not over plenty and held steady. Squabs quiet.

Spring chickens, large, per lb	15 @ 16
Spring chickens, small to good	13 @ 14
Fowls, Jersey, State and Penn., per lb	15 @ —

POTATOES AND VEGETABLES.

Potatoes in moderate supply and choice stock meets a fair demand. Sweet potatoes arrive only in small lots and prime large are wanted, unless steady. Cabbages and cauliflowers scarce and firm. Tomatoes in lighter supply and firmer. Nearly all other kinds of green vegetables are in moderate supply, owing to dry weather, and prices for most kinds rule firmer.

Potatoes, L I, in bulk, per bbl	$2 50@2 75

SUNDRIES.

NUTS—Peanuts dull; quoted at 4 3-4@5c for fancy hand-picked, and 3@3 3-4c for farmers'; Spanish shelled dull at 3 1-2c for No 1. No 2 quoted at 11 1-2@1 3-4c; Virginia No 1 shelled at 3 3-4@3c, and No 2 at 1 1-2@1c.

BEESWAX—Steady; Southern quoted at 26@27c.

MAPLE SUGAR—New bricks nominally quoted at 6 3-4@7c per lb, with demand quiet. Syrup dull at 65@70c per gallon can. No wholesale movement reported.

THE GENERAL MARKET REPORT.

New-York, August 1, 1893.

COTTON—The New-York cotton market started off at a decline of 5 or 3 points this morning with trading light. Official weather bulletin showed that there was a beneficial precipitation of rain all along the cotton sections of the Atlantic coast, thus giving much needed rain to the cotton-growing States. The rainfall in Texas extended to Palestine, in the southeastern corner of the State, with the probabilities of extending throughout the remainder of the cotton belt of the State. Cotton manufacturers reported cut many selling orders, most of the trading being on local account. The situation at Liverpool has not materially changed, and that market was not a factor here to-day. Outside of the reports of rain there were no features of very general interest. There is an under current of the nervousness and apprehension as to the outcome of legislation and the consequent troubles, and dread to the prolonged financial depression. In fact, it is said that cotton would break very materially under the influence of the shutting down of mills, with the consequent curtailing of spinning business if these branch factors were not materially offset by bad weather in the cotton States and the general backwardness of the crop. As to the crop, it is said that complaints are coming in from all sections of the cotton belt. Estimates place the maximum yield at about 7,000,000 bales, though this may be changed a half million bales or so one way or the other, as the crop prospects may improve or deteriorate between now and picking time. Complaints are coming to hand from cotton growers of the South of the scarcity of their liquidity to obtain money to move the crop freely, and the statement is reiterated that unless the financial situation changes very materially from what it is now and the time the crop will be ready to pick that great difficulty will be experienced in moving the cotton to market.

Opening, range, and close to-day, and closing bids the previous night and last year follow:

COFFEE—The course of the coffee market at New-York was slow and uneventful during the forenoon, and prices were not materially changed, there being very little local demand and no outside influences to cause any material fluctuations in prices. The foreign markets were generally a shade lower. During last hours to-day, however, there was some tremendous hammering, and this, helped by sensational reports received from Chicago in regard to failures there, caused prices to tumble rapidly, and the final close showed a decline of 40@60 points on active months, and 25@35 points on nominal months; market closing weak. An Amsterdam cable says that the Dutch sale went off at about brokers' valuations. The market was steady, with good ordinary Java, 51½c. Sales, 9,500 bags. Options quotations follow:

Rio market weak: No 7 coffee, Exchange standard, 12 8-200; good second, —, and 12⅛ for exchange. Receipts, 18,000 bags; 2 days' stock, 228,000 bags; Santos market weak; good average Santos, 12 8-500; receipts, 15,000 bags; 2 days' stock, 159,000 bags. Havre, ¼@½ lower. London, 34 lower. Hamburg, generally ¼ higher. The market for Rio on spot was dull and decidedly weaker on account of the break in futures, and 16½c was quoted as the basis for No 7. Mild coffee was dull. Total stock of Brazilian coffee in the United States to-day is 275,742 bags; total visible supply of Brazil coffee afloat and in the United States, 353,742 bags; afloat from Rio, Santos, etc., 118,000 bags; total stock in New-York, Boston, Philadelphia and Baltimore yesterday, 8,354 bags; stock, New-Orleans, 27,404 bags; in Baltimore, 49,782 bags.

DRUGS—The market is about as last quoted, there not being any material changes in any line, and buyers find no difficulty in getting all the goods they want at prices quite satisfactory to themselves. Opium is in slow demand and buyers of considerable quantities find a yielding scale to operate on. The quotation for good-sized round lots may be said to be from $2 30@$2 40 as an extreme, while jobbing lots are quoted at from $2 35@$2 40, with powdered at $3 25@$3 30. Quinine is quite dull with foreign quoted at 18@18½c for round lots, but cash buyers can buy at say 17½c.

FISH—Mackerel dull, owing to a small supply. Only small lots are coming in, hence prices keep up well. It is said that if many fish were offered the market would be broken, as the trade are not anxious buyers. The catch of American shore fish is light, and Prince Edward shore fish are about the only ones coming in. No box herring here, but some are due. Codfish in good demand for export at quotations. We quote: Massachusetts shore mackerel, new No 1, $22@$24; No 2, $18@$19; Norway bloaters, $33@$34; No 1 shore, $33; No 2, $24; No 3, $18. Irish mackerel, old, $14@$16; new No 3, rimmed, $12 50@$13. Box herring—Medium scaled, 12½@13c; No 1, 10@10½c; lengthwise, 12 @12½c. Barrelled herring—Labrador, new, $5 50@$6; Port and round, nominally $5; Portland, small, $3 75@$4; Scotch, medium, new, $9@$10; Scotch, large, full, $12@$14; Holland, new, white hoop, $10 50 in bbls, 60c in kegs; Holland, dark hoop, $9 50 in bbls, 70c in kegs. Codfish—Large size, $5 75@$6; medium size, $4 75@$5; boneless, 6¼@9c; boneless hake, 4c@5c.

FLOUR AND MEAL—There was quite a little improvement in the tone of the flour market to-day, buyers showing more disposition to pay old asking prices, and there developed quite a little trade to fill immediate wants by parties who have been holding off persistently for the end of the panic in wheat. There is no disposition to take lines of flour, or to buy anything for which there is not an immediate outlet. The close was quiet and fairly steady, although the reaction in wheat checked the selling demand at the close. Sales were 18,600 pkgs, including 2,000 bbls winter wheat flour, 4,000 bbls patents, on private terms, 4,200 bbls straights at $3 10@$3 20; 1,000 clears at $3 05, 550 sacks superfine at $2 10@$2 40, and of spring wheat flour 5,250 bbls at $3 90@$4 15, 150 bbls straights at $3 75, 1,100 bbls rye mix at $2 50@$2 65; 600 bbls extra No 1 on private terms, 2,900 bbls extra No 2 to arrive, on private terms. The market for Southern flour is nominally unchanged, with no sales reported.

RYE FLOUR—The market for rye flour is easier, with sales of 200 bbls at $3 10@$3 15.

CORNMEAL—The market continues steady. Sales, 500 bbls and 1,600 sacks. Quotations were: Yellow Western, $2 65@$2 75; Southern, white, bags, $1 15@$1 25.

BAG MEAL—Quiet but firm. Quotations: Fine white, $1 08@$1 10; fine yellow, $1 08@$1 10; coarse, 90@97c.

FEED—Market quiet but firm. Quotations of Western in car lots: 40-lb, 75@80c; 60-lb, 75@80c; 50-lb, 75@80c; 100-lb, 80@85c; sharps, 90@95c; rye feed, 75@80c; hominy chop, $0@$85c; cottonseed meal, $1 20 per 100 lb; oil meal, $1 25. City is quoted at 80c in bag, with sales of 5,000 bags.

FOREIGN DRIED FRUITS—The market very quiet and easy. Malaga raisins, choiceest, $1 75@$3; muscatels, $1 35@$2; sultana, 6@8½c; Persian dates, 2½@3½c; fig, in boxes, 4½@4½c; in sacks, 6@6½c; currants, bbls, 2¾c; figs, Smyrna, layers, 14@17c; prunes, California, boxes, 40@90c, 5½@12c. Brazil nuts, new, 4½@5½c.

FOREIGN GREEN FRUITS—There are now 8 steamers on the way to New-York, together bringing about 110,000 boxes of Mediterranean oranges and about 154,300 boxes of Mediterranean lemons. We quote: Bananas, firsts, $1@$1 12½; seconds, 75@80c; pineapples, $5@$14 for super load; $4@$12 per 100 for ordinary; cocoanuts, $12@$28 per M; Almeria grapes, per bbl, —; lemons, Sicily, fair to fancy, $3@$5; oranges, Sicily, $2 25@$3 25.

GRAIN—WHEAT—A better feeling prevailed in wheat this morning, partially the result of the very heavy export demand of yesterday, partly the result of better news in Wall Street, but more particularly the fact that the August liquidation is over and the wheat on which it had been impossible to borrow money placed in the Western market for carrying to September. As an outcome of this the wheat market here opened 1c a bush higher, and the demoralized Chicago market 1½c higher. The better feeling at the start proved fleeting, and within the first half hour the advance had all to be lost on selling by parties scared by the panic in pork in Chicago, arousing belief that the demoralization would extend again to wheat and cause renewed liquidation. Such was not the case, however, and after midday prices again assumed an aggressive front, advancing to the opening prices. There was really not a great deal of wheat for sale, but the offers of it were in excess of the requirements of the trade, and this was enough to cause a feeling of nervousness and apprehension. General news was not particularly important on either side of the market. Interior arrivals are good, but owing to the unsatisfactory prices of wheat are much below last year's figures. The weather in the Northwest has been hot and gives occasion for reports of injury to the maturing crop. Cables were more fully steady, considering the great depression of yesterday, and the closing cables to-day showed fractional gains at both Liverpool and Paris. Deliveries of wheat on August contracts were small, figuring up about only 500,000 bush in this market and about 800,000 bush in Chicago. However, a great deal of wheat has been turned out in the interior and good deal forced into the cash market, so that the actual deliveries to-day did not represent fully the amount of wheat which had not been placed. The market maintained a fairly steady front up to 1 30, when out of the apparently clear sky came the collapse of the lard deal at Chicago and the resulting heavy decline in prices. Wheat suffered sharply in the general decline, to the lowest prices of the day, and closed below the closing figures of yesterday. The failures in the provision trade, particularly in lard, seemed to bring some further liquidation in wheat and the market was not supported by the large cash business which gave the feeling of confidence yesterday. The cash business to-day footed up 232,000 bush including 200,000 bush for export, as follows: No 2 red, 94½c in store and elevator, September, delivered, 94½@94¾c; September for the month, 94½@94¾c; September f o b afloat, 94½c; September f o b afloat, No 2 red, 48,000 bush, 94½c; September f o b afloat, No 2 hard winter, 15,000 bush, ¼c to 94½c under September delivered; No 1 hard, 24,000 bush, 1c under September delivered; No 1 Northern spring, 72,000 bush, 1c under September delivered, 94½c; September, 94½c; September delivered, No 2 red, and 1¼c to 1½c ahead; ungraded, 40,000 bush, on private terms, delivered.

CORN—The market in corn sympathized with the better feeling in wheat and opened at an advance on the closing figures of yesterday, with a moderate volume of trade. There was some disposition to prospect of a rally to cover by the wheat market, but the demoralization in provisions led to renewed selling and prices weakened, rallying subsequently with a fair volume of local business. Reports regarding the growing crop are earlier quite unsatisfactory, indicating, as they do, considerable damage from the prolonged hot weather, notwithstanding the various reports from Illinois. Stripped of the exaggerations it would seem that corn is in rather a critical condition in some localities owing to the drouth, but as yet is not seriously hurt. Deliveries here were none, but at Chicago 50,000 bush were turned out on August contracts. The market throughout the afternoon was quiet, but comparatively steady under the influence of the rally in wheat, and prices closed fairly steady, with the cash market in close sympathy with the sharp break in wheat. Foreign houses were indifferent. The transactions in corn aggregated 41,000 bush, of which 10,000 bush were for export. Sales in detail follow: No 2 corn, 1,000 bush, August, prime in elevator; No 2 corn, 10,000 bush, 47½c delivered; 20,000 bush, August, 47½c, the same delivered. Oats followed practically the same movement as corn. A better feeling prevailed in the morning in sympathy with the improvement in wheat, but subsequently another improvement in pr
